Yardage	Grade	List Price Per Yard
1	C	\$ 49
1	D	\$ 64
1	E	\$ 78
1	F	\$ 100
1	G	\$ 122
1	H	\$ 144
1	I	\$ 178
1	J	\$ 222
1	K	\$ 289
1	L	\$ 333
1	M	\$ 422

To calculate the fabric option price, multiply the model's total yardage by the fabric grade's list price per yard. Add this fabric option price to the base model price to determine the total price. Fabric yardage can be found on the model pricing page.

Specifications Form January 2023

How to Specify

As a standard procedure, KI applies seating upholstery as swatched by the textile distributor. Reference distributor's website. Upholstery that is required to be applied differently than is swatched, will need a Product Modification Request written specifying the direction the upholstery is to be applied. RAILOADED FABRIC REQUIRES A PRODUCT MODIFICATION REQUEST DUE TO ADDITIONAL YARDAGE REQUIREMENTS

Seating upholstery requiring specific positioning of intricate patterns or patterns repeats on seats and backrests, will need a Product Modification Request written including a sketch noting the specific requirements, as in Diagram A.

C.O.M. must be supplied in continuous yardage.

Yardage requirements listed in price list are based on plain goods 54" wide. Fabrics less than 54" wide, or those requiring matching (stripes, plaids, prints, large patterns) will require additional yardage based on the fabric used and the item ordered. Consult matrix below for additional yardage needed.

C.O.M. INCREASE MATRIX (yardage matrix is also applicable to any reservations of KI Ingrade, Pallas, or K.O.M. upholsteries).

This table is a general guide.

FABRIC WIDTH	PLAIN FABRIC	UNDER 7"	8"-13"	14"-21"	22"-27"	28"-33"	34"-40"	41"-48"
		REPEAT	REPEAT	REPEAT	REPEAT	REPEAT	REPEAT	REPEAT
54"	0	20%	25%	30%	45%	55%	70%	80%
51"-53"	15%	25%	30%	35%	50%	60%	80%	90%
48"-50"	20%	30%	35%	40%	55%	65%	85%	95%
45"-47"	30%	45%	50%	55%	60%	80%	90%	100%
36"-44"	50%	65%	70%	75%	80%	100%	110%	120%

Fabric with double repeat: If using a fabric with a double repeat, please follow this formula: take the total amount of the larger and half of the smaller repeat; add together to find the correct overall repeat. Example: 10" vertical with 14" horizontal would be $14 + \frac{10}{2} = 19$.

If fabric comes in on multiple rolls, one additional yard per roll needs to be added to the yardage requirement.

Leather hides must be a minimum of 50 square feet of usable material. The outer edges cannot be calculated as square feet or yardage. To determine square footage, multiply unit yardage by 18 square feet to obtain the total square footage required per unit.

For exact production yardage requirements, call 1-800-424-2432, ext. 2707.

Production

Customer's upholstery must be approved prior to acceptance for production.

After approval, a memo swatch of the C.O.M. from the textile distributor must accompany the order. KI assumes no responsibility for wear, defects, or performance of C.O.M. or K.O.M. upholstery.

C.O.M. not received into the appropriate facility 3 weeks prior to acknowledged delivery date may go on hold. See KI C.O.M.

Shipping Location listing for the correct facility address by product.

All C.O.M. must be labeled as follows:

1. Name and address
2. Your purchase order number
3. Our style number to which fabric is to be applied
4. Supplier name and fabric name, number, and color

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Testing

When KI requires testing, actual yardage to upholster one chair may be required. The C.O.M. Specialist will confirm model and fabric testing requirements when applicable.

Approved test samples will be applied to the order or will be held for 6 months. After 6 months, the sample will no longer be applied to your order. For all product testing, send fabric samples to the manufacturing facility. See KI C.O.M. Shipping Location listing for the correct facility address by product.

ALL C.O.M. Shipments must be prepaid. Collect shipments will be refused.

Treated Materials

If C.O.M. requires processing such as a stain resistance treatment or acrylic backing, it may shrink. To prevent delays in delivery or back ordering due to shrinkage, please have your processor verify measurement after processing and assure adequate yardage shipped.

Split Orders

If a portion of the shipment which does not require C.O.M. application is to be processed and shipped early, KI will enter the order immediately at your request. These split shipments are subject to minimum order changes.

Excess Upholstery Material

KI will dispose of excess upholstery material at the time of shipment unless expressly requested to return it with the product shipment.

Cancelled or Changed Orders

KI assumes no responsibility for extra C.O.M. due to a change of upholstery or cancellation of an order. If it the customer's responsibility to arrange for return of the material.

Contact the C.O.M. Specialist at 1-800-424-2432, ext. 2707, with questions or to request a split order

Frame

All seat and backrest frames are constructed of $\frac{3}{4}$ " laminated hardwood plywood, CNC cut. All main frame joints are nailed and glued in addition to interlocking joinery across all stress points.

Foam

MyPlace backless junior models use foam that is 2.6 density, 80 lb compression with 2" thick seat. $\frac{3}{4}$ " thick foam covers all exposed sides.

The following MyPlace ottoman standard sized models use a high-density foam for firm support: MP18R, MP26R, MPCRE, MP18H, MP18C, M36R, M48R, M26H, M36H, M48H, M36CRE, M48CRE, M36SQR, and M48SQR. The foam is 2.6 density, 80 lb compression with 2" thick seat. $\frac{3}{4}$ " thick foam covers all exposed sides. The MPTEDP uses a high-density foam that is $\frac{3}{4}$ " thick, 2.6 density, 80 lb compression.

The following MyPlace backless & 32" low-back standard sized models use a soft sit high-density foam providing enhanced user comfort: MPSQR, MP5S, MPCRIV, MPICB, MPOCB, MPRCT, MPRB, MPCRIN, MPSQRL, MPC30, MPC45, MPC60, MPC130, MPC145, MPC160, MPCO30, MPCO45 and MPCO60. The foam is 2.5 density, 45 lb compression with 2 $\frac{1}{2}$ " thick seat, topped with $\frac{1}{2}$ " of 2.6 density 80 lb compression foam. The backs are 1 $\frac{1}{2}$ " total thickness consisting of 1" thick 2.5 density - 45 lb and a $\frac{1}{2}$ " topper of 2.6 density - 80 lb compression foam. $\frac{3}{4}$ " of 2.6 density, 80 lb compression foam covers all exposed sides.

Sewing

All MyPlace lounge units are double-needle stitched at all primary seams for lasting durability.

Base Options

Active Base

The active base is $\frac{1}{4}$ " thick convex molded ABS, 1 $\frac{7}{8}$ " high, and has a slip-resistant texture on the bottom. Available only in black. Available on 18" round, 18" hexagon, junior 18" round and junior 18" hexagon ottomans only.

Casters

Casters are 2" high and use 1 $\frac{1}{2}$ " diameter dual soft swivel wheels with a 150 lb weight rating per caster. They are black in color with four or five casters used per lounge depending upon model. Casters are only available non-locking. **Note:** Caster lounges cannot be ganged.

Concealed Glides

Concealed glides are height-adjustable steel, $\frac{1}{4}$ -20 threaded with a natural color nylon bottom. Glides allow for $\frac{3}{4}$ " of height adjustment, except for in-line table glides which allow for $\frac{1}{4}$ " height adjustment. Four or five glides are used per lounge depending upon model. In-line table concealed glides are adjustable, screw-in as opposed to nail-in.

Feet

Cast Aluminum Feet

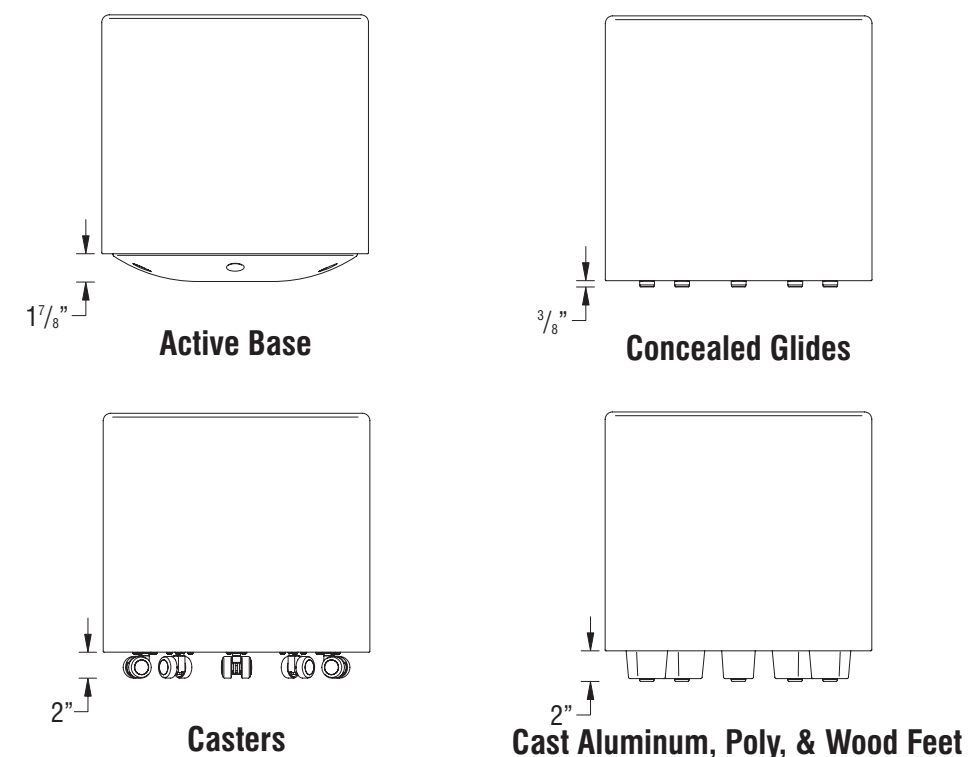

Cast aluminum feet are 2" high and mounted to the underside frame using $\frac{5}{16}$ -18 x 1 $\frac{1}{2}$ " set screws. Feet are offered in brushed aluminum or finished in powder-coat paint with four or five feet used per lounge, depending upon model. A height-adjustable steel $\frac{1}{4}$ -20 threaded, natural color, impact resistant nylon glide bottom allows for $\frac{3}{4}$ " of leveling. See KI Color Addendum for paint color offering. Cast aluminum feet are not available on MyPlace Junior models.

Poly Feet

Poly feet are 2" high polyurethane, and contain an adjustable glide. The height-adjustable steel $\frac{1}{4}$ -20 threaded, natural color, impact resistant nylon glide bottom allows for $\frac{3}{4}$ " of leveling. Poly feet are mounted to the underside frame using $\frac{5}{16}$ -18 x 1 $\frac{1}{2}$ " set screws. Feet are black in color with four or five feet used per lounge, depending upon model.

Wood Feet

Wood feet are 2" high and made from 2" x 2" x 2" Beech hardwood, kiln dried to a moisture content of 6%. Exposed wood is sanded with 220 grit sand paper, then spray stained with KI standard colors, or a non-standard color match and placed in a burn-off oven for one hour at 140-150 degrees. The wood is then sealed to prevent moisture imbalance and finish sanded with 400 grit sand paper for fine detailing. The final step for wood feet is the application of a varnish topcoat, then feet are oven baked. Both the sealer and finish coats contain an anti-microbial protectant. A height-adjustable steel $\frac{1}{4}$ -20 threaded, natural color, impact resistant nylon glide bottom allows for $\frac{3}{4}$ " of leveling. Four to five wood feet are used per lounge depending upon model. See KI color addendum for stain color offering.

Ganging

Backless, 32" low-back & table gangers are made from 10-gauge steel ($\frac{1}{8}$ " thick), powder-coated black and mounted to the underside of any lounge using #14 x 1" wood screws. Only the feet and concealed glide base options are available to use gangers.

Electrical System

Byrne Mini-Tap® Power Module with 3-Prong Plug

MyPlace backless lounges and 32" low-back standard size lounges can be configured with optional Byrne Mini-Tap® power modules with 3-prong plug (a self-contained, UL listed single relocatable power tap). One 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB-A port, and one USB-C port (2.0 and 3.0 compatible, no data), provide connection for device charging or direct AC power. Byrne Mini-Tap® power module is standard with 72" long, 14 AWG, 15-amp NEMA rated 3-conductor SJT cord with a three-prong grounded plug. The 3-prong plug is oriented straight off the power cord. Faceplates are optionally either black in color with black outlet ports, white with white outlet ports, or silver with black outlet ports. Cord is black.

One Byrne Mini-Tap® power module with 3-prong plug is available per model. See MyPlace Lounge Furniture - Planning Guide (KI-PG-000020) for configurable power locations.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note:

- The indicates that a choice is required.
- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

See pricing column for moisture barrier upcharge.

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
 - For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2. Refer to ki.com/fabrics.
 - For yardage pricing, see Fabric Yardage Pricing page
- D** Select wood feet finish. Refer to the **Product Color Options** page in this price list.
- E** Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.
- F** Select moisture barrier.
 - MB** - Moisture barrier
 - NMB** - No moisture barrier

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note: • The indicates that a choice is required.

- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1.
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2.
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select wood feet finish.
Refer to the **Product Color Options** page in this price list.
- E** Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
See pricing column for moisture barrier upcharge.

SPECIAL SERVICES**Special Carton Marking**

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Non-contrast or fabric contrast 1
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2.
Refer to ki.com/fabrics
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select power option.

RPT	- Mini-Tap power module w/3-prong plug; add \$314
NP	- No power
- E** Select Mini-Tap module w/3-prong plug location.

ICLF	- Inside curve left facing power
OCLF	- Outside curve left facing power
ICRF	- Inside curve right facing power
OCRF	- Outside curve right facing power
- F** Select module color.

MPB	- Black power module
MPS	- Silver power module
MPW	- White power module
- G** Select wood feet finish.
Refer to the **Product Color Options** page in this price list.
- H** Select brushed aluminum feet finish.
Refer to the **Product Color Options** page in this price list.
- I** Select moisture barrier.

MB	- Moisture barrier
NMB	- No moisture barrier

 See pricing column for moisture barrier upcharge.

HOW TO ORDER
 Indicate the following information on order form:
 1. Quantity of each item.
 2. Model number, including options. See "How to Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Non-contrast or fabric contrast 1
 Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page

C Select fabric contrast 2.
 Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page

D Select fabric contrast 3.
 Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page

E Select power option.
RPT - Mini-Tap power module w/3-prong plug; add \$314
NP - No power

F Select module color.

G Select wood feet finish.
 Refer to the **Product Color Options** page in this price list.

H Select brushed aluminum feet finish.
 Refer to the **Product Color Options** page in this price list.

I Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
 See pricing column for moisture barrier upcharge.

MPB - Black power module
MPS - Silver power module
MPW - White power module

HOW TO ORDER

Indicate the following information on order form:
 1. Quantity of each item.
 2. Model number, including options. See "How To Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Non-contrast or fabric contrast 1
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2.
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select fabric contrast 3.
Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- E** Select power option.
RPT - Mini-Tap power module w/3-prong plug; add \$314
NP - No power
- F** Select Mini-Tap module w/3-prong plug

- location.
LFP - Left-facing power
RFP - Right-facing power
- G** Select module color.
MPB - Black power module
MPS - Silver power module
MPW - White power module
- H** Select wood feet finish.
Refer to the **Product Color Options** page in this price list.
- I** Select brushed aluminum feet finish.
Refer to the **Product Color Options** page in this price list.
- J** Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
See pricing column for moisture barrier upcharge.

Frame

All seat and backrest frames are constructed of 3/4" laminated hardwood plywood, CNC cut. All main frame joints are nailed and glued, in addition to interlocking joinery across all stress points. Seats are removeable without tools for cleaning and electrical inspection. Frame bases are coated with a black stain and sealer to seal and protect wooden frames from liquid spills. The seat base contains multiple pass-through cutouts to allow liquid and debris to route to the floor. Seats feature a curved clean-out space to route liquid and debris towards floor.

Foam

All MyPlace High-Back models use seat foam that is 2.5" thick, 2.5 density - 45 lb compression, topped with 1/2" thick, 2.6 density - 80 lb compression foam. The backrest foam is 1 1/2" total thickness consisting of 1" thick, 2.5 density - 45 lb compression foam, and topped with a 1/2" thick, 2.6 density - 80 lb compression foam. The headrest topper has 1 3/8" thick, 2.5 density - 45 lb compression foam on the seating side. All non-seating sides have a 3/4" thick, 2.6 density - 80 lb compression foam covering.

Sewing

All MyPlace Lounge units are double-needle stitched at all primary seams for lasting durability.

Base Options

Poly Feet

Poly feet are 2" high polyurethane, and contain an adjustable glide. The height-adjustable steel 1/4-20 threaded, natural color, impact resistant nylon glide bottom allows for 3/4" of leveling. Poly feet are mounted to the underside frame using 5/16-18 x 1 1/2" set screws. Feet are black in color with four or five feet used per lounge, depending upon model.

Wood Feet

Wood feet are 2" high and made from 2" x 2" x 2" beech hardwood, kiln dried to a moisture content of 6%. Exposed wood is sanded with 220 grit sand paper, then spray stained with KI standard colors, or a non-standard color match and placed in a burn-off oven for one hour at 140-150 degrees. The wood is then sealed to prevent moisture imbalance and finish sanded with 400 grit sand paper for fine detailing. The final step for wood feet is the application of a varnish topcoat, then feet are oven baked. Both the sealer and finish coats contain an anti-microbial protectant. A height-adjustable steel 1/4-20 threaded, natural color, impact resistant nylon glide bottom allows for 3/4" of leveling. Four to five wood feet are used per lounge depending upon model. See KI color addendum for stain color offering.

Cast Aluminum Feet

Cast aluminum feet are 2" high and mounted to the underside frame using 5/16-18 x 1 1/2" set screws. Feet are offered in brushed aluminum or painted in powder-coat paint with four or five feet used per lounge, depending upon model. A height-adjustable steel 1/4-20 threaded, natural color, impact resistant nylon glide bottom allows for 3/4" of leveling. See KI Color Addendum for paint color offering.

Concealed Glides

Concealed glides are height-adjustable steel, 1/4-20 threaded with a natural color nylon bottom allowing for 3/4" of leveling. Four to five adjustable glides are used per lounge depending upon model.

Ganging

Gangers are made from steel and are either, painted with a black finish and are mounted using #10 x 3/4" wood screws.

- 60" high-back gangers - formed of 12-gauge steel. Gangers included with 60" high-back lounge models.
- High-back base gangers - formed of 14-gauge steel. Gangers included with all 48" and 60" high-back models.
- 48" high-back catch & hook gangers - formed 10-gauge steel. Gangers included with all 48" high-back models.
- High-back to low-back, backless or inline table gangers - formed of 12-gauge steel. Gangers must be ordered separately. See MyPlace Lounge Furniture - Planning Guide (KI-PG-000020) for more information.

Electrical System Options

Byrne Mini-Tap® Power Module with 3-Prong Plug

MyPlace High-Back can be configured with optional Byrne Mini-Tap® power modules with 3-prong plug (a self-contained, UL listed single relocatable power tap). One 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB-A port, and one USB-C port (2.0 and 3.0 compatible, no data), provide connection for device charging or direct AC power. Byrne Mini-Tap® power module is standard with 72" long, 14 AWG, 15-amp NEMA rated 3-conductor SJT cord with a three-prong grounded plug. The 3-prong plug is oriented straight off the power cord. Faceplates are optionally either black in color with black outlet ports, white with white outlet ports, or silver with black outlet ports. Cord is black.

One Byrne Mini-Tap® power module with 3-prong plug is available per model, and may be configurable for front and rear power outlets. See MyPlace Lounge Furniture - Planning Guide (KI-PG-000020) for configurable power locations.

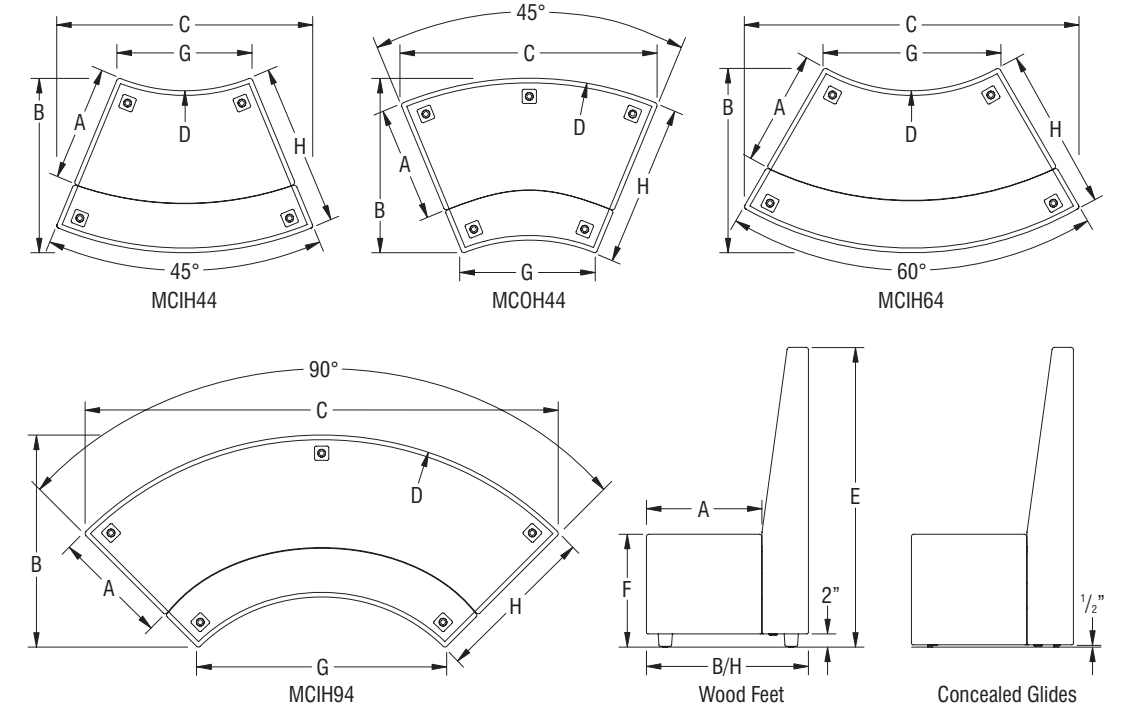

Byrne Interlink® IQ System

Optionally, MyPlace High-Back can be configured with Byrne Interlink® IQ system (an ETL-Listed, 120-volt single circuit electrical system). Interlink® IQ is a non-sequential power system that allows users to "daisy-chain" multiple power modules together powered by one infeed (ordered separately). The infeed cord is a 10' long, 14 AWG, 15-amp NEMA rated 3-conductor SJT cord with a three-prong grounded plug. Faceplates are optionally either black in color with black outlet ports, white with white outlet ports, or silver with black outlet ports. Cord is black.

Byrne Mini-Tap® Power Module for Interlink IQ

Up to eight total Byrne Mini-Tap power modules for Interlink IQ can be configured in a multi-lounge plan, and are configured as part of the lounge units. Modules contain one 15-amp, 125 volt AC simplex receptacle with one 2.1-amp, 5 volt DC USB-A port, and one USB-C port (2.0 and 3.0 compatible, no data), providing connection for device charging or direct AC power. The module to module cord connections are keyed and light indicated for proper hook up.

Up to four power modules per lounge are available, depending upon model, and may be configurable for front and rear power outlets. See the planning guide for configurable power locations.

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See "How To Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.
• Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select fabric contrast 3. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- E** Select power option.
NP - No power
WP - With power
- F** Select power type.
DCP - Byrne Interlink IQ System w/Mini-Tap module OR jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered separately)
RPT - Mini-Tap power module w/3-prong plug; add \$314

- G** Select Mini-Tap® module w/3-prong plug location.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
- H** Select Byrne Interlink®IQ System type.
DCJ - Byrne Interlink IQ System jumper only; add \$124
DSMOD - Byrne Interlink IQ System w/Mini-Tap module
- I** Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
MOD1 - One module; add \$404
MOD2 - Two Modules; add \$807
MOD3 - Three modules; add \$1211
MOD4 - Four modules; add \$1614
- J** Select Byrne Interlink® IQ System w/Mini-Tap Module location(s).
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
LFLR - Left front, left rear facing power

- K** Select module color.
MPB - Black power module
MPS - Silver power module
MPW - White power module
- L** Select wood feet finish. Refer to the **Product Color Options** page in this price list.
- M** Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.
- N** Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier

See pricing column for moisture barrier upcharge.

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers power modules with a 3-prong plug (ETL Listed) or Byrne Interlink® IQ electrical system (an ETL Listed Furniture Power Distribution Unit, electrical system.) Because the system is ETL Listed, MyPlace™ Lounge has not been listed. All 48" high-back models can be used as free-standing units or can be ganged to other 48" high-back or 60" high-back models. Gangers are included for traditional lineal ganging with 48" high-back models, however, please note installing concealed gangers on 48" high-back models will permanently alter upholstery. Please see Installation Guide for further information related to ganging.

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See "How To Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.
• Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select fabric contrast 3. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- E** Select power option.
NP - No power
WP - With power
- F** Select power type.
DCP - Byrne Interlink IQ System w/Mini-Tap module OR jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered seperately)
RPT - Mini-Tap power module w/3-prong plug; add \$314

- G** Select Mini-Tap® module w/3-prong plug location.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
- H** Select Byrne Interlink®IQ System type.
DCJ - Byrne Interlink IQ System jumper only; add \$124
DSMOD - Byrne Interlink IQ System w/Mini-Tap module
- I** Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
MOD1 - One module; add \$404
MOD2 - Two Modules; add \$807
MOD3 - Three modules; add \$1211
MOD4 - Four modules; add \$1614
- J** Select Byrne Interlink®IQ System w/Mini-Tap® module location(s).
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
LFLR - Left front, left rear facing power
LFRF - Left front, right front facing power
LFRR - Left front, right rear facing power

- K** Select module color.
MPB - Black power module
MPS - Silver power module
MPW - White power module
- L** Select wood feet finish. Refer to the **Product Color Options** page in this price list.
- M** Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.
- N** Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
See pricing column for moisture barrier upcharge.

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers power modules with a 3-prong plug (ETL Listed) or Byrne Interlink® IQ electrical system (an ETL Listed Furniture Power Distribution Unit, electrical system.) Because the system is ETL Listed, MyPlace™ Lounge has not been listed. All 48" high-back models can be used as free-standing units or can be ganged to other 48" high-back or 60" high-back models. Gangers are included for traditional lineal ganging with 48" high-back models, however, please note installing concealed gangers on 48" high-back models will permanently alter upholstery. Please see Installation Guide for further information related to ganging.

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers power modules with a 3-prong plug (ETL Listed) or Byrne Interlink® IQ electrical system (an ETL Listed Furniture Power Distribution Unit, electrical system.) Because the system is ETL Listed, MyPlace™ Lounge has not been listed. All 48" high-back models can be used as free-standing units or can be ganged to other 48" high-back or 60" high-back models. Gangers are included for traditional lineal ganging with 48" high-back models, however, please note installing concealed gangers on 48" high-back models will permanently alter upholstery. Please see Installation Guide for further information related to ganging.

- N** Select moisture barrier.
 MB - Moisture barrier
 NMB - No moisture barrier

See pricing column for moisture barrier upcharge.

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers power modules with a 3-prong plug (ETL Listed) or Byrne Interlink® IQ electrical system (an ETL Listed Furniture Power Distribution Unit, electrical system.) Because the system is ETL Listed, MyPlace™ Lounge has not been listed. All 48" high-back models can be used as free-standing units or can be ganged to other 48" high-back or 60" high-back models. Gangers are included for traditional lineal ganging with 48" high-back models, however, please note installing concealed gangers on 48" high-back models will permanently alter upholstery. Please see Installation Guide for further information related to ganging.

LFRFRR - Left front, right front, right rear facing power
RFLRRR - Right front, left rear, right rear facing power
LFRFLRRR - Left front, right front, left rear, right rear facing power

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers power modules with a 3-prong plug (ETL Listed) or Byrne Interlink® IQ electrical system (an ETL Listed Furniture Power Distribution Unit, electrical system.) Because the system is ETL Listed, MyPlace™ Lounge has not been listed. All 48" high-back models can be used as free-standing units or can be ganged to other 48" high-back or 60" high-back models. Gangers are included for traditional lineal ganging with 48" high-back models, however, please note installing concealed gangers on 48" high-back models will permanently alter upholstery. Please see Installation Guide for further information related to ganging.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page

C Select power option.
NP - No power
WP - With power

D Select power type.
DCP - Byrne Interlink IQ System w/Mini-Tap module OR jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered seperately)
RPT - Mini-Tap power module w/3-prong plug; add \$314

E Select Mini-Tap® module w/3-prong plug location.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power

F Select Byrne Interlink®IQ System type.
DCJ - Byrne Interlink IQ System jumper only; add \$124
DSMOD - Byrne Interlink IQ System w/Mini-Tap module

G Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
MOD1 - One module; add \$404
MOD2 - Two Modules; add \$807
MOD3 - Three modules; add \$1211
MOD4 - Four modules; add \$1614

H Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
LFLR - Left front, left rear facing power
LFRF - Left front, right front facing power
LFRR - Left front, right rear facing power
LRRF - Left rear, right front facing power
LRRR - Left rear, right rear facing power
RRRF - Right rear, right front facing power
LFLRRR - Left front, left rear, right rear facing power
LFRFLR - Left front, right front, left rear facing power
LFRFRR - Left front, right front, right rear facing power

RFLRRR - Right front, left rear, right rear facing power
LFRFLRRR - Left front, right front, left rear, right rear facing power

I Select module color.
MPB - Black power module
MPS - Silver power module
MPW - White power module

J Select wood feet finish. Refer to the **Product Color Options** page in this price list.

K Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.

L Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
See pricing column for moisture barrier upcharge.

• D=18.5" H=18"

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The indicates that a choice is required.
- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.

- For yardage pricing, see Fabric Yardage Pricing page

C Select fabric contrast 2. Refer to ki.com/fabrics.

- For yardage pricing, see Fabric Yardage Pricing page

D Select fabric contrast 3. Refer to ki.com/fabrics.

- For yardage pricing, see Fabric Yardage Pricing page

E Select power option.

NP - No power
WP - With power

F Select power type.

DCP - Byrne Interlink IQ System w/Mini-

Tap module OR jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered seperately)

RPT - Mini-Tap power module w/3-prong plug; add \$314

G Select Mini-Tap® module w/3-prong plug location.

LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power

H Select Byrne Interlink®IQ System type.

DCJ - Byrne Interlink IQ System jumper only; add \$124
DSMOD - Byrne Interlink IQ System w/Mini-Tap module

I Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.

MOD1 - One module; add \$404
MOD2 - Two Modules; add \$807
MOD3 - Three modules; add \$1211

J Select Byrne Interlink®IQ System w/Mini-Tap® module location(s).

LRFP - Left rear facing power

RFFP - Right front facing power
RRFP - Right rear facing power
LRRF - Left rear, right front facing power
LRRR - Left rear, right rear facing power
RRRF - Right rear, right front facing power
RFLRRR - Right front, left rear, right rear facing power

K Select power module color.

MPB - Black power module
MPS - Silver power module
MPW - White power module

L Select wood feet finish. Refer to the **Product Color Options** page in this price list.

M Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.

N Select moisture barrier.

MB - Moisture barrier
NMB - No moisture barrier

See pricing column for moisture barrier upcharge.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page
- C** Select power option.
NP - No power
WP - With power
- D** Select power type.
DCP - Byrne Interlink IQ System w/Mini-Tap module OR jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered separately)
RPT - Mini-Tap power module w/3-prong plug; add \$314
- E** Select Mini-Tap® module w/3-prong plug location.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power

- F** Select Byrne Interlink®IQ System type.
DCJ - Byrne Interlink IQ System jumper only; add \$124
DSMOD - Byrne Interlink IQ System w/Mini-Tap module
- G** Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
MOD1 - One module; add \$404
MOD2 - Two Modules; add \$807
MOD3 - Three modules; add \$1211
MOD4 - Four modules; add \$1614
- H** Select Byrne Interlink®IQ System w/Mini-Tap® module location(s).
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
LFLR - Left front, left rear facing power
LFRF - Left front, right front facing power
LFRR - Left front, right rear facing power
LRRF - Left rear, right front facing power
LRRR - Left rear, right rear facing power
RRRF - Right rear, right front facing power
RFLRRR - Left front, left rear, right rear facing power
LFRFLR - Left front, right front, left rear facing power
LFRFRR - Left front, right front, right rear facing power

- RFLRRR** - Right front, left rear, right rear facing power
LFRR - Left front, right rear facing power
- I** Select power module color.
MPB - Black power module
MPS - Silver power module
MPW - White power module
- J** Select wood feet finish. Refer to the **Product Color Options** page in this price list.
- K** Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.
- L** Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
 See pricing column for moisture barrier upcharge.

INFORMATION

The removable seat design of MyPlace™ High-Back units allows for ease of installation and clean out, as well as inspection of electrical components. MyPlace™ High-Back offers UL recognized power components and an ETL-Listed power system (Byrne Interlink® IQ). MyPlace™ Lounge is not a UL listed Office Furnishing.

HOW TO ORDER

- Indicate the following information on order form:
1. Quantity of each item.
 2. Model number, including options. See "How To Build a Model Number".
 3. Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.
• Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- C** Select fabric contrast 2. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- D** Select fabric contrast 3. Refer to ki.com/fabrics.
• For yardage pricing, see Fabric Yardage Pricing page
- E** Select power option.
NP - No power
WP - With power
- F** Select power type.
DCP - Byrne Interlink IQ System w/Mini-Tap module (jumper (Interlink IQ Infeed to power Interlink IQ Systems ordered seperately)
RPT - Mini-Tap power module w/3-prong plug; add \$314

- G** Select Mini-Tap® module w/3-prong plug location.
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
- H** Select Byrne Interlink®IQ System type.
DCJ - Byrne Interlink IQ System jumper only; add \$183
DSMOD - Byrne Interlink IQ System w/Mini-Tap module
- I** Select Byrne Interlink®IQ System w/Mini-Tap® module quantity.
MOD1 - One module; add \$495
MOD2 - Two Modules; add \$899
MOD3 - Three modules; add \$1301
MOD4 - Four modules; add \$1705
- J** Select Byrne Interlink®IQ System w/Mini-Tap® module location(s).
LFFP - Left front facing power
LRFP - Left rear facing power
RFFP - Right front facing power
RRFP - Right rear facing power
LFLR - Left front, left rear facing power
LFRF - Left front, right front facing power
LFRR - Left front, right rear facing power

Occasional & Inline Tables

Tabletops

Tabletops are made up of a high-pressure laminate surface that is glued to a 45 lb density particleboard core. The underside of the top and core is a $\frac{1}{32}$ " phenolic backer laminated for balanced construction and to help prevent moisture absorption in the core material. A 74P flat polymer edge band is offered in select KI colors (see color addendum). The finished tabletop thickness is $1\frac{1}{4}$ ".

Inline Table Construction

Tables are constructed using $\frac{3}{4}$ " thick medium-density fiberboard core, high-pressure laminate facing on visible surfaces, phenolic backing sheet on non-visible surfaces and 2 mm polypropylene (73P) edge banding. Each table includes a centrally located divider panel. Panels are secured together using dowels, wood screws and glued joints. Inline tables can be ganged together with other inline tables or with MyPlace lounge pieces having consistent base styles (feet or glides).

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page
- C** Select wood feet finish. Refer to the **Product Color Options** page in this price list.
- D** Select laminate color. Refer to the **Product Color Options** page in this price list. Refer to the **Product Color Options** page in this price list.
- E** Select 74P edge color. Refer to the **Product Color Options** page in this price list.
- F** Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.
- G** Select moisture barrier.

MB	- Moisture barrier
NMB	- No moisture barrier

 See pricing column for moisture barrier upcharge.

FINISH INFORMATION

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The indicates that a choice is required.
- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select non-contrast or fabric contrast 1. Refer to ki.com/fabrics.
 • For yardage pricing, see Fabric Yardage Pricing page

C Select wood feet finish. Refer to the **Product Color Options** page in this price list.

D Select laminate top color. Refer to the **Product Color Options** page in this price list.

E Select top edge color. Refer to the **Product Color Options** page in this price list.

F Select laminate side/divider color. Refer to the **Product Color Options** page in this price list.

G Select side/divider edge color. Refer to the **Product Color Options** page in this price list.

H Select brushed aluminum feet finish. Refer to the **Product Color Options** page in this price list.

I Select moisture barrier.
MB - Moisture barrier
NMB - No moisture barrier
 See pricing column for moisture barrier upcharge.

SPECIAL SERVICES

Shipping
 Ships assembled, FOB High Point, NC 27263, freight prepaid. Freight class 250.

Specifications and prices are subject to change without prior notice.

Wood Shelving

Construction

Shelving construction is modular type, utilizing Oak or Maple veneered particleboard. Shelving units are designed to be specified in a starter and adder configuration. All shelving units are single-sided and designed to be oriented with an outside facing curve.

Straight End Panels

Straight end panels are constructed using 1" thick Oak or Maple veneered particleboard. All edges are finished with matching veneer edge banding. Vertical rows of holes are drilled in 1 1/4" increments near the front and rear of one side of the panel for shelf attachment and height adjustment. Panels are drilled at front, rear, top, and bottom for embedding internal and external threaded bushings. Straight end panels are attached to base and top assemblies using 5/16"-18 x 2" hex head bolts and washers.

Straight Adder (Shared) Panels

Straight adder panels are constructed using 1" thick Oak or Maple veneered particleboard. All edges are finished with matching veneer edge banding. Vertical rows of holes are drilled in 1 1/4" increments near the front and rear on both sides of each panel for shelf attachment and height adjustment. Shelf pin holes are bored on both sides of the panel but staggered so that pins can be deeply seated. Panels are drilled through at front, rear, top, and bottom for attachment to tops and bases with 5/16"-18 x 4 1/2" hex head bolts, nuts, and washers.

Base

The base assembly is 3 1/4" tall, constructed of Oak or Maple veneered particleboard. A full length 2" x 3/4" rail is tenoned to the inside of the front. 1 1/4" x 1 1/4" bolting cleats are glued and stapled perpendicular at the ends of the rail and drilled to allow assembly bolts to pass through. A second full-length rail is glued and stapled to the rear of the bolting cleats for support and proper alignment. Bases are designed to support a 3/4" thick base shelf which rests on top of the base assembly and is secured in place by the back panel once installed.

Shelves

Base Shelf

The four bolts used to attach the end/adder panels to the base assembly are concealed by the 3 1/4" tall base front and 3/4" thick base shelf once installed. The base shelf rests on top of the 3 1/4" tall front facing/trim of the base assembly ensuring hardware is not visible after installation. Base shelf includes a recessed channel to accept the 1/4" thick back panel which secures the shelf without the use of hardware.

Top Shelf

The four bolts used to attach the top shelf assembly are concealed by the 2 5/16" tall top front which ships pre assembled to the underside of the top shelf ensuring hardware is not visible after installation.

Adjustable Shelf

A black metal anti-tip clip is included for each adjustable shelf. Clips are installed by sliding the clip onto either side of the shelf at the location of the rear shelf pin. The bottom of the clip with circular hole will be secured in place by positioning it over/around the shelf pin. The shelf will be secured between the top metal tab and the shelf pin which will prevent the shelf from tipping or falling forward if weight is unevenly distributed towards the front edge of the shelf.

Back Panel

Back panels are 1/4" thick constructed using 3-ply or 5-ply furniture-grade Oak or Maple veneered plywood and are finished on both sides to match shelving.

Wood Adjustable Shelf

Shelves are constructed using 1" thick Oak or Maple veneered particleboard. All edges are finished with matching veneer edge banding. Adjustable shelves are notched 3/8" wide by 3/16" high by 3/4" deep on the underside to set firmly on 1" long by 5/16" diameter cadmium plated threaded shelf pins. Shelf depths are nominal.

Laminate Shelving

Construction

Shelving construction is modular type, utilizing thermally-fused laminate panels. Shelving units are designed to be specified in a starter and adder configuration. All shelving units are single-sided and oriented with an outside facing curve.

Straight End Panels

Straight end panels are constructed using 1" thick thermally-fused laminate. All edges are finished with matching 2 mm PVC edge banding. Vertical rows of holes are drilled in 1 1/4" increments near the front and rear of one side of the panel for shelf attachment and height adjustment. Panels are drilled at front, rear, top, and bottom for embedding internal and external threaded bushings. Straight end panels are attached to base and top assemblies using 5/16" - 18 x 2" hex-head bolts and washers.

Straight Adder (Shared) Panels

Straight adder panels are constructed using 1" thick thermally-fused laminate. All edges are finished with matching 2 mm PVC edge banding. Shelf pin holes are bored on both sides of the panel but staggered allowing pins to be deeply seated. Panels are drilled through at front, rear, top, and bottom for attachment to bases and tops with 5/16" - 18 x 4 1/2" hex-head bolts, nuts, and washers.

Base

The base assembly is 3 1/4" tall and constructed using 3/4" thick high-pressure laminate panel with a 3/4" thick base shelf. A full-length 2" x 3/4" rail is tenoned to the inside of the front. 1 1/4" x 1 1/4" bolting cleats are glued and stapled perpendicular at the ends of the rail and drilled to allow assembly bolts to pass through. A second full-length rail is glued and stapled to the rear of the bolting cleats for support and proper alignment. Bases are manufactured so the base shelf rests on top of the base assembly.

Top Shelf

Top shelf is constructed using 3/4" thick thermally-fused laminate. Edges are finished on all sides with matching 2 mm PVC edge banding. The four bolts used to attach the top shelf assembly are concealed by the 2 5/16" tall top front which ships pre assembled to the underside of the top shelf ensuring hardware is not visible after installation.

Adjustable Shelf

A black metal anti-tip clip is included for each adjustable shelf. Clips are installed by sliding the clip onto either side of the shelf at the location of the rear shelf pin. The bottom of the clip with circular hole will be secured in place by positioning it over/around the shelf pin. The shelf will be secured between the top metal tab and the shelf pin which will prevent the shelf from tipping or falling forward if weight is unevenly distributed towards the front edge of the shelf.

Back Panel

Back panels are constructed using 1/4" thick high-pressure laminate and are finished on both sides to match shelving finish.

Laminate Adjustable Shelf

Shelves are constructed using 1" thick thermally-fused laminate. Front and back edges are finished with matching 2 mm PVC edge banding. Adjustable shelves are notched 3/8" wide by 3/16" high 3/4" deep on the underside to set firmly on 1" long by 5/16" diameter cadmium plated threaded shelf pins. Shelf depths are nominal.

**C-Table Personal Worksurface
(27" Fixed Height)**

Dimensions

Base diameter	15-1/2"
Tabletop diameter	18"
Overall height	27"

DIMENSIONS

Tabletop

Tabletops are 18" diameter and consist of $\frac{3}{4}$ " thick high-density 45 lb particleboard core with a .03" thick high-pressure laminate top and a .028" thick phenolic backer (bottom). The table edge is 2 mm polypropylene (73P) and is available in a variety of colors. See KI Color Addendum for laminate and edge finish options.

Base Frame

The table base frame is constructed of welded steel. The spider plate is 14-gauge, base is $\frac{3}{8}$ " thick and the vertical post is $1\frac{1}{2}$ " diameter by .083" thick wall. The base frame is finished in electrostatically applied hybrid powdercoating. The coating is then fused and cured in a baking oven to form a smooth, continuous finish that is chemical-resistant, hard, tough and mar-resistant. Powder-coated paint is available in all standard KI paint colors except for chrome. See KI Color Addendum for complete options.

Glides

Six 1" diameter self-adhesive white polyurethane glides are recessed into machined pockets within the steel base.

Table Assembly

Tabletops are attached to the base frame using seven #12 x $\frac{3}{4}$ " Phillips truss head screws. Tables are shipped completely assembled with a packaged weight of 23 lbs. Assembled tables without packaging weigh $17\frac{1}{2}$ " lbs.

TECHNICAL SPECIFICATIONS

Fixed-Height Table - Dual-Post Cantilever

The fixed-height table is offered in 26" or 29" tabletop heights. The base frame is constructed of welded 1½" diameter, 16-gauge steel tubing with a top mounting plate of 7-gauge (.179" thick) steel and a ¾" (10 mm) thick C-shaped steel base. A ½" diameter welded steel cross brace member stabilizes the entire frame.

Adjustable-Height Table - Dual-Post Cantilever

The adjustable-height table raises and lowers in 1" locking increments, between 25" and 30" overall table height. Adjustability is controlled by a lever assembly that protrudes from the base, underneath the tabletop. When compressed, the lever assembly unlocks the upper frame weldment from the lower frame weldment, allowing height adjustment that is assisted by a pneumatic cylinder enclosed within one of the vertical leg tubes. When the tabletop is positioned at the desired height, the lever can be released, and the bottom of the lever assembly locks into one of six height positioning holes in one of the lower leg tubes. Delrin bushings are installed between the tubes of the upper and lower frames, allowing for smooth adjustment. The outer portion of the lever assembly ships loose and is secured to the inner portion of the lever with a hex jam nut during assembly of the table units.

The upper frame of the adjustable-height table is constructed with two 1¼" diameter, 14-gauge steel tubes and a 7-gauge (.179" thick) steel mounting plate, all welded together. The lower frame of the adjustable-height table is constructed with two 1½" diameter, 16-gauge steel tubes, a 7-gauge (.179") steel mounting plate, and a ¾" (10 mm) thick C-shaped steel base, all welded together. The height adjustment lever is 5/16" diameter welded steel. A ½" diameter welded steel cross brace member stabilizes the entire frame.

Base Finish

Base frames are powder-coat painted, and may be specified in all standard KI colors. Chrome-plated finish is not available. See KI Color Addendum for color options offered.

Table Surfaces

Table surfaces are ¾" thick high-density 45 lb particle board core with .03" thick high pressure laminate and .028" thick phenolic backer (bottom). The table edge is 2 mm polypropylene (73P) and is available in a variety of colors. See KI Color Addendum for laminate and edge finish options.

Glides

Seven 1" diameter self-adhesive white polyurethane glides are recessed into machined pockets within the steel base.

Table Assembly

The tabletop is secured to the base using seven #12 x ¾" Phillips truss head screws. All tabletops are shipped separately from bases.

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
 • The absence of the indicates that no choice is required.
 • Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.
73P - 3/4" 73P edge
- C** Select edge color.
Refer to the **Product Color Options** page in this price list.
- D** Select surface finish.
Refer to the **Product Color Options** page in this price list.
- E** Select base finish.
Refer to the **Product Color Options** page in this price list.

FINISH INFORMATION

ADDITIONAL LAMINATE OFFERING

KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturers name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested thru the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

PRODUCT SPECIFICATIONS

Athens® Table

January 2025

TECHNICAL SPECIFICATIONS

Fixed-Height Table Bases

Tapered Base with 3" Diameter Column (ATH3)

Tapered round pedestal base is .07" thick steel. Tapered base is 26" in diameter for 36" square and 42" round tops only. Tapered base is 22" diameter for all other top sizes. 3" diameter column is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws. Adjustable glides are 1" diameter, nickel plated with $\frac{5}{16}$ " stems. No tools are required for glide adjustment.

Disc Base with 4" Diameter Column (ATH4)

Flat round pedestal base is a .07" thick steel cover over a $\frac{1}{4}$ " thick steel plate. Base is 20" diameter for all 24" and 30" round table units and for all 24" square table units. Base is 24" diameter for all 36" round table units, for 42" round table units at 29" OTH (overall table height), and for all 30" square table units. Base is 32" diameter for 42" round table units at 42" OTH, and for all 36" and 42" square table units. 4" diameter column is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws. Adjustable glides are 1" diameter nickel plated with $\frac{5}{16}$ " stems. No tools are required for glide adjustment.

Disc Base with 5" or 6" Diameter Column (ATH5)

Flat round pedestal base is a .07" thick steel cover over a $\frac{1}{4}$ " thick steel plate. Base is 32" diameter for all round and square table units. 5" diameter column is constructed of 14-gauge steel and is used for all 48" and 54" round table units and all square table units. 6" diameter column is used on 60" round table units and is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface with eight #12 Phillips pan head screws. Adjustable glides are 1" diameter nickel plated with $\frac{5}{16}$ " stems. No tools are required for glide adjustment.

Adjustable-Height Table Bases

Tapered Base with Adjustable-Height 3" Diameter Column (AH3A)

Tapered round pedestal base diameter is 23" for 30" diameter tops and 26" for 36" tops, and is constructed of a spun .07" thick steel cover over a $\frac{1}{4}$ " thick round disk. Pneumatic adjustable column assembly is constructed of a 70 mm diameter, 14-gauge lower tube and a 63 mm diameter, 14-gauge upper tube, and allows table height adjustment from $26\frac{3}{8}$ " to 44". Table mounting plate is $\frac{1}{4}$ " thick steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws. Adjustable glides have 1" diameter nickel plated bases with $\frac{5}{16}$ " threaded stems. No tools are required for glide adjustment.

Fixed-Height Booth Table Base

Heavy-Weight Disc Base with 4" Diameter Column (AHDAA & AHDAC)

Heavy round pedestal base consists of a 14-gauge spun steel cover adhered to two $\frac{1}{4}$ " thick steel plates. Heavy-weight base is 20" in diameter for all 24" deep booth table units, is 24" in diameter for 26", 30" and 36" deep booth table units, and is 32" in diameter for 42" and 48" deep booth table units. 4" diameter column is constructed of 14-gauge steel. Table mounting plate is 7-gauge steel, and attaches to the underside of the worksurface using eight #12 Phillips pan head screws. Adjustable glides are 1" diameter nickel plated with $\frac{5}{16}$ " stems. No tools are required for glide adjustment.

Base Finishes

Standard base finishes include electroplated chrome and powder-coated, oven-cured paint.

Laminate Table Surfaces

Laminate tops feature a $\frac{1}{8}$ " thick high-density particleboard core with high-pressure laminate top and phenolic backing sheet. Total thickness of table top is $\frac{1}{4}$ ". Tops are pre-drilled.

Veneer Table Surfaces

Veneer tops feature a $\frac{1}{8}$ " thick high-density particleboard core with wood veneer and backing sheet, and finished with a catalyzed varnish finish. Total thickness of table top is $\frac{1}{4}$ ". Tops are pre-drilled.

HOW TO ORDER

Indicate the following information on order form:

- Quantity of each item.
- Model number, including options. See "How To Build a Model Number".
- Any special service required.

Note:

- The indicates that a choice is required.
- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

A Select basic model.

B Select edge style.
74P - 74P edge
34R - 1-1/4" Wood band, radius corner

C Select edge color.
 Refer to the **Product Color Options** page in this price list.
 Edge color offerings are based on edge style selections.

D Select base finish.
 Refer to the **Product Color Options** page in this price list.

E Select surface finish.
 Refer to the **Product Color Options** page in this price list.
 Surface finish offerings are based on edge style selections.

FINISH INFORMATION

Additional Laminate Offering
 KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
 KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

SPECIAL SERVICES

Special Carton Marking

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note:

- The indicates that a choice is required.
- The absence of the indicates that no choice is required.
- Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
- B** Select edge style.

74P	- 74P edge
34R	- 1-1/4" Wood band, radius corner
- C** Select edge color.
Refer to the **Product Color Options** page in this price list.
Edge color offerings are based on edge style selections.
- D** Select base finish.
Refer to the **Product Color Options** page in this price list.
- E** Select surface finish.
Refer to the **Product Color Options** page in this price list.
Surface finish offerings are based on edge style selections.

FINISH INFORMATION

Additional Laminate Offering
 KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

PRODUCT SPECIFICATIONS

Pillar® Tables

April 2025

TECHNICAL SPECIFICATIONS

Tabletops

Standard Tabletops

Standard tabletops are nominal 1 1/4" overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). The density of the core in standard tops is 45 lb/cu ft particleboard, M3 grade. The Pillar Table is available with the 2 mm (74P) edge.

90° Outside Curve Tabletops

Outside curve tabletops are nominal 1 1/4" overall thickness with .030" thick high-pressure laminate top surface and .028" phenolic backer (bottom surface). The density of the core in outside curve tops is 45 lb/cu ft particleboard, M3 grade. The tabletop is available with the 2 mm (74P) edge. This outside curve is supported at the underside, between two tables of equal depth by four 1 1/2-gauge (.125" thick) splice plates. While secured between two tables, no leg is required to support the tabletop.

Leg Assembly

Leg assemblies come in three variations to accommodate three overall table heights: 29" standard, 36" standard and 42" standing height depending on the table shape. The leg construction consist of a 2 1/4" O.D., 14-gauge steel tubing welded to a 1/4" thick 8" x 8" steel plate. A 1/4" thick steel insert is welded in the bottom of each leg tube with a 1/2-13 UNC threaded hole where the casters or glides attach. The legs are attached to the tabletop using #12 x 1" screws. Casters and glides are shipped in separate cartons and must to be installed upon assembly of the table.

Casters & Glides

Each table includes either casters or glides. Each caster table includes a set of locking and non-locking wheel casters. Casters are made of molded nylon and come in two colors. Glides are black nylon, overmolded on a steel insert for strength. Glides and casters are not interchangeable without changing the table height. Caster wheels are a minimum of 2 7/16" (63 mm) diameter. Caster wheel treads are a medium hard (75 max Shore A) for easy mobility on carpet or hard floors. Glides have a smooth bottom surface for mobility. Glides have a height adjustment range of 1" to allow for uneven surfaces.

Ganging Mechanism

Molded of black, high-strength nylon, the hook and peg combination draws tables together back-to-back or side-by-side. Once the ganging mechanism is installed, no tools are required when joining tables. Gangers are self-storing under the table when not in use. Tops are pre-drilled for placement of ganging pegs. Two gangers, four pegs and all mounting screws are included in the kit. One kit per table joint is required. Field installed.

Wire Management**Wire Trough**

The wire trough is a cord management accessory that is provided with the Pillar table if Pattern electrical components are specified with the order. If the Pillar table is specified with any 3-prong plug module unit, then a wire trough must be ordered separately. Constructed of 18-gauge steel with a powder-coated finish in all KI standard finishes. Screws are provided for attachment to the underside of the tabletop, and tops are pre-drilled for wire trough locations. Provides multiple access holes to feed wires, and includes cutouts for installation of additional Pattern snap-in RPT power modules.

Vertical Leg Wire Management

A color matched extrusion made of aluminum "snaps" to the Pillar leg, managing cables and wires exiting power modules or standard grommets installed on the tabletop. The extrusion is 12" long. Vertical wire managers are included when powered Pillar tables are ordered.

TECHNICAL SPECIFICATIONS

Wire Management (cont.)**Velcro® Wire Management**

The Velcro wire manager is constructed of 2" x 4 1/2" Velcro hook and loop material with a looped pull tab. The wire manager is provided with adhesive backing and screws for attachment to the underside of the top. Tops are pre-drilled for locating wire manager, but the manager may be applied in any convenient location. One or two Velcro wire managers are included when Pattern power modules are ordered, and wire clips are provided when power modules with 3-prong plugs are ordered. Field installed.

Grommets**Flip-Top Grommets for Dean® & Nacre® Power Modules**

Flip-top grommets are surface-mounted covers, constructed of 18-gauge steel. Grommets have a flip-up receding door and are identical in cutout size to the Nacre or Dean power modules listed below, which allows for retrofitting corresponding power modules at a later date. One grommet ships per table, which is located in the center of the tops. Two grommets ship per conference table, which are located near the center of the tops. Grommets are finished with powder-coat paint and available in all KI paint colors. The flip-up door is designed to allow cords to remain routed through the opening while it is closed and allows for more cord routing space when the flip-up door is opened. Field installed.

Circular Grommet for Node® Power Module

The Node circular grommet is an open top, surface-mounted grommet constructed of aluminum. The overall diameter of 3.15" fits into a 3" diameter cutout in the surface. One grommet ships per table, which is located in the center of the tops. Two grommets ship per conference table, which are located near the center of the tops. Grommets are finished with powder-coat paint and available in all KI paint colors. Not available in chrome. Field installed.

Power Modules**Dean In-Surface Power Module**

Dean In-Surface power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port, and one data jack opening. The module can be modified to fit various brand jacks. Data tree ships with Dean in-surface power modules. Data connectors are not supplied with the module and are purchased by the customer. The Dean in-surface module is 8.12" long by 2.31" wide by 2.5" high and fits securely into a 7.81" x 1.93" cutout. Module is mechanically attached to the worksurface with screws from the underside. The module has a molded plastic faceplate with steel trim and an aluminum housing. Modules comes standard with either 9' or 15' cord with a 3-prong plug, or a 20" cord with a Pattern™ connector. A 40" cord option is available for larger conference tables with two power modules. Dean power module is rated at 15 amps/120 volts and is UL listed.

Dean Clamp-On Power Module

Dean clamp-on power module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A and one USB-C port, 2 amps per port. Dean clamp-on module is 5.50" long by 3.06" wide by 3.38" high. The module has a smooth molded plastic faceplate with an anodized aluminum housing. Clamp-on mounting style positions the module at a right angle to the worksurface and uses two thumb screws for attachment, without the need for table cutouts. Clamp is 3" wide, extends 1 3/4" onto edge of surface and can accommodate a maximum surface thickness of 1 1/2". Modules come standard with either 3', 9' or 15' cord with a 3-prong plug, or a 40" cord with a Pattern connector. Dean power module is rated at 15 amps/120 volts and is UL listed.

Dubbel™ Undersurface Power Module

Dubbel undersurface module consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port. Dubbel is 7.63" wide by 1.75" tall by 5.25" deep. The module is made of molded plastic and secures under the worksurface with two 5/16" x 2" Phillips round-head screws. Modules come standard with either 3', 9' or 15' cord with a 3-prong plug, or a 40" cord with a Pattern connector. Dubbel power module is rated at 15 amps/120 volts and is UL listed.

TECHNICAL SPECIFICATIONS

Power Modules (cont.)

Nacre Pop-Up In-Surface Module

Nacre Pop-Up In-Surface consists of two simplex receptacles (rated at 15 amps/125 volts), one USB-A port and one USB-C port, 2 amps per port, and one data jack opening. The module can be modified to fit various brand jacks. Data tree ships with Nacre power modules. Data connectors are not supplied with the module and are purchased by the customer. Nacre is 7.25" long by 3.31" wide by 2.92" high and fits securely into a 6.94" x 3" cutout with .38" radius corners. The module is made of molded plastic. The module is a pop-up design with a dampened spring-loaded mechanism to allow the unit to smoothly open for use and close smoothly when not in use. Modules come standard with either 9' or 15' cord with a 3-prong plug, or a 20" cord with a Pattern connector. A 40" cord option is available for larger conference tables with two power modules. Nacre power module is rated at 15 amps/120 volts and is UL listed.

Node® In-Surface Power Module

Node In-Surface power module consists of one simplex receptacle (rated at 15 amps/125 volts), includes one USB-A port, and one USB-C port, 2 amps per port. Node is 3.38" in diameter by 3.30" tall fits and securely into a 3" diameter cutout. The module housing is made of plastic with a powder-coat painted aluminum faceplate. Modules come standard with either 9' or 15' cord with a 3-prong plug, or a 20" or 40" cord with a Pattern connector. Node power module is rated at 15 amps/120 volts and is UL listed.

Snap-In RPT Power Module

Snap-In RPT module is only available for use with Pattern™ electrical system. Snap-in module consists of two simplex receptacles (rated at 15 amps/125 volts). Snap-in RPT fits securely in user facing cutouts located on the wire trough, mounted under the table. Modules comes standard with a 20" or 40" pattern connector, rated at 15 amps/120 volts and is UL listed.

Pattern Electrical System

Select Pillar table models can be configured with Pattern electrical system. The Pattern electrical system is ETL Listed, evaluated to safety standard UL 962A (USA) and CAN/CSA-C22.2 No. 308 (Canada). It allows for a maximum up to ten distribution blocks and up to 50' of power jumpers from the power infeed (in either direction), whichever comes first. Pattern allows up to eighteen power modules depending on table width, and connects to one 15-amp power supply cord (power infeed with 3-prong plug). Pattern is a non-sequential system and the infeed is compatible with ground fault interrupter (GFI/GFCI) outlets. Power modules for Pattern are specified as an option on Pillar tables.

Pattern Power Distribution Blocks

Pattern power distributions blocks are standalone connectors, each containing four port locations. Distribution blocks are included with appropriate power jumper and power infeed kits, so do not need to be ordered separately. Distribution blocks bring the power infeed, power jumpers, and power modules together and allow power to be efficiently supplied to each table. Two distribution block types are included with the Pattern system, grey and white.

Pattern Table-to-Table Power Jumper Kits

Pattern table-to-table jumper power kits come with one grey distribution block and an appropriately sized power jumper. Jumpers are nonsequential and are keyed on each end to connect between distribution blocks. Table-to-table power jumper kits are ordered separately, according to layout configuration.

Pattern Power Infeed Kits

The Pattern power infeed kit must be ordered separately. Site configurations vary and will affect the number of power infeeds required. The number and size of tables, as well as the number of receptacles per table and amperage needs in each ganging configuration will determine the number of power infeed kits required at any given installation. Infeeds can be installed anywhere in the run.

Kit comes with one grey Pattern power distribution block, one 12" power jumper, one white Pattern power distribution block and Pattern power infeed cord. Power infeed consists of a 15-amp 3-prong plug on one end of the 108" cord and a keyed connector at the opposite end of the cord. A Pattern quick-release tool is also included to assist with disconnecting connector ends from distribution blocks.

TECHNICAL SPECIFICATIONS

Modesty Panels

Optional 10" modesty panels are available on select Pillar models and available in perforated steel or laminate.

Laminated Modesty Panel

Laminated modesty panels have a .685" overall thickness with .30" thick high-pressure laminate on front and back surfaces. The density of the core inside the panel is 45 lb/cu ft particleboard, M3 grade. Modesty panels are 10" or 14³/₄" tall and vary in shape depending on the table it is paired with. On 48" wide rectangle tables, the modesty panel is 47³/₄" wide. On 90° inside curve tables, the modesty panel has a 54" radius, with an arc length of 85", so it can follow the curve of the back edge of the table. On 90° outside curve tables, the modesty panel has a 27¹/₂" radius, with an arc length of 38". The laminate is color matched to the tabletop. The modesty panel mounts to the table using 14-gauge (.075" thick) formed steel brackets, secured to the underside of the table.

Perforated Steel Modesty Panel

Panels are constructed of 14-gauge (.075" thick) by 10" tall perforated steel with powder-coated paint matched to the leg color. On 48" wide rectangular tables, the modesty panel is 47³/₄" wide. On 90° inside curve tables, the modesty panel has a 54" radius, with an arc length of 85", so it can follow the curve of the back edge of the table. On 90° outside curve tables, the modesty panel has a 27¹/₂" radius, with an arc length of 38". The modesty panel mounts to the table using 14-gauge (.075" thick) formed steel brackets, secured to the underside of the table.

Note: When specifying a perforated steel modesty panel on a table with chrome legs, the modesty panel will be flannel.

Polyester Felt Modesty Panel

Polyester felt modesty panels are constructed from a sound-absorbing, 100% polyester felt. The panels have a density of 0.5 lb/ft² and is sound absorbing tested to ASTM C423 with an NRC rating of .44 when using no air gap (A-Mount testing method) and an NRC rating of .81" with 2" air gap. The polyester felt is in accordance with ASTM-E84 and achieve a Class A Flame Spread. Standard sizes are 9¹/₄" high on 29" high tables, or 14³/₄" high on 36" and 42" high tables by 29", 35", 41", 47", 53", 59" and 65" wide.

Mounting Hooks

The mounting hooks are 18-gauge steel and attach underneath the tabletop using two steel screws. Panels 29", 35", 41" and 47" wide use two hooks per panel. Panels 53", 59" and 65" wide use three hooks per panel.

HOW TO ORDER

- Indicate the following information on order form:
- Quantity of each item.
 - Model number, including options. See "How To Build a Model Number".
 - Any special service required.

Note: • The indicates that a choice is required.
• The absence of the indicates that no choice is required.
• Alpha-numeric characters in place of indicate that no other alternatives are available.

HOW TO BUILD A MODEL NUMBER

- A** Select basic model.
B Select edge style.
C Select power option.
- NNN** - No grommets, power, wire management/No cutouts
 - WMO** - Wire management only-no cutouts; add \$70
 - MA2** - Modules, Nacre pop-up w/USB-A/C (2); add \$889
 - MB2** - Modules, Dubbel under-surface w/ dual USB-A/C (2); add \$560
 - MD2** - Modules, Dean in-surface w/USB-A/C (2); add \$749
 - MO2** - Modules, Node in-surface w/USB-A/C (2); add \$560
 - GA2** - Grommets, Nacre (2); add \$432
 - GD2** - Grommets, Dean (2); add \$432
 - GO2** - Grommets, Node (2); add \$293

CORD LENGTH: 9' or 15' is optional on all module options.

WIRE MANAGEMENT: All options except NNN include vertical and horizontal wire management.

- D** Select modesty panel.
NMP - No modesty panel
SMP - Perforated steel modesty panel
LMP - Laminate modesty panel

FINISH INFORMATION

Additional Laminate Offering
KI offers laminates beyond those offered in the standard offering. Laminates that are currently available in the program can be viewed in KI product specification tools. Requests to add laminates to the program can be submitted via the product modification request process. Please note, requests to add laminates to the program must include the laminate manufacturer's name, color/pattern number, and finish code. Edge options are limited to standard edge colors. If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match
KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.

If a matching edge is required, this will need to be requested through the product modification request process and may be subject to additional costs. Due to varying manufacturing processes and quality issues with some laminates, some requests may be denied. Extended lead times and minimum order quantities may apply on orders containing special laminates. Contact the product modification team for questions or additional information regarding special laminates and pricing.

Color Match

KI offers the additional option of color matching paint, polypropylene, or wood stain through Product Modification Requests. Contact customer service for details.
