

CLAMBER™

Tiered Seating

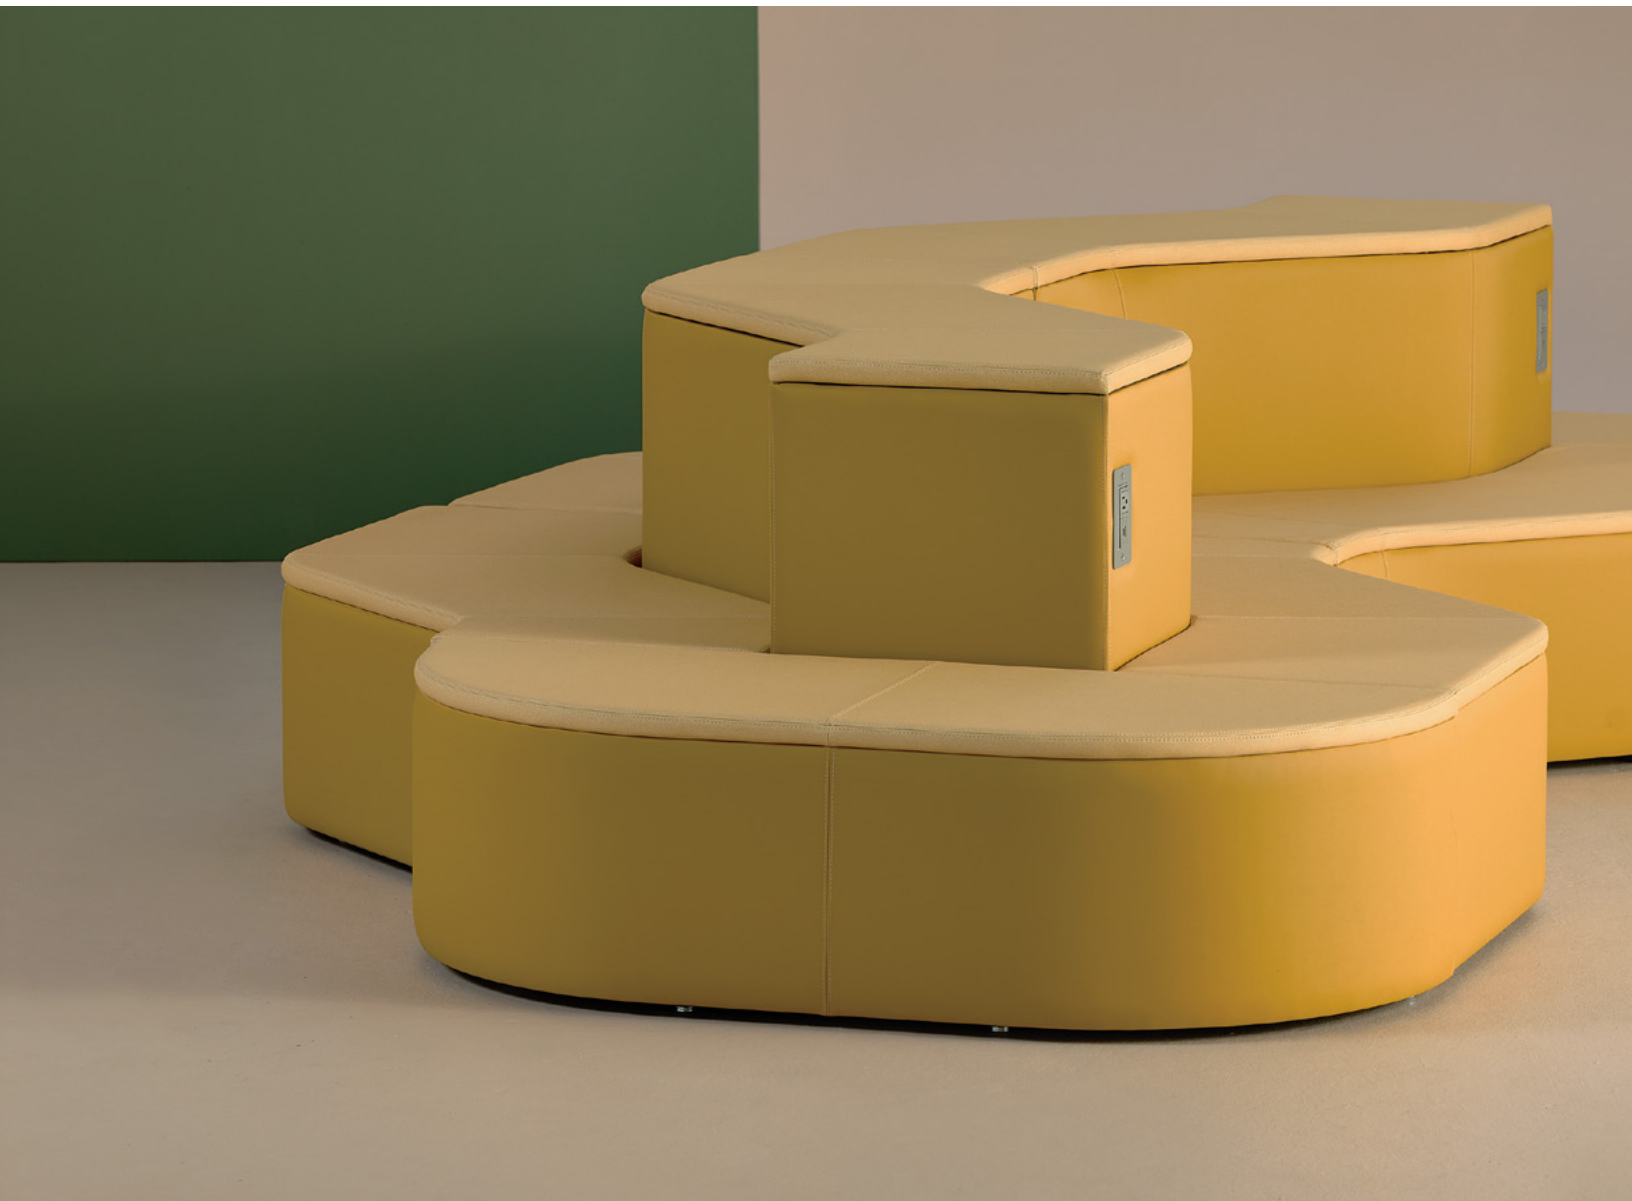

DARE TO PLAY. DARE TO CLIMB. DARE TO CLAMBER.

Turn traditional seating rules upside down with Clamber reconfigurable, multi-level modular units. Clamber brings unmatched versatility with optional integrated walls and worksurfaces, effortlessly transforming any space. Integrated storage and planter modules further expand it's versatility, supporting organized environments while introducing opportunities for biophilic connection.

ADAPTABLE PERFORMANCE

With reconfigurable units, tier top material options, and replaceable components, Clamber empowers users to reinvent dynamic environments, offering flexible, high-performance seating for ever-changing spaces.

ORGANIZED BY DESIGN

Clamber integrates storage directly into its modular footprint, supporting organized, high-functioning environments. Storage configurations double as seating, and open shelving provides dedicated space for personal belongings and shared materials while preserving the form and visual rhythm of Clamber. By combining modularity, flexibility, and organization in a single system, Clamber helps spaces feel intentional and cohesive.

INTEGRATED GREENERY

Planters bring warmth and visual softness to tiered configurations, reinforcing the connection between people and their environment. The result is a flexible seating landscape that supports focus, collaboration, and wellbeing.

Liner required for use with live plants. Plants and liners purchased separately.
