Lok Electrical

Overview

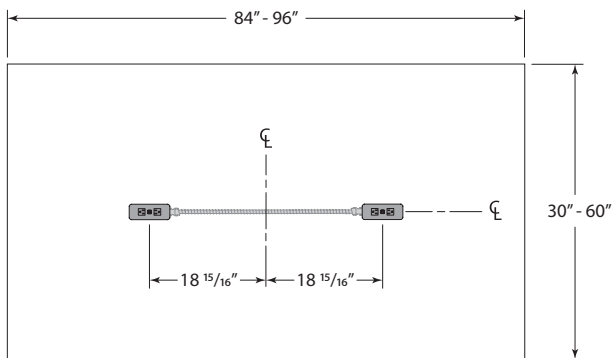

Lok provides several packages to choose from for your electrical needs. Choose solutions for top surface power, underneath outlets, wireless charging, or a combination.

Specifying an electrical package eliminates your need to calculate additional components, as all units and necessary jumpers will ship with your table. **You will only need to determine which power in-feed best suits your needs and order separately.**

Electrical

Power and Charging Packages are measured and located out from the center of the table. Shown on rectangular tops, these dimensions are the same from center regardless of table shape. **Power in-feed is specified separately to support building electrical connection.**
