

Vision Product Information

Veneer

Exterior Wood Materials

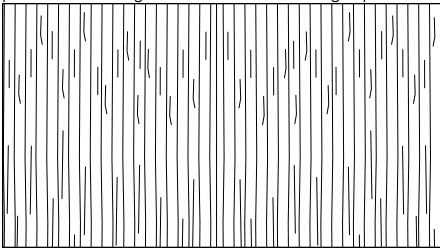

Exterior surfaces are made from the finest selected veneers to achieve clarity and consistency in the Vision product line. To attain a pleasing, symmetrical pattern, all cherry, maple, walnut and black oak veneers in Vision are book-matched. All exterior solid lumber is matched to coordinate with the veneer.

Book-Matched Example

Alternating pieces of veneer are flipped over so they face each other like the pages within a book. Vision is available in flat cut cherry, maple, walnut and black oak veneer. A wide range of wood stains have been formulated to enhance the beauty of the veneer.

Double Cut veneer is another choice on Vision product. This veneer is a processed product that has at least two cuttings to create the final veneers. These cuts of veneer strands are dyed and layered into a block to create variation of patterns from a very tight grain pattern to an exotic figure grain pattern. The diagram below show the tight pattern used on Vision.

WorkSurface Construction

Flat Cut veneer worksurfaces have a 3-ply balanced construction, Double Cut veneer and Coordinating HPL are 3-ply. The tops are 1 3/16" thick with solid matching hardwood edges. Surfaces are available in wood veneer or high pressure laminate. No additional charge for using our coordinating high pressure laminate with a veneer grain pattern with finish wood edges, see page [V13](#) for available laminate options.

Case Construction

Outside panels are 3/4" and joined together with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis screws through pre-bored stretcher rails and pocket holes.

Cabinet doors have 110° swing hinges to allow adequate access into the interior of the cabinet.

Overhead Construction

Veneer models are unfinished on the back side and fasteners are visible on the back of unit. Laminate models have visible fasteners on the back of unit.

Finish - Stain/Colors

We offer a variety of wood stains on Vision. Please see the chart below. Samples are available upon request.

ESS Essentials Veneer Collection			
BRK	Brickdust	MIN	Mineral

Protective Top Coat

DuraTex™ offers exceptional hardness along with abrasion and impact resistance, it has been formulated to eliminate hazardous and harmful gases that are normally associated with wood finish.

DuraTex™ Features

Safety - Significantly reduces hazardous formaldehyde emissions which help improve the quality of the of the indoor air we breathe.

Quality - Developed to be tough and durable with special attention to appearance. The DuraTex™ finish preserves the natural beauty of wood. **Durability** - Designed to meet a wide range of demanding performance and environmental standards to withstand even the highest wear and tear.

Finish Sheen

All veneer finishes are standard in 35-sheen, with the exception of Raven. Raven is only offered in 15-sheen. All other finishes are available in 15-sheen, see standard modifications.

Custom/Special Finishes

JSI, upon request, will accommodate special finishes. A written request is required to proceed with custom finish orders. A sample reference is required for first-time matches and must be included with the written request.

There is a one-time charge of \$412 list per order for any non-standard wood finish. Orders will be entered noting the special finish. A sample match will be provided to the customer. Written approval is needed before the finish process can be started. Delays in approval may have an impact on lead times. Every effort will be made to create the requested match; however, an acceptable match may not be possible because of natural variations of wood. These natural variations can also cause minor differences in the final finish product. Use standard pricing and option pricing for each line item with a special finish, unless additional modifications have been specified. For items available in both Essential and Artisan veneers, apply the Essentials pricing.

Wood Species Change

For species changes contact customer service for a quote.

Vision Product Information

Laminate Tops on Veneer Units

Laminate worksurface with wood edge, no additional upcharge if Vision's coordinating wood grain laminate with finished wood edges is specified. Contact Customer Service for any other laminate request. Listed below are finishes that have coordinating wood grain HPL laminates.

ESS	Essentials Veneer		
BRK	Brickdust	MIN	Mineral
CSK	Cask	MCH	Mocha
CLY	Clay	OBK	Outback
FAW	Fawn	PIL	Pilsner
FLN	Flint	UMB	Umber
LOF	Loft	VAL	Valley
MES	Mesa		
ART	Artisan Veneer		
EGR	Egret		

Wood Drawers

Four corner dovetailed wood drawers must be specified at the time of order placement. There is a 10% upcharge added to the list of each item.

Laminates

Vision Laminate features TFL (thermally fused laminate) chassis and components. Main Worksurfaces* are available in a HPL (high pressure laminate) or in the TFL surface.

Edges of the worksurface are impact resistant (PVC) on TFL and HPL tops. The laminate is offered in 19 wood grain patterns and 7 solid colors. The wood grain laminate features an embossed grain to hide finger prints and light scratches. The solid laminate is smooth to the touch with a semi-matte finish. All Vision Laminate products are indoor-air certified by GreenGuard.

The chart below lists the laminates available on the Vision product.

TFL - HPL Wood Grain Pattern Laminates

BEL	Belair	MIN	Mineral
BRK	Brickdust	MCH	Mocha
CSK	Cask	OBK	Outback
CLY	Clay	PIL	Pilsner
EGR	Egret	PIN	Pinnacle Walnut
FAW	Fawn	UMB	Umber
FLN	Flint	VAL	Valley
FLO	Florence Walnut	WLH	Walnut Heights
LOF	Loft	WEA	Weathered Ash
MES	Mesa		

TFL - HPL Solid Laminates

ALB	Alabaster	SHD	Shadow
BLK	Black	SLG	Slate Grey
BBL	Bridal Blanco	ZEN	Zen Grey
DWH	Designer White		

WorkSurfaces

Laminate worksurfaces have a 3-ply balanced construction. Tops are 13/16" thick with coordinating PVC edges. Primary worksurfaces feature 3mm PVC edges on the approach and user sides. Some laminates have a choice of 3 edge profiles, see page VI4. Main Worksurfaces* are offered in TFL or HPL.

Bridge, return, credenza worksurfaces are profiled with a 3mm PVC edge on the user side only. Remaining edges are banded with 1mm PVC which creates a seamless appearance when units are mated end-to-end or back-to-back.

TFL features on Main Worksurfaces*

- fused to the 45 pound density substrate of the top for a durable wear resistant surface
- tops are laminated on both sides
- available in all the wood grain and solid patterns

HPL features on Main Worksurfaces*

- bonded layers create a durable wear resistant surface
- tops are 3-ply balanced construction
- matched to the TFL wood grain and solid patterns

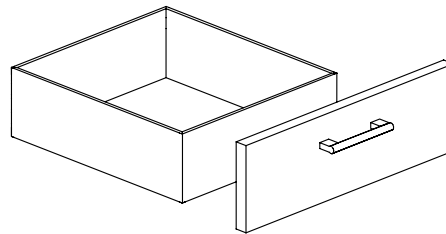

*Main Worksurfaces include tops on desks, standard height credenzas, returns, bridges and transaction tops. Refer to pricing pages to confirm availability.

Case Construction

Panels for chassis consist of a 3/4" thick substrate with TFL surfaces and PVC bands on exposed edges. Pedestals and cabinets are constructed with dowels reinforced with screws, and metal fasteners for increased stability. Tops are secured to the chassis with screws through pre-bored stretcher rails and pocket holes.

Drawers

The unidirectional V- Fold drawer box is a durable miter-fold drawer structure which is glued and doweled. The 1/2" thick drawer sides are wrapped in a high grade maple vinyl, with an attached front. The drawer front is attached to the four sided box. Optional four corner dovetailed wood drawers are available on veneer units. Specify and add 10% per unit.

Drawer Suspension

High quality black drawer suspension carries a lifetime warranty. File and box drawers have 100% full extension with over travel. Slides feature steel ball bearings for longer wear and positive, cushioned in/out stops.

Filing Hardware

All file drawers are constructed with a custom designed filing system for hanging folders.

Vision Product Information

Locking

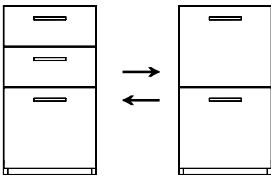

All desks, returns, credenzas, lateral files and storage towers offer optional pedestal front locking to provide maximum security and flexibility in configuration. Up-charge applies.

When locks are ordered, units are shipped randomly keyed. Key alike units are available upon request for no additional charges. Removable cores for in-field re-keying are standard.

Lock face color is controlled by the metal color of the unit.
Pewter and Matte Black - Black Lock Face
Soft Nickel and Arctic Silver - Silver Lock Face

Pedestal Configuration Change

Single pedestal desks have one box/box/file pedestal. Double pedestal desks have a box/box/file pedestal on the left side and file/file pedestal on the right side. Returns are configured with either file/file or box/box/file pedestals. Credenzas are configured with file/file pedestals.

Drawer configurations on fixed height units can be changed from either a box/box/file or a file/file configuration, on units 30”h, but must be specified at the time of order. An additional \$206 upcharge per pedestal needs to be added to the list price of the unit. (Must keep the same pedestal depth.)

Special Construction

Vision offers large offering to create many types of configuration. Contact Customer Service if you are having trouble with finding the right units to complete the desired configuration. Requests need to be approved by JSI engineering.

Wire Management

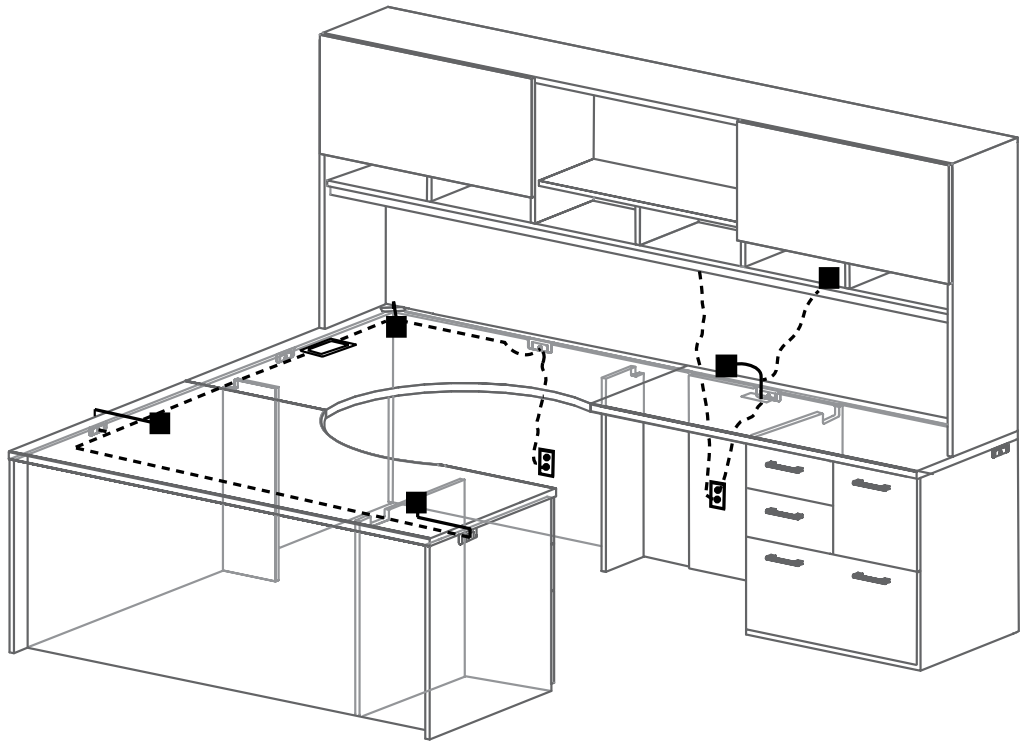

Wiring can move freely from unit to unit and out to the building power/data through numerous grommet options.

Optional top grommets are offered in key locations on desks, bridges, returns, credenzas and corner units.

Pedestal desks, credenzas, corners units, bridge panels, return modesty panels and end panels offer optional chassis grommets.

The end panel grommet opening is 4" wide by 1 7/16" high with a bezel trim secured to the panel with a friction side cap.

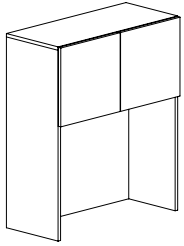

Refer to the accessory section for additional technology and accessory items. (see page VS322)

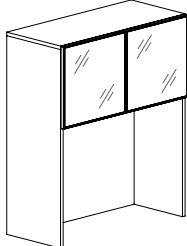

Vision Product Information

Vision integrates height adjustability into the workplace environment in multiple ways to meet the unique needs of the customer. Here is an overview of the most popular ways.

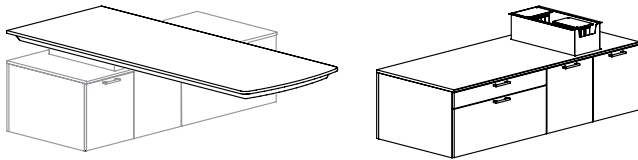

Adjustable Height T-Base Table Desks

Tables with exposed telescoping legs is offered in Standard and Extended Range with electrical units. Select units also offer Pneumatic.

Adjustable Height Cantilever

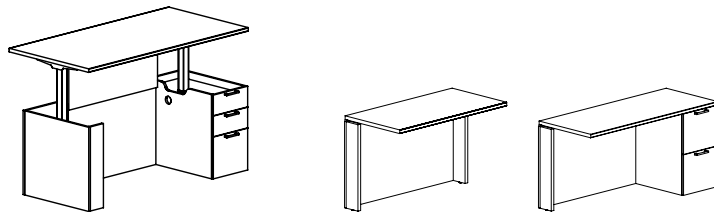

Creates a statement piece when using the Cantilevered Table and Support Credenza together.

Use with Cantilever Support Credenza

Adjustable Height Single Pedestal Desk

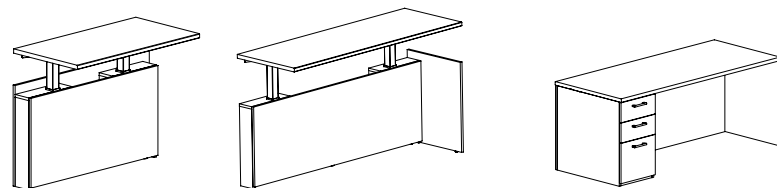

Single pedestal adjustable desks can be used with companion fixed bridge or return to eliminate pinch points.

Use with Fixed Bridge or Return

Adjustable Height Bridge and Return

For applications when desk is stationary and height adjustability is needed on the bridge or return. Units created to eliminate pinch points.

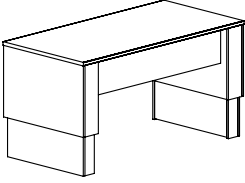

Use with Fixed Height Desk

Vision Product Information

Adjustable Height Desk

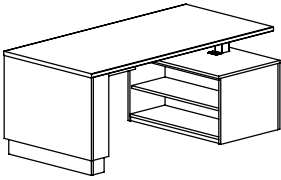

Stand alone height adjustable table encapsulates mechanism within end panels.

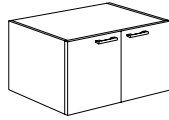

With Telescoping End Panels

Adjustable Height Peninsula Desk

Use with bench height configurations for smaller footprints when adjustability needed at desk.

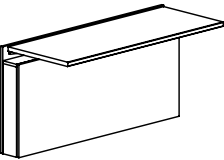

With Telescoping End Panel and Credenza

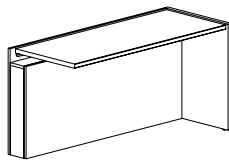

Use with Bench Height Configurations

Use with workwall peninsula desk for height adjustability on bridge or return.

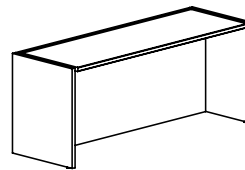

Adjustable Height Workwall Bridge

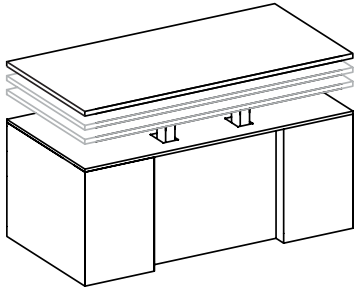

Adjustable Height Workwall Return

Adjustable Height Workwall Credenza

Vision Product Information

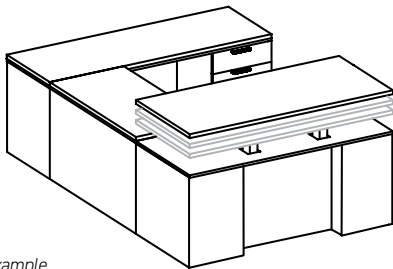

ERGO Adjustable Work Height Mechanism

Our proprietary adjustable work height mechanism can be specified on many of the models in Vision. ERGO can only be specified in a HPL (high pressured laminate) or Veneer.

ERGO mechanism allows height adjustability to be added to the worksurface. Our solution uses a standardized design that minimizes the modifications required to standard desk, bridge, or credenza models. The mechanism and control box are neatly concealed to maintain the appearance of the original elegance of the product. A push button activates the electric powered lifting columns for adjustability from sitting height to a standing height. A3/4" thick finished sub top is added to the top of the desk chassis for a clean appearance when the surface is in the raised position. In the lowered position, please note that ERGO adds 3/4" to the standard height of the desk and the installation will decrease knee space depth by 8".

Automatic Collision Control is built in to each mechanism as a standard feature. When the system senses an obstacle obstructing the movement, the mechanism will reverse direction and retreat by 1".

When ERGO is added to a worksurface in an "L" or "U" group, all units in the configuration need to have a sub top added. These units are considered to be ERGO ADJACENT units. ERGO ADJACENT units must have a fixed height worksurface that matches the lowest position of the ERGO mechanism and the top. This is accomplished by adding a 3/4" sub top between the chassis and the worksurface. This feature can also be specified for cabinets which may sit next to a unit with the ERGO mechanism. Height adjustment starts at 30 3/4", to a standing height of 49 3/4", a range of 19 1/2". NOTE: The kneespace depth is decreased when the ERGO mechanism is specified. Contact Customer Service for dimension information.

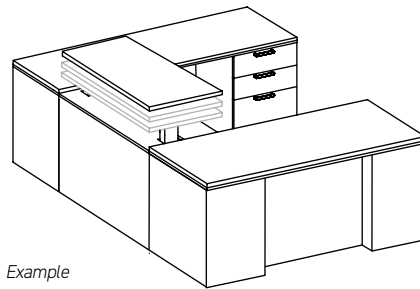

Example

VST3672LD (with ERGO option)
VST2448EB (with ERGO ADJACENT option)
VST2472RC (with ERGO ADJACENT option)

add \$4,777 to list
add \$514 to list
add \$630 to list

VSV3672LD (with ERGO option)
VSV2448EB (with ERGO ADJACENT option)
VSV2472RC (with ERGO ADJACENT option)

add \$5,337 to list
add \$650 to list
add \$786 to list

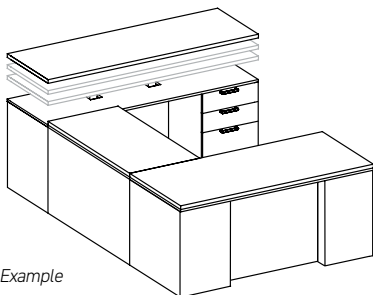

Example

VST3672LD (with ERGO ADJACENT option)
VST2448EB (with ERGO option)
VST2472RC (with ERGO ADJACENT option)

add \$630 to list
add \$4,777 to list
add \$630 to list

VSV3672LD (with ERGO ADJACENT option)
VSV2448E (with ERGO option)
VSV2472RC (with ERGO ADJACENT option)

add \$786 to list
add \$5,337 to list
add \$786 to list

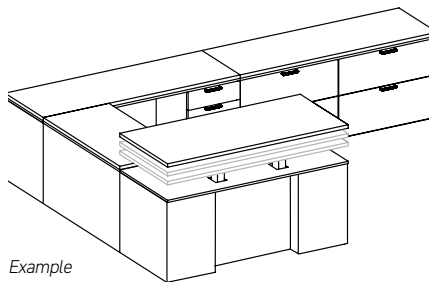

Example

VST3672LD (with ERGO ADJACENT option)
VST2448EB (with ERGO ADJACENT option)
VST2472RC (with ERGO option)

add \$630 to list
add \$514 to list
add \$4,777 to list
