

PASSEL™

Desking Collection

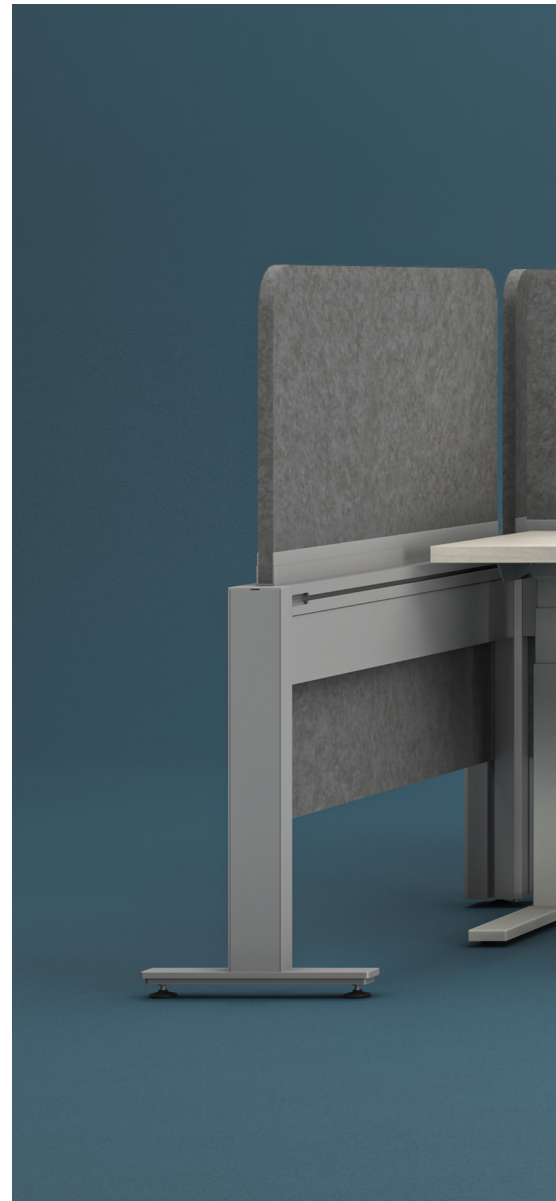

DESIGN FORWARD

Designed to break down the barriers of traditional panel systems, Passel introduces a lighter, more open approach to space planning that encourages connection, focus, and flow. Effortless access to power, ample storage options, and a flexible design fosters creativity and boosts productivity.

FLEXIBLE FRAMEWORK

Built around a linear rail framework, Passel supports a range of configurations that accommodate both individual and group-based work, without the visual or physical limitations of panels or enclosed workstations.

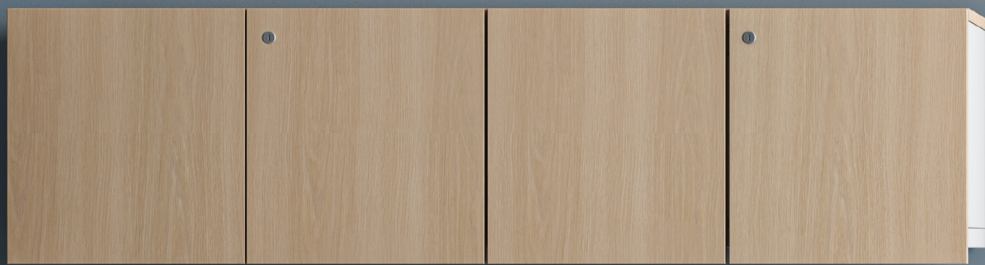

HUMAN FOCUSED

Height-adjustable tables and purposeful layout planning promote movement, comfort, and well-being throughout the day. With clean lines and an intentional balance of structure and openness, Passel creates spaces that feel lighter, more collaborative, and more human.

STORAGE SOLUTIONS

A mix of open, closed, and combination storage keeps essentials organized while helping define space. Coordinated heights and finishes align with the desking system, balancing accessibility, privacy, and a clean, continuous visual language.

PASSEL STATEMENT OF LINE

More options available. View full details at ki.com/passel.

Build calm, connected settings with Passel: a rail-based desking system paired with integrated storage to shape spaces with or without enclosure, and height-adjustable tables to support well-being throughout the day.
