Paradolia®

Versatile, Beautiful, and Highly Functional

Artfully and thoughtfully created by a variety of featured designers, the Paradolia portfolio showcases solutions from Tim Alpen, Brad Ascalon, Kauppi & Kauppi, and Stone Designs.

A-frame screens divide space while serving as a collaboration tool and are easily nested for storage. Softened floor screens, with and without a glass magnetic markerboard accent, are a mobile option that effortlessly move from space to space. Angled leg floor screens are available in two sizes and provide a large tackable space with solid hardwood legs.

The dual-sided floor screen, featuring a pass-through shelf and storage system, is a mobile unit that has tackable fabric and magnetic markerboard surfaces. The wall panels attach to a suspension rod with leather straps, providing functional sound absorption for walled environments.

Please reference the price list for full statement of line and material options.
