## Fabric Welt Regulation

If the fabric welt on the perimeter of privacy panels appears out of alignment, it can be regulated back into place.

**Before starting, ensure hands are clean or wear clean gloves.**

- Place furniture in final desired location
- Gently drag hands across fabric in direction you desire to pull the fabric

**NOTE: all screws provided must be installed for proper installation and compliance with product warranty.**

**Upholstery welt is intended to have an organic, wavy appearance. Perfectly straight and aligned upholstery details should not be expected.**
