## Credit, Prices, and Terms

Credit may be established upon acceptance of satisfactory references. For payment terms, contact Coalesse's Credit Department. Coalesse may cancel or change credit terms at its discretion and may request advance payment at any time.

The order confirmation will be deemed by the customer and by Coalesse, as the final expression of agreement and will be deemed the exclusive statement of terms. The order confirmation supersedes all prior writings and may not be modified or rescinded, except by a revised Coalesse order confirmation signed by the customer. No changes are binding on Coalesse until delivery of the order confirmation. Any storage charges and applicable sales taxes are in addition to the prices shown for merchandise. Inside delivery, uncartoning and installation are customer's responsibility unless separately quoted. All list pricing shown includes freight prepaid to one destination for delivery in the 48 contiguous United States. Hawaii and Alaska are not included. We reserve the right to increase prices without notice due to increases in labor and material costs. If timely payment is not made, customer is liable for reasonable collection costs, including attorney's fees.

## Shipping and Storage

Coalesse reserves the right to select carrier and packaging method. Partial shipments may be delivered. Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control. Coalesse may transfer merchandise to storage if not accepted when shipment scheduled. Transfer and storage charges will be the customer's expense. Coalesse's invoice is payable upon transfer. If transfer is made prior to confirmed shipping date, storage expenses will be borne by customer.

Shipping charges MAY be calculated per order. Lead times vary by product. Coalesse reserves the right to select carrier. Partial shipments may be delivered. Coalesse will make every effort to provide current and accurate lead time information, however, Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control.

Freight is included on domestically manufactured products within the 48 contiguous states of the United States.

## Claims

Merchandise shipped from Coalesse is thoroughly inspected and properly packed before leaving the factory. Responsibility of its safe delivery is assumed by the carrier at the time of shipment. Customer must match the freight delivered with the bill of lading. Customer must examine packaging material upon delivery and note any damage on the carrier bill of lading. If there is damage to the packaging material, inspect the furniture immediately. If concealed damage is found, contact the carrier within 10 days of delivery date. Save all packaging materials until after inspection.

Freight damage and claims must be reported by the purchaser to the carrier. Coalesse is not responsible for freight claims. Claims for loss or damage must not be deducted from our invoice, nor payment withheld awaiting adjustment of such claims. Do not return any merchandise to Coalesse without a Return Authorization number. By following these procedures carefully, Coalesse guarantees our full support of your claims to protect you against loss or damages. All claims against Coalesse for errors or shortages must be made by customer in writing within fifteen (15) days after delivery. Failure to make claims within fifteen (15) days constitutes acceptance of merchandise and waives claims. Cutting of textiles deems acceptance of yardage and waives all defects, errors, and shortages. Coalesse is not liable for subsequent damages.

## Special/Custom Products

Coalesse prides itself on being responsive to our customer's needs. Contact our Customer Service team at 1.800.627.6770 to discuss a special opportunity. Due to product modifications and engineering time, special orders may not be cancelled. Charges will apply.

# Ordering and Warranty

## Order Cancellations/ Changes

All order change/cancellation requests must be submitted using the Coalesse order change/cancellation request form. Late changes could jeopardize the committed delivery of an order.

Coalesse Rapid10 programs no change or cancellations allowed.

**Coalesse Products:**

- No charges will be assessed for change or cancellation 14 or more calendar days prior to the manufacturing completion date (excludes holidays and/ or large quantity project size orders). For import products, charges may apply.

- No manufacturing changes are allowed 0-13 calendar days prior to the manufacturing completion date. Simple changes including shipping address changes are subject to approval but will be accommodated when possible.

- No cancellations or product changes will be accepted for express or special/custom product orders including special laminates. A cancellation fee will be applicable for any custom product and/or change may jeopardize lead time.

- If COM/COL has been received at time of change or cancellation, it is the dealer's responsibility to advise disposition or return of materials. Coalesse will not store materials after 30 days.

## Additional Charges

- Changes or cancellations that involve any of the following may be subject to a charge earlier and/or greater than shown above: Special engineering product, CSM, pre-ordered components, materials with extended lead times (e.g., veneers, special paint, etc.) or large quantities of standard materials.

- Use our Order Change/ Cancellation Request Form for all order changes. It is Coalesse responsibility to accurately process change order requests. It is the dealer's responsibility to verify that we have accurately interpreted your change requests by checking the acknowledgement after the change has been made. If you do not use the web-based change order form process and an error occurs during our translation which cannot be corrected prior to ship, all costs will be shared on a 50/50 basis. Changing ship dates or adding product to your order is subject to the availability of manufacturing capacity.

- Cartoning changes and shipping address changes are subject to approval and to a change charge. Please consult your Customer Service for specific information pertaining to your order.

## Reserved Fabric Policy

Prior to order receipt, reserving textiles (COM/COL, Maharam, Designtex, and select Luna Select Surfaces) is the responsibility of the dealer. Coalesse cannot reserve textiles based on projected orders. Coalesse cannot guarantee Maharam or Designtex fabric availability. If dealer reserves Maharam or Designtex textiles, Coalesse will require the reserve number and zip code for locating purposes when ordering.

## Schedule Enhancements

Coalesse will entertain schedule enhancements on a case-by-case basis; however, please understand that we must receive complete information such as installation date, opening date in order to make informed scheduling decisions.

No order move-ups or move-outs are allowed on any order that falls within the 15-working day period of its manufacturing completion date. If it is within the 15-working day period, Coalesse will invoice at shipment but may offer storage options at a charge for manufactured product.

## Express Program Specification Guide

This specification guide describes all Steelcase and Coalesse products including the finishes and options that are available as Express orders - manufactured and shipped within 7 business days.

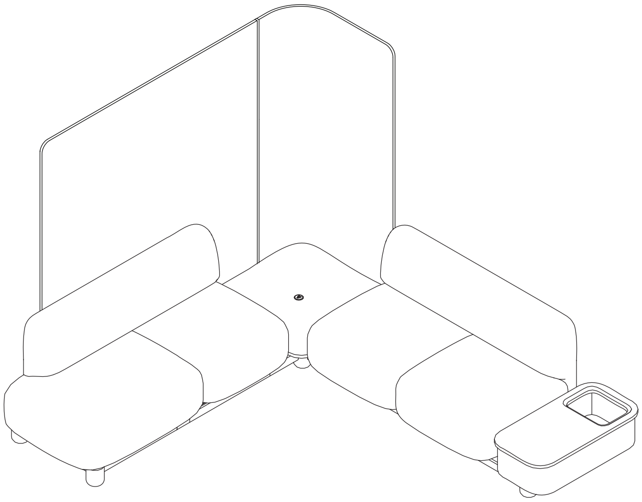
# Coalesse Ensemble General Overview

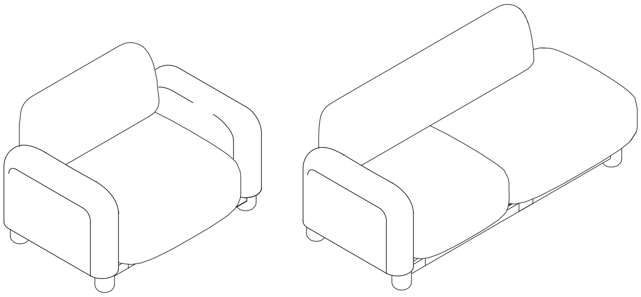
DESIGN COALESSE DESIGN GROUP

**Designed for gathering that really works.** Coalesse Ensemble is a fluid, modular lounge system featuring an ingenious, intuitive performance back, proximity to power and companion screens for privacy, and infinite design expression with color, materials, and organic shapes.

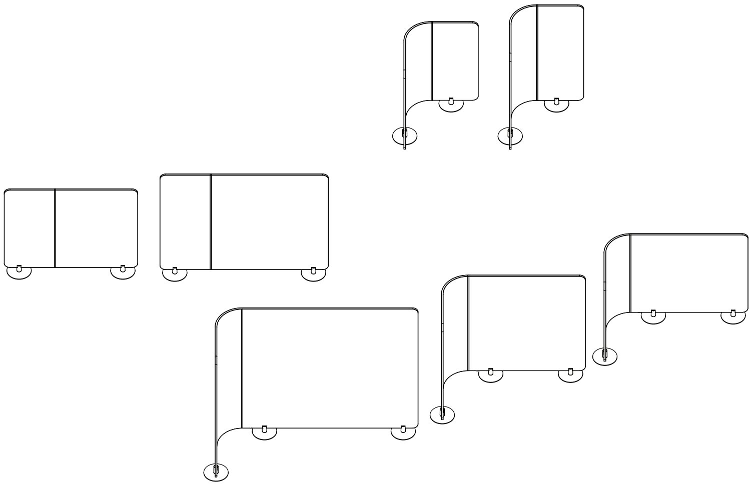
**Individual modular lounges** are available as 1- and 2-seat units that can be ganged together for endless straight-run configurations by using the lounge connector kit. Personalize the lounge with an end of run armrest, metal or wood feet, varying in-line tables and planters, and power.



**Standalone lounges** are available as 1- and 2-seat units and come preassembled with choice of metal or wood feet. These styles can be specified armless, right or left arm, or with two arms.

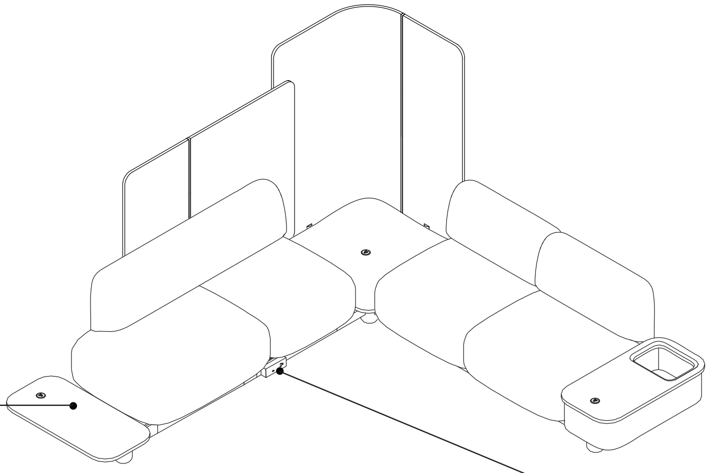


**Freestanding screens** are available in three heights. Low screens are 51⅖"H, medium screens are 62⁷⁄₁₀"H, and high screens are 78½"H. Screens are available in straight, corner, and J shapes.



# Coalesse Ensemble General Overview

DESIGN COALESSE DESIGN GROUP



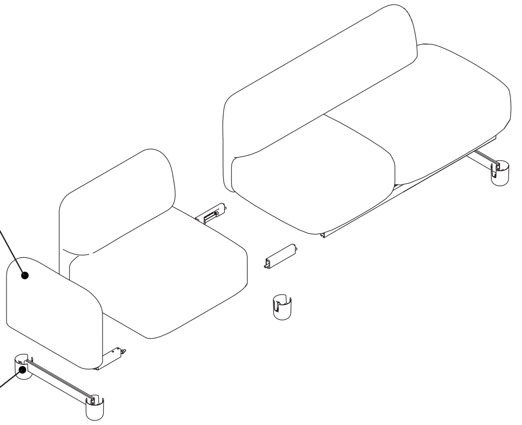
**Modular design** allows individual components to be easily reconfigured by an installer.

**Modular lounges** can be specified armless, right or left arm, or with two arms.

**Contrasting fabric** is available on seat and back cushions. If armrest(s) are selected, they will match the seat cushion. Note, to have the armrest(s) to match the seat back, or contrast the lounge unit all together, order the end armrest separately (**COENLEA**).

**In-line tables** are offered in two shapes: rectangular and square. Tables are standard in High-Pressure Laminate with 3⁄10 mm plastic edge and veneer. Optional power module can be specified as a one power or one USB A/C configuration.

**Lounge power module** is ordered separately and can be positioned anywhere along the attachment rail underneath the front lounge seat.



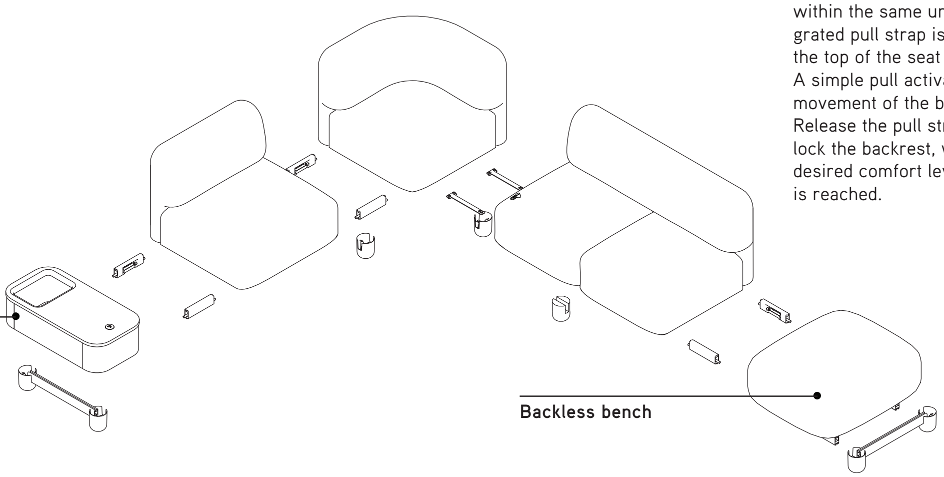
**Armrest** can be specified in end positions only, when next to a lounge unit. An exception is made for an in-line table or planter, which may be specified on the outside of an armrest. An armrest cannot be specified between two lounge units.

**Armrests** are fully upholstered and 23 1/4"H, from floor to top of armrest.

**Feet** are available in metal or wood choices. Feet are not included in the modular lounge styles and must be ordered separately.

**Adjustable glides** are standard on the lounge units. Each glide adjusts ½".

**Performance lounge seat back** allows user to change from a lounge position to a more upright task position within the same unit. An integrated pull strap is located on the top of the seat cushion. A simple pull activates the movement of the backrest. Release the pull strap to lock the backrest, when your desired comfort level is reached.



**Planter** is available with two liner inserts for hosting plants, or with one liner insert set within a laminate or veneer surface. Optional power module can be specified as a one power or one USB A/C configuration.

**Backless bench**

DESIGN COALESSE DESIGN GROUP

**Standalone lounges** are available as 1- and 2-seat units and come pre-assembled with choice of metal or wood feet.

**Lounges** can be specified armless, right or left arm, or with two arms.

**Armrests** are fully upholstered and 23¼"H, from floor to top of armrest.

**Adjustable glides** are standard on lounge units. Each glide can adjust ½" for uneven floors.

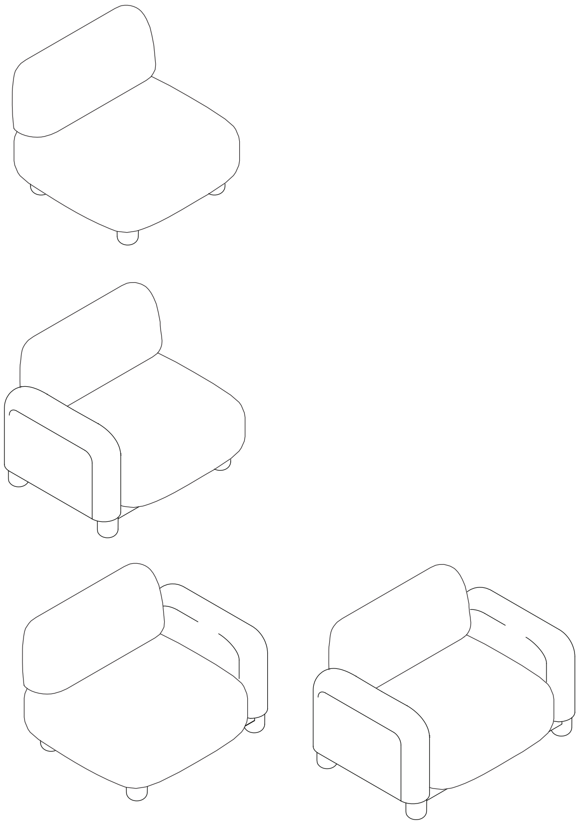
**Performance lounge seat back** allows user to change from a lounge position to a more upright task position within the same unit. An integrated pull strap is located on the top of the seat cushion. A simple pull activates the movement of the backrest. Release the pull strap to lock the backrest when desired comfort level is reached.

**Power module** is ordered separately and can be positioned anywhere along the attachment rail beneath the lounge seat.

**Contrasting fabric** is available on seat and back cushions. If arms are specified, they will match the seat cushion.

**Connectors (ganging kit)** are available and work on both modular lounge and standalone styles. Specify the modular lounge styles when looking to connect more than one module together.

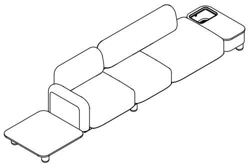
**Feet** are available in metal or wood choices.



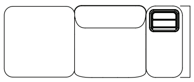
# Coalesse Ensemble General Overview

DESIGN COALESSE DESIGN GROUP

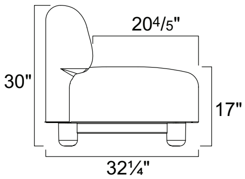
## Product Details



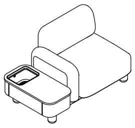
**Modular design** allows each component to be personalized with varying lounge and table choices. Create endless straight runs and gang them to create non-linear configurations. Individual components are assembled to a steel frame and connect to one another using steel connectors.



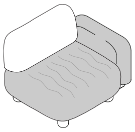
**Overall depth of each lounge unit, in-line table, and planter** is the same due to its modular design, allowing units to easily be reconfigured. Overall depth is 32$^{1}/_{4}$".



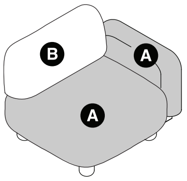
**17" seat height** is standard on all seating and benches and pairs with the Lagunitas 26"H work table height.



**Armrest** can be specified in end positions only, when next to a lounge unit. An exception is made for an in-line table or planter, which may be specified on the outside of an armrest. The armrest extends the overall width of the lounge by 6".

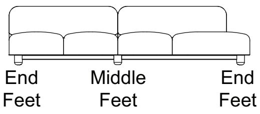


**Comfort wrinkles** are intended to occur over time to increase the comfort of Ensemble. Very little maintenance is required to reduce the definition; smooth the cushion fabric with a spreading/wiping motion.

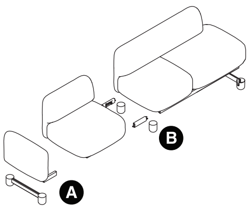


**Contrasting fabric** is available on seat, back, and arm cushions. When selecting contrasting fabric on a single unit with an armrest, the armrest will match the seat. Note, to have the armrest(s) match the seat back, or contrast the lounge unit all together, order the end armrest separately (**COENLEA**).

**Corner and chaise lounge units** are handed. Handedness is determined while in the seated position.

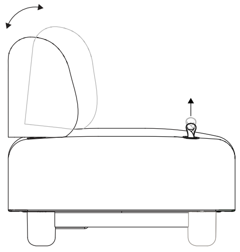


**Feet** are available in solid oak or painted and are specified separately based on desired configuration. Feet are required every 78". It is highly recommended to use CET SmartTools to confirm feet location before ordering.

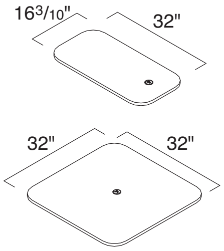


**End feet (A)** are specified at the end positions of each configuration**.**

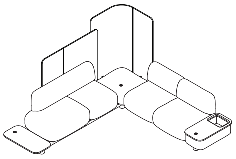
**Middle feet (B)** are required for runs that span more than 78".



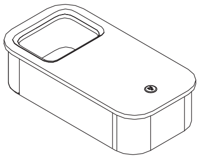
**Performance lounge seat** is activated by pulling up on the nylon pull strap. This strap is not specifiable and available only in black nylon.

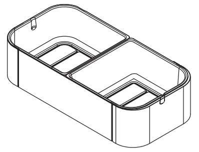


**In-line tables** are available in two sizes, 16$^{3}/_{10}$"D x 32"W and 32"D x 32"W. The table surface comes standard in laminate with matching 0.6 mm flat edge band profile or wood veneer with matching 1 mm flat wood edge band**.**

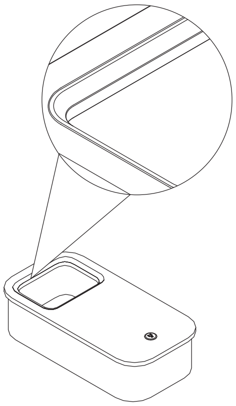


**The square in-line table** can be specified as a corner module in an "L" configuration. To achieve this, one (1) connector kit and one (1) corner ganging kit is needed.





**Planters** are available and must be specified with one or two liner inserts. An optional top, available in laminate or veneer, is available with or without power.

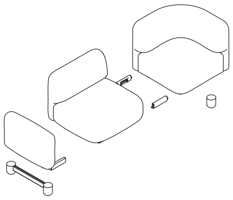


**The bezel** is found on the planter lid when specifying one insert. The bezel is available in milk, black, or graphite.

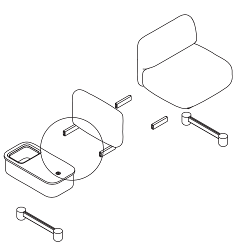
**Planters and in-line tables** can be specified at end of run, or in-line to create purposeful separation between lounge units.

**Clearance between the floor and rail** is 3".

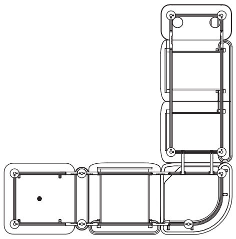
## Connections



**The connector kit** gangs individual lounge, lounge to table, and lounge to planter units together.



**Armrest end connector** is required only when connecting an in-line table or planter to an armrest. When connecting an armrest to a lounge unit, no additional connectors are needed.



**Corner ganging kit** is required to create an "L" shaped configuration.

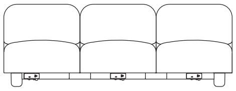
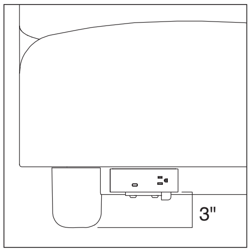
## Wiring & Cabling



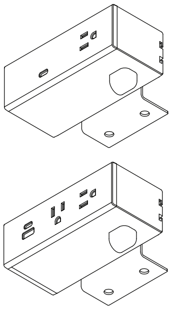
**Lounge power modules** are ordered separately and can be positioned anywhere along the attachment rail underneath the front of the lounge seat. Configurations available:

- 2 power,
  (1) USB A + (1) USB-C
- 1 power,
  (1) USB C single 60W

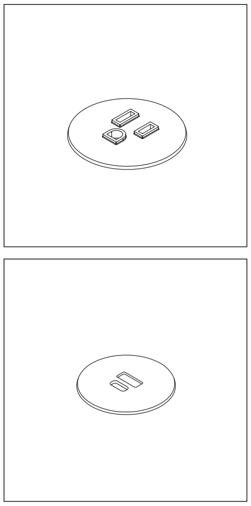
**Lounge power module** is available in black.



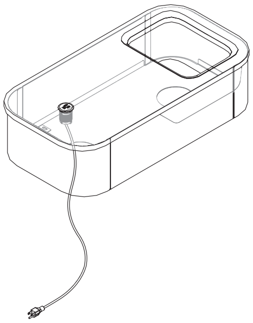
**The power and USB power module options** are located 3" from the floor.



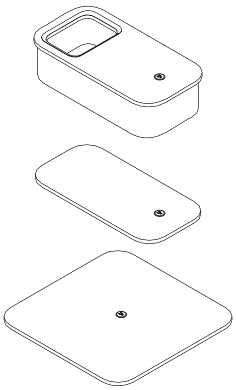
**Lounge power modules** have a 72"L cord with a 15-amp plug and contain wire manager clips to route cord under seat when desired. USB C single 60W can charge tablets and laptops.



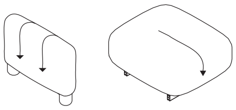
**Single power or USB power module** are available and can be specified with in-line tables and the planter. It comes with a 120"L power cord with 15-amp plug. The USB module has one USB A and one USB C 5V charging port. If a single USB module is specified, the 15-amp plug includes a built-in transformer measuring 2$^{1}/_{8}$"D x 1$^{1}/_{4}$"W x 3$^{1}/_{2}$"H. The power modules are available in milk, black, or graphite.



**Planters** route cables and cords from the table surface through the metal structure, and out through the planter base. Cords can be concealed in the planter base.



**Power location on the rectangular in-line table and planter** is 7 $^{1}/_{2}$" from the front edge of the table surface. When power is specified on the square in-line table, the power module is located in the center of the table.



**The direction of the fabric or pattern** always cuts in the across roll (horizontal) direction. The exception is the armrest, which is always upholstered in a down roll (vertical) direction.

# Coalesse Ensemble Freestanding Screens

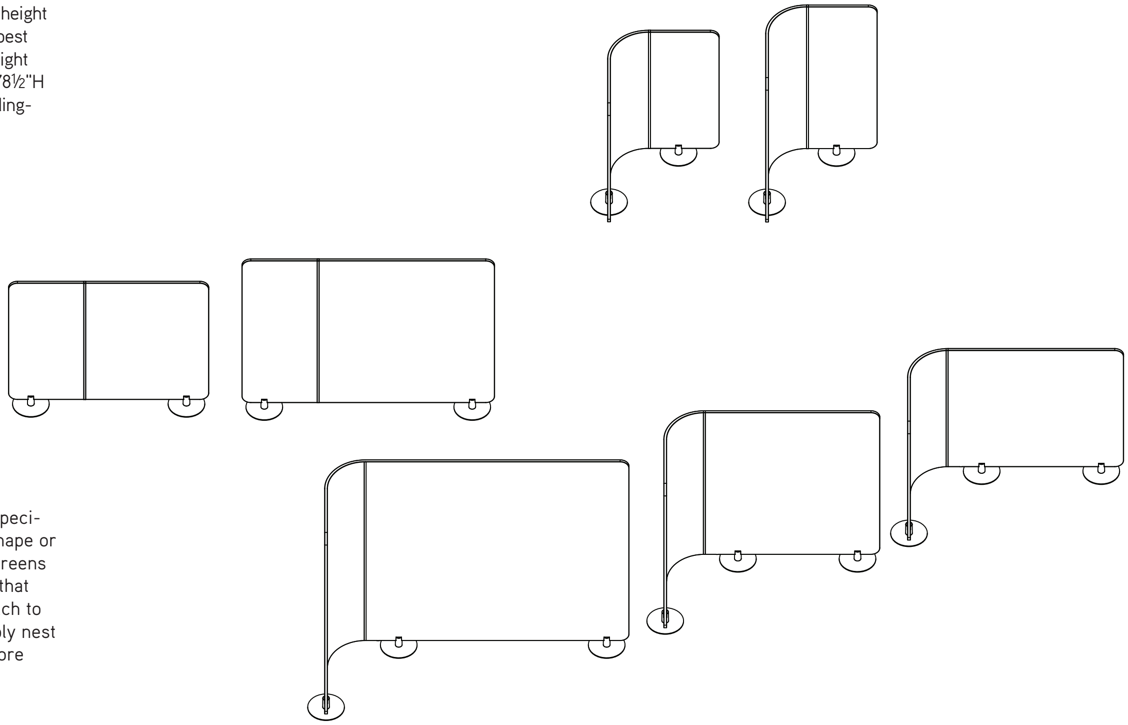
DESIGN COALESSE DESIGN GROUP

**Freestanding screens** are available in three heights, 51$\frac{2}{5}$"H, 62$\frac{7}{10}$"H, and 78$\frac{1}{2}$"H. Screens offer privacy, reduce visual distraction, and provide purposeful space division and shielding in the open plan.

**Screens** ara available in straight, corner, and J shapes.

**Screens** are are sized to work best when paired with Ensemble Lounge, but can be paired with other products.

**Screen heights** are optimized for various applications: 51$\frac{2}{5}$"H works best with lounge-height seating, 62$\frac{7}{10}$"H works best with standard seated-height tables and seating, and 78$\frac{1}{2}$"H is best paired with standing-height tables and stools.



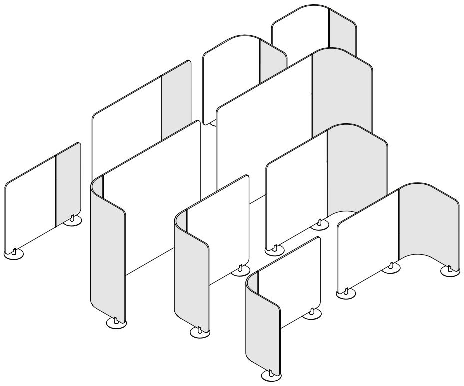
**Nesting base** can be specified with any screen shape or size and allows two screens to nest together. Note that the bases DO NOT attach to one another; they simply nest together to create a more streamlined look.

**Glides on bottom of freestanding screen** are non-adjustable.

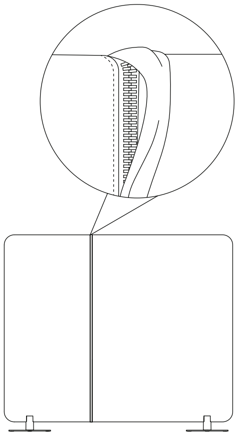
# Coalesse Ensemble Freestanding Screens

DESIGN COALESSE DESIGN GROUP

## Product Details



**Contrasting fabric** is available. The primary panel is identified as the larger panel; the secondary panel is identified as the smaller panel. On the J and corner screens, the primary panel will always be the straight section of the screen.



**Fabric panels** are joined together by a zipper, concealed behind fabric. This zipper color is not specifiable and is available only in black.

**Fabric** is applied in an across roll/vertical direction. Due to the size of the screens, fabric is unable to be applied in a down roll/ horizontal direction.

**Ensemble screens** were designed for stationary use. The screens may be moved when lifted and carried; they are not designed to be dragged. Excessive handling may result in the fabric panel(s) becoming loose around the frame, resulting in wrinkles.

**A welt cord** is standard on all fabric specified screens and seat decks. The welt cord finish is non-specifiable and is the same fabric finish as the outside screen specification when contrasting screens are specified. For non-contrasting screens the welt cord matches the screen specification. The knit screen and seat deck does not require a welt cord.

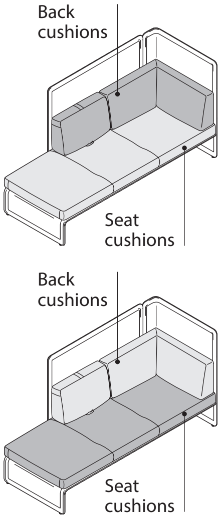
**Screens and seat deck can be specified in:**
- Knit
- Fabric (one fabric choice)
- Contrasting fabric (must be from fabric family)
  - Inside screen
  - Outside screen
  - Seat deck must match either the inside or outside fabric choice

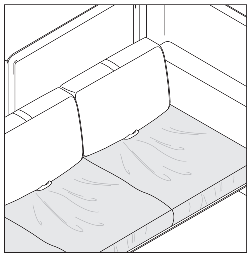
*Tip: Leather and vinyl are not approved for the screen(s) and seat deck. Consult the fabric database for fabric approvals.*

*Tip: It is important to understand the seat deck implication for contrasting fabric selection when two or more pieces are attached or adjacent to each other. The seat deck for contrasting fabric specification is either the outside screen (top example) or inside screen (bottom example).*

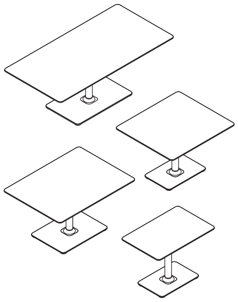


**Seat back and seat cushions can be specified in:**
- Fabric or leather (one fabric choice)
- Contrasting fabric or leather
  - Seat backs
  - Seat cushion
  - Top and bottom pulls on articulating back cushion(s)

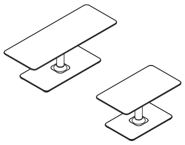
The seat back, seat cushion, as well as, top and bottom pulls on the articulating back can be specified in fabric or leather. It can be specified as non-contrasting, one finish; or contrasting, finish for back cushions(s) and finish for seat cushion. Specification of back cushion is for all back cushions for that style number. Specification of seat cushion is for all seat cushions for the style number.



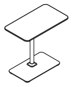
**Comfort wrinkles** are intended to occur over the time to increase the comfort of Lagunitas. Very little maintenance is required to reduce the definition: smooth the cushion fabric with a spreading/ wiping motion.



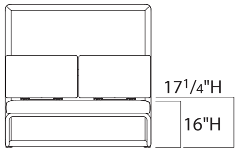
**Work tables** are available in six differing sizes, ranging from 30"W to 72"W that coordinate with the lounge dimensions to create a variety of social, collaborative, and personal applications. The work tables are available in two heights: 26"H and 28½"H. The work tables are comprised of a single column rectangular base in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.



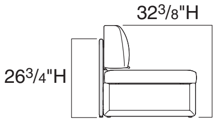
**Occasional tables** are available in two sizes, 32"W and 48"W, that coordinate with the lounge, chaise, and bench dimensions. The occasional tables are comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.

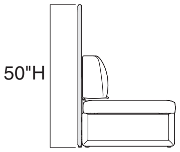


**Personal table** is available in one size. It can easily be moved to your desired location for short term laptop work or simply used to set your coffee. The personal table is comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile.



**16" seat height** is standard on all seating and benches. The 16"H seat height integrates specifically with the heights of all Lagunitas tables. There is an additional 1¼" crown of the seat cushion, which makes it 17¼" to work with the 26" work table height.





**Two screen heights** are available, 26¾"H for the low-back screen and 50"H for the high-back screen. Seat back cushions extend above the low-back screen, therefore, the overall height of low-back units is 32⅜"H. Low-back screens are designed to provide an open environment. High-back screens are designed to provide privacy.

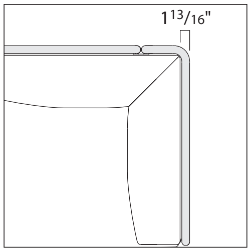
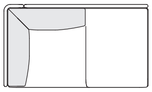
**Two seat widths** are available, 25 9/16"W and 32 11/16"W. When specifying corner or end cushions, the 32 11/16"W module is used. The corner cushion and end cushion account for 7⅛" of the 32 11/16" width, equating to the same seating space as the 25 9/16"W module. *Exception: 1-seat lounge with three screens has an overall width of 46⅞" allowing for a seating space of 32 11/16"W.*



**An additional 1 13/16" thickness for each end screen or corner** is added to the seating width to obtain the overall width of the product.



**Corner cushions** are standard when specifying two or three screens with closed end(s). Corner cushion are fixed and do not articulate.

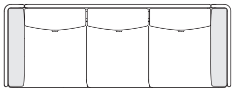
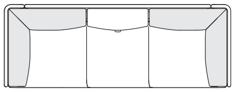
Two corner cushions

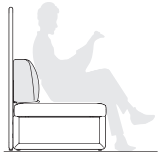


Two end cushions with three articulating backs

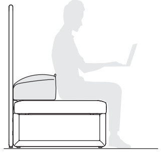


Two corner cushions with middle articulating back

**Two corner cushions or two end cushions** are available on all 2- and 3-seat lounges when back, left- and right-hand screens are specified. If articulating backs are specified, end cushions are required.

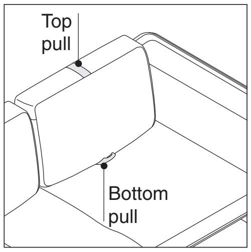


Lounge position

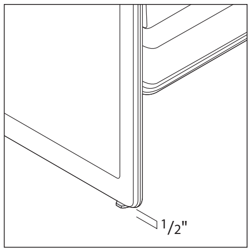


Task position

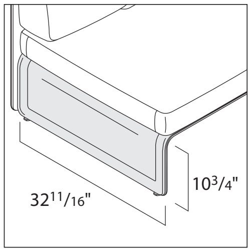
**The articulating back** is standard on all lounges and 3-seat chaises (2-seat chaises are only available with a corner cushion). The articulating back allows the user to easily change postures from a lounge position, when the back cushion is fully upright, to a task position, when the seat back is articulated down. Simply use the integrated pulls, one at the top and one at the bottom, to position the seat back to the desired position. The articulating mechanism is completely hidden behind the back cushion, and attaches the cushion to the seat frame.



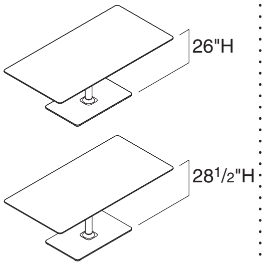
**Pulls at top and bottom of all articulating backs** aid the user to change from a lounge position to a task position and back to the lounge position.



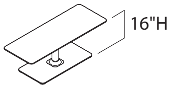
**Glides** adjust ½" for uneven floors. There are two glides per screen and/or seat deck. Glides have a metal rounded foot.



**Space** is available under the seat deck of all Lagunitas seating to provide a place to temporarily store personal items. The clearance height, without power module(s), is 10¾" and the depth is 32 11/16".



**Work tables** are available in two heights: 26"H tables are optimized to work with the lounge seat height, while 28½"H tables work with standard height seating.



**Occasional tables** are available in one optimized height, 16"H, to work with the lounge seat height.

16"D x 23⅝"W x ⅜"H for
18"D x 32"W, 24"D X 30"W, and 24"D X 36"W work tables;
16"D x 31⅝"W x ⅜"H for
18"D x 48"W occasional table;
21"D x 28½"W x ⅜"H for

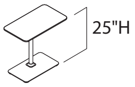
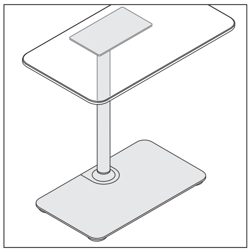
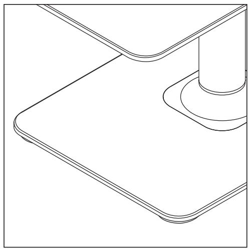
36"D x 57"W x work table; and
21"D x 35"W x ½"H for
36"D x 72"W x work table



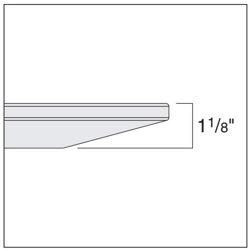
**The personal table** is available in one height, 25"H, to work with the lounge seat height.



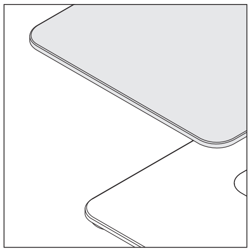
**The personal table** has a rectangular metal base with the column centered at the back of the base. The 1¼" column includes a flat plate at the top that attaches to the underside of the top. The base plate dimension is 10¾"D x 15¾"W x ⅜"H.



**Non-adjustable 3" diameter plastic glides** are standard on all tables. Glides are ⅜" thick for the 36"D x 72"W table; ½" thick for all other work and occasional tables; and ¼" thick for the personal table. For all work and occasional tables the glide height is needed to route cords.



**Tables** are standard with a knife edge profile, that has the appearance of a ½" thick top that tapers to an overall top thickness of 1⅛".



**High-Pressure Laminate tables** are standard with a matching or complementing 3 mm flat edge band. Wood veneer tables are standard with a matching wood 3 mm flat edge band. The underside of the table top is finished in black.

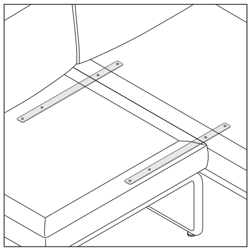
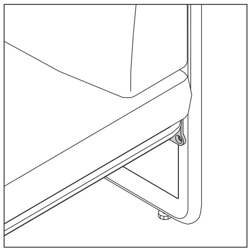
## Connections



**Alignment connector bracket package** includes two seat attachment brackets and one screen alignment clip. The alignment connector bracket package is used when permanent connection is needed for L-, U-, and straight configurations of two or more pieces. The screen alignment clip is not needed for any bench connections, only the two seat attachment brackets would be utilized. The alignment connector bracket package should not be used if reconfigurations of the furniture pieces are required.



**Attachment brackets for screen connection to seat deck** must be specified in either platinum matte or low gloss black. Along with the brackets, the entire frame underneath will be painted to match the bracket finish specified.

**Brackets can be specified in:**

**Round power modules** are available on the focus nook, and all work and occasional tables. On the focus nook worksurface, the power module is specifiable on the back right or left side. On the tables, the power module is located in the center of the table top over the cone/column. The 3" power module features tamper resistant power simplexes, an 8'L power cord with 15-amp plug, and is available in four colors.

**The round power modules** are available in three configurations:

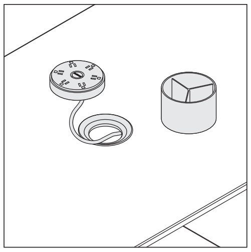
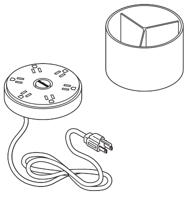
The stop attaches to the column to help hold and route cords and cables through the column. The grommet and stop cap are available in black or milk.



**The grommet** allows for pass through of cords and cables at the desktop. The grommet is open to allow for the PowerPod to be housed over or stored on the table. The grommet inside dimension is $3\frac{1}{2}$" and outside dimension is $5\frac{11}{16}$".



**PowerPod** includes six 15 amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

**Group 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Group 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

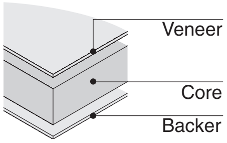
| Formica | 1.800.FORMICA |
| Pionite | 1.800.285.5161 |

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*



**Wood veneer table tops** are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

**Wood** is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.
*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Wood veneer swatches** are reproduced in the Surface Materials Color Palettes.
▶See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard wood veneers** are available from your Coalesse Customer Service representative.

**Additional wood veneer species** are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

# Lagunitas Focus Nook

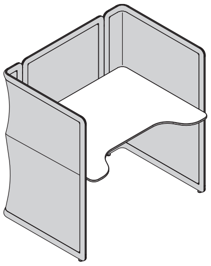
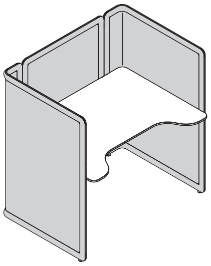
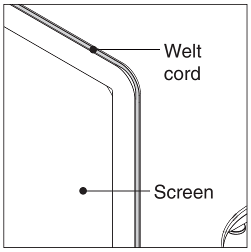
## Product Details



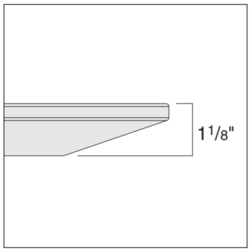


**Screens** are offered in two types of materials: knit and fabric. The knit panels allow for some transparency and light to pass through. The fabric panels can either be monolithic (non-contrasting) or specified in differing finishes (contrasting) for the inside and outside of the screen.

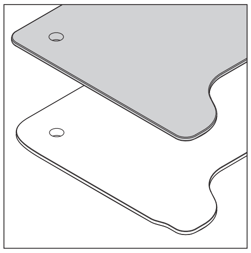
*Tip: If a contrasting screen is specified, the fabric must be chosen from the same fabric family.*



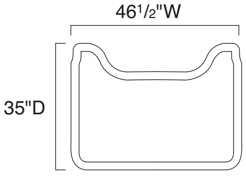
**A welt cord** is standard on all fabric specified screens. The welt cord finish is non-specifiable and is the same fabric finish as the outside screen when contrasting screens are specified. For non-contrasting screens, the welt cord matches the screen specification. The knit screen does not require a welt cord.



**Laminate or wood veneer worksurface** is standard with a knife edge profile that has the appearance of a 5/8" thick top, which tapers to an overall top thickness of 1 1/8".

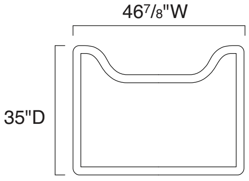


**High-Pressure Laminate worksurface** is standard with a matching or complementing 3 mm flat edge band. Wood veneer tables are standard with a matching wood 3 mm flat edge band. The underside of the table top is finished in black.



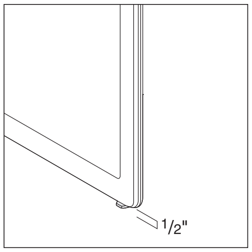
Knit Screen Surface

**Knit screen worksurface** measures 35"D x 46½"W.



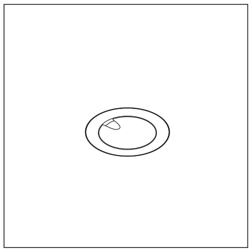
Fabric Screen Surface

**Fabric screen worksurface** measures 35"D x 46⅞"W.

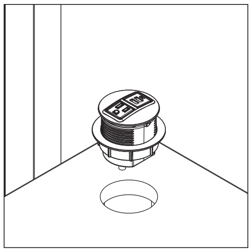


**Glides** adjust ½" for uneven floors. There are two glides per screen. Glides have a metal rounded foot.

## Power, Data, Wiring & Cabling



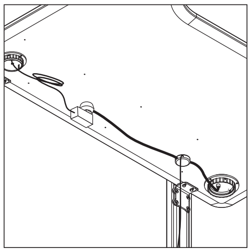
**2" light grommet** is available to accommodate an on-surface light by routing the on-surface light plug to the below-surface power source. Grommet is specifiable on the left or right side of worksurface and is available in three color options.



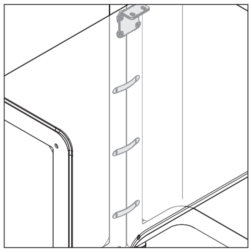
**Round power modules** are specifiable on the back right or back left side of the worksurface. The 3" power module features tamper resistant power simplexes, an 8'L power cord with 15-amp plug. Plug includes a built-in circuit breaker measuring 2¼"D x 1½"W x 1½"H. Round power module is available in four color options, and three configurations:

- Two TR simplex receptacles
- One TR simplex receptacle and two USB A charging ports
- One TR simplex receptacle, one USB A charging port, and one USB C charging port

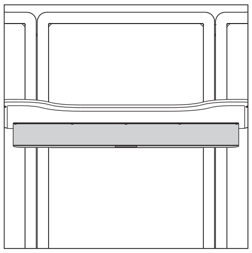
*Tip: USB receptacles conveniently charge a range of electronic devices. Some devices may not be compatible.*



**Power package** is available when light grommet is specified. Power package includes power module with a below worksurface convenience outlet to power the available on-surface light and retain a single power cord out. Specifiable on the back right or back left side of the worksurface.



**Magnetic wire management brackets** are black and come standard with the power module and power package to neatly manage the cord to the floor.



**Cable management tray** neatly conceals below surface cords to the underside of the worksurface.

# Adjustment Feature Definitions

**Active mechanism (AM+)** allows the seat and back angle to be adjusted independently of each other. The seat can be locked at various angles, and the back can free tilt with adjustable tension or lock in four positions.

**Arms**, height adjustable allow the user to independently move each arm up and down.

**Arms**, width-adjustable allows the arm rests to be adjusted in and out.

**Arms**, folding allows the user to independently fold each arm up or down for total freedom of leg movement and posture accommodation.

**Back**, height adjustable allows the user to raise or lower the chair back within a given range.

**Back lock,** forward allows the user to lock the backrest in a full upright position or release it to recline.

**Back stop**, selective allows the user to lock and unlock the backrest in any position within the tilt range.

**Back tilt** tension adjustment regulates the ease of tilt movement of the back only.

**Back and seat tilt** (Your Power mechanism) automatically responds to the weight and seating position of the user with an individual back resistance.

**Base**, free swivel allows chair to swivel 360°.

**Base**, memory-return swivel allows a chair to swivel 360°, but return to the forward-facing position when released.

**Base**, nesting four-prong has two front legs that are lower than the two rear legs, allowing chairs to nest for storage. A nylon tooth on the base engages a notch in the seat when folded. This engagement properly aligns the seat and base for nesting.

**Folding seat** allows the seat to flip up, while the chair automatically rises for nesting and storage.

**Knee tilt control** (low front rise) minimizes the rise of the front of the seat when the chair is in a reclined position, allowing the users' feet to remain on the floor. This feature reduces pressure under the thighs, allowing for continuous blood circulation.

**Lumbar support**, adjustable provides additional lower back comfort by allowing the user to move the lumbar support up or down, as well as increase or decrease the amount of support.

**Passive mechanism (PM)** allows the seat and back to move in synchronization without manual adjustment.

**Pneumatic height** allows the user to change the seat height assisted by a pneumatic gas cylinder.

**Seat angle adjustment** allows the user to change and lock the seat angle in various positions.

**Seat depth**, adjustable allows the user to slide the seat forward or back within a set range.

**Seat tilt control** allows the seat and back to rotate as a unit backward one position and forward two positions.

**Seat**, zero front rise allows the user to tilt back in the chair while feet remain on the floor because the seat front remains level.

**Swivel-tilt mechanism control** allows the chair to swivel 360° and the fixed seat and back to tilt in unison when the user leans back.

**Synchro-tilt mechanism** synchronizes the tilting movement of the seat and back in a set ratio.

**Tilt tension** adjustment allows the user to vary the amount of recline resistance. Your Power mechanism allows the back and seat tilt to adjust automatically to the weight and seating position of the user.

**Your Preference control** allows the user to adjust the back tilt by selecting one of four settings: weight activated, weight activated with 20% resistance boost, mid-stop recline, and upright back lock.
