For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing/. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

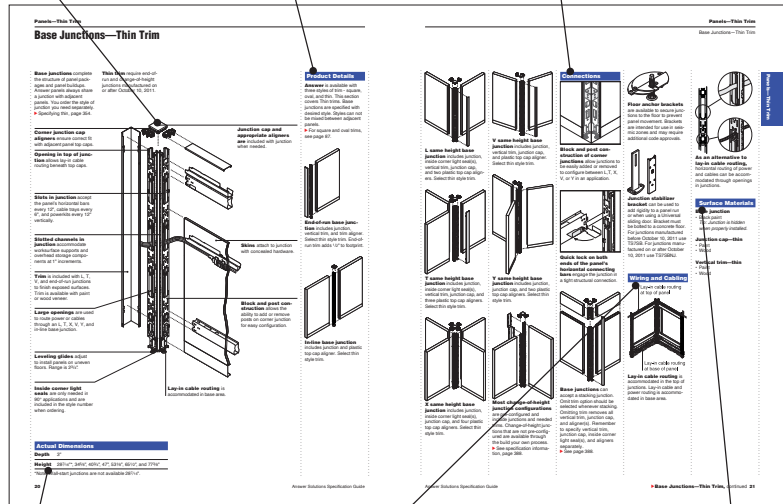

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes (under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Standard Includes

- Standard length (see note 1) (see 1004 placement only)
- Standard width (see note 1)
- Base trim with no backcoat (see 1076) (panel piece)
- Base trim with backcoat (1076) (1076) (panel piece)
- Standard 60-day warranty (see 1004)

Options

Option	Unit	Price
1004	Each	1004
1076	Each	1076
1076	Each	1076

Required to Specify

Option	Unit	Price
1004	Each	1004
1076	Each	1076
1076	Each	1076

Specification Information

Style Number	Unit	Price
1004	Each	1004
1076	Each	1076
1076	Each	1076

Options (under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with *Customiz Stain*

Italic typeface on specifying pages usually identifies wording that you should use in your order.

i

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you need a style number and you need to find the page that has more details about the product.

Additional Resources

Worktools products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources web site at village.steelcase.com.

Worktool photos are available to download at no charge. Photos can be found at village.steelcase.com.

Express Program Specification Guide
This specification guide describes all Steelcase and Coalesce products including the finishes and options that are available as Express orders - manufactured and shipped within 7 business days.

Printed Materials

Surface Materials Reference Manual
This publication provides surface material information for Steelcase products:

- An explanation of the surface materials
- "Available on" matrices
- Vertical surface fabric selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Planning Tools

Mock-Ups

Mock-ups are available for dealers to order single units at a nominal cost to show as samples. Contact the Steelcase Solutions Fulfilled Team (SFT) at 888.783.3522. Use village.steelcase.com to look up Reps by Regional Assignment.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com, the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Product Training

Basic training for many Steelcase products is part of the Building Product Muscle (BPM) curriculum on the Steelcase University Web site at village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our web site: www.steelcase.com.

Steelcase Lineone

For all questions including product specification and application information call the Lineone support line at 888.783.3522, Option 1 for lineone, Option 7 for worktools, or email lineone@steelcase.com.

Specials

To adapt an existing worktools product or develop a totally unique concept, contact Specials. For application information or to specify a product, submit a request on village.steelcase.com using the Specials RFQ E-Quote process. Please note: To ensure accurate pricing and timely delivery, a valid quote number is required on every order.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: <https://www.steelcase.com/discover/steelcase/esg-overview/environmental/>

Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Curated from our portfolio, the Worktools Intro Collection includes these featured accessories.

LED Intro Task Light

The LED Intro Task Light provides high quality illumination. Available in a single or dual-arm configuration, with three finishes and a transitional look that works everywhere always.

► Page 95

Powerstrip Intro

Power a personal device, monitor, or LED Intro Light. Powerstrip Intro puts convenient desktop power within reach. It is available in multiple power and USB configurations and two classic finishes.

► Page 201

CF Series Intro Monitor Arm

Position work where needed. Advanced features allow for precise adjustments to support preferences and healthy postures.

► Page 154

SOTO Worktools

Keep things tidy and convenient. SOTO Personal Hook keeps bags, keys, and headsets off desk and within arm's reach for convenience.

Slatwall

Slatwall allows for vertical stacking anywhere on the tile.

► Specifying, page 14

Slatwall tiles are standard in 12" or 18" heights and seven different widths.

Mounting brackets are available to correspond with selected furniture system and are ordered separately.

Slatwall can be panel-mounted or wall-mounted. 12" high Slatwall can be freestanding.

Actual Dimensions

	Freestanding slatwall stanchions	Slatwall tiles	Slatwall brackets
Depth	3"	1/2"	N.A.
Width	3 1/2"	24", 30", 36", 42", 45", 48", or 60"	2"
Height	16"	12" or 18"	12 1/3" or 18"

Product Details

Slatwall tiles are available for straight mounting applications only.

Slatwall tiles support a maximum of 60 lb.

Freestanding Slatwall stanchions are for use with 12"H Slatwall tiles only. Stanchions and Slatwall tiles must be ordered separately.

Freestanding Slatwall stanchions clamp to work surfaces $\frac{3}{4}$ " to 2" thick and uses a 2" footprint on the work surface.

Worksurface must be a minimum depth of 18" and able to support a maximum weight of 60 lb when using freestanding Slatwall stanchions.

In freestanding application, top of Slatwall is 15½" above mounting surface and is a fixed height. Rubber feet under stanchions ensure a tight fit without marring work surface.

Slatwall can overhang freestanding stanchions by 12" for tiles 48"W or less and 15" for 60"W tiles.

When using freestanding Slatwall stanchions, a 2" clearance is required below work surface to accommodate C-clamp.

Freestanding Slatwall stanchions cannot work in a corner application.

Freestanding Slatwall stanchions are not for use with glass, bullnose, knife edge, or other non-standard work surface edges.

Panel mount Slatwall brackets cannot be used with transaction top work surfaces.

Panel or wall-mount applications require a minimum of 13" vertical space between work surface and overhead bins or shelves.

Wall mount brackets must be installed in a wall stud.

Surface Materials

Slatwall tiles, stanchions, and brackets

- 0835 Black
- 4750 Champagne
- 4799 Platinum

Slatwall

Freestanding Slatwall Stanchions

For Use on Worksurfaces $\frac{3}{4}$ " to 2" thick

Tip: Positions top of Slatwall a fixed height of 15½" above mounting surface.

Tip: Slatwall can overhang stanchions up to 12".

Tip: Worksurfacetable must be able to support 60 lb.

Tip: Stanchion cannot be used in a corner application or on a glass surface.

Tip: Requires 18"D work-surface and uses 2" surface footprint.

Tip: Freestanding Slatwall stanchion is for use with 12"H tiles only.

▶ See page 1 for details.

Slatwall Tiles

Tip: Total dimensions of Worktools specified should not exceed Slatwall dimensions.

Tip: Slatwall is not dedicated to the exact panel width; a 12" overhang is acceptable.

Tip: Two Slatwall tiles cannot be used in a corner application.

Tip: Tiles require a minimum worksurface depth of 18" for stability.

Tip: A clearance of 2" is required under worksurface to accommodate C-clamp.

Tip: 12"H slatwall tiles support a maximum of 60 lb.

Tip: A limit of one monitor arm may be attached to 12"H slatwall tiles.

Tip: Tiles cannot be used on glass, bullnose, knife edge, or other non-standard worksurface edges.

Tip: Supports up to 140 lb.

Tip: Slatwall is 1/8" shorter than stated without end caps installed.

Tip: A limit of two monitor arms may be attached to 18"H slatwall tiles.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

Width	1½"	24", 30", 36", 42", 48", or 60"	2½"	¾"
Height	13½"	4"	4½"	4¾"

Product Details

SlatRail tiles are available for straight mounting applications only.

SlatRail tiles support a maximum of 100 lb.

Freestanding SlatRail stanchions and SlatRail tiles must be ordered separately.

Freestanding SlatRail stanchions clamp to work-surfaces $\frac{1}{2}$ " to $\frac{3}{4}$ " thick and uses a $2\frac{1}{2}$ " footprint on the work surface.

Worksurface must be a minimum depth of 18" and able to support a maximum weight of 100 lb when using freestanding SlatRail stanchions.

In freestanding application, top of SlatRail is $12\frac{3}{4}$ " above mounting surface and is a fixed height.

SlatRail cannot overhang freestanding stanchions.

When using freestanding SlatRail stanchions, a 2" clearance is required below worksurface to accommodate C-clamp.

Freestanding SlatRail stanchions cannot work in a corner application.

Freestanding SlatRail stanchions are not for use with glass, bullnose, knife edge, or other non-standard worksurfaces.

Wall mount brackets must be installed in a wall stud.

Surface Materials

SlatRail tiles, stanchions, and brackets

- 0835 Black
- 4750 Champagne
- 4799 Platinum

Application Topics

When mounting SlatRail with stanchions in combination with a cableway or determining appropriate SlatRail width for use with height-adjustable desks see *Height-Adjustable Desks Specification Guide*.

SlatRail

Freestanding SlatRail Stanchions

For Use on Worksurfaces and Materials 1/2" to 1 3/4" thick

Tip: Positions top of SlatRail a fixed height of 12 3/4" above mounting surface.

Tip: Worksurface/table must be able to support 100 lb.

Tip: Stanchion cannot be used in a corner application or on a glass surface.

Tip: Requires 18"D worksurface and uses 2 1/2" surface footprint.

Tip: A clearance of 2" is required under worksurface to accommodate C-clamp.

Tip: Actual width of usable SlatRail is 3 1/8" less than stated when installed using freestanding stanchions.

SlatRail

Tip: When mounting SlatRail with stanchions in combination with a cableway, see Worktools Compatibility Charts, in Height-Adjustable Desks Specification Guide.

Tip: To determine appropriate SlatRail with stanchions width when mounting to height-adjustable work-surfaces, see Worktools Compatibility Charts, in Height-Adjustable Desks Specification Guide.

Tip: SlatRail requires a minimum worksurface depth of 18" for stability.

Tip: Total dimensions of Worktools specified should not exceed SlatRail dimensions.

Tip: Two SlatRails cannot be used in a corner application.

Tip: Not applicable on glass surfaces.

Tip: Actual width of usable SlatRail is 3/8" less than stated when installed using freestanding stanchions.

Tip: Supports up to 100 lb.

Standard Includes	Required to Specify

Trays

► Specifying, page 29

Product Details

Trays are available to accommodate letter, legal, and A4 filing.

Trays may be used with Slatwall, SlatRail, or freestanding applications.

Trays are 2½"H and stackable.

Tray holds a maximum weight of 7 lb per tray.

Trays stack four high on 12"H Slatwall and six high on 18" Slatwall.

Surface Materials

Tray

- 6000 Black
- 6009 Arctic White
- 6544 Frost
- 6546 Rain

SOTO Worktools

SOTO Rail

► Specifying, page 45

Product Details

SOTO rail supports several worktool combinations.

SOTO rail provides 1" clearance between worksurface and rail for cable management.

SOTO rail is flush with top of worksurface.

SOTO rail clamps onto worksurfaces or materials up to 2" thick. Each clamp requires 2" footprint above the worksurface. Clamp mounting brackets are included.

SOTO rail clamps are standard with rubber feet to ensure a tight fit without marring worksurface.

SOTO rail requires 18" minimum worksurface depth.

SOTO rail requires 3¼" clearance underneath worksurface to accommodate mounting clamps.

SOTO rails are not for use with glass worksurfaces.

SOTO rail supports a maximum weight of 125 lb.

Surface Materials

SOTO rail

- 4799 Platinum Metallic
 - Accent paints
- See *Surface Materials* on page 266 for accent paint options.

SOTO Pile Box

► Specifying, page 45

Product Details

SOTO pile boxes may be used individually, stacked horizontally, or criss-crossed. Boxes interlock when stacked horizontal.

SOTO pile boxes may be used freestanding or on 10" shelf.

SOTO pile boxes accommodate letter size materials.

Surface Materials

SOTO pile box

- 6009 Arctic White
- 6302 Baltic
- 6338 Chili
- 6527 Merle
- 6BE2 Light Peacock
- 6BE3 Cotton Candy

Actual Dimensions

Depth	9⅞"
Width	12¼"
Height	2"
Weight	0.7 lb

SOTO Landscape Letter Box

► Specifying, page 46

Product Details

SOTO landscape boxes may be used individually or stacked horizontal. Boxes interlock when stacked horizontal.

SOTO landscape boxes may be used freestanding or on 10" shelf.

SOTO landscape boxes accommodate letter size materials.

SOTO landscape box is standard with open front to allow for easy viewing of materials.

Surface Materials

SOTO landscape box

- 6009 Arctic White
- 6302 Baltic

 - 6BE2 Light Peacock
 - 6BE3 Cotton Candy

Actual Dimensions

Depth	3½"
Width	3¼"
Height	3½"
Weight	0.3 lb

SOTO Diagonal File Box

► Specifying, page 46

Product Details

SOTO diagonal file box supports binders and other reference materials.

SOTO diagonal file boxes may be used free-standing or on 10" shelf.

SOTO diagonal file box may be used in tall orientation for most materials or short orientation for larger materials.

Surface Materials

- SOTO diagonal file box**
- 6009 Arctic White
 - 6302 Baltic
 - 6338 Chili
 - 6527 Merle
 - 6BE2 Light Peacock
 - 6BE3 Cotton Candy

Actual Dimensions

Depth	12¼"
Width	4"
Height	9⅞"
Weight	0.5 lb

SOTO Utility Box

► Specifying, page 7

Product Details

SOTO utility box is for use on 3" shelf, inside personal box, or on worksurface.

Surface Materials

- SOTO utility box**
- 6009 Arctic White
 - 6302 Baltic
 - 6338 Chili
 - 6527 Merle
 - 6BE2 Light Peacock
 - 6BE3 Cotton Candy

Actual Dimensions

Depth	3⅞"
Width	9"
Height	1¼"
Weight	0.3 lb

SOTO Personal Box

► Specifying, page 7

Product Details

SOTO personal box provides user controlled area for small business or personal items.

SOTO personal boxes may be used freestanding or on 10" shelf.

SOTO personal boxes may be used individually or stacked horizontal. Boxes interlock when stacked horizontal.

Surface Materials

- SOTO personal box**
- 6009 Arctic White
 - 6302 Baltic
 - 6338 Chili
 - 6527 Merle
 - 6BE2 Light Peacock
 - 6BE3 Cotton Candy

Actual Dimensions

Depth	9"
Width	9"
Height	2"
Weight	0.3 lb

SOTO Mobile Caddy

► Specifying, page 49

Product Details

SOTO mobile caddy provides space to stow personal items off floor and out of work chair.

Upper shelf of SOTO mobile caddy houses a fabric pad to hold mobile devices in soft, open environment.

SOTO mobile caddy is standard with in-line casters for ease of pulling out and pushing under worksurface.

SOTO tool box, utility box, and storage boxes fit into the top shelf of caddy.

SOTO mobile caddy is designed to meet C2C Silver Certification and BIFMA Level 1 Certification.

Surface Materials

SOTO mobile caddy

- 6009 Arctic White
- 6527 Merle

Fabric pad

- Dark grey felt (standard)
 - Cogent: Connect (option)
- See Surface Materials, page 266

Actual Dimensions

Depth	21"
Width	9½"
Height	23¾"
Weight	16.8 lb

SOTO Launch Pad

► Specifying, page 49

Product Details

SOTO launch pad provides connectivity for mobile devices at the front of the worksurface.

SOTO launch pad is standard with integrated pockets on each end for storage.

SOTO personal box and utility box fit in top section of launch pad.

Powered SOTO launch pad, if selected, is standard with three outlets on each side, including one for large plugs, and a 9' power cord with cable management clips. Powered SOTO launch pad contains a 15 amp circuit breaker.

SOTO launch pad may be placed inboard or outboard of cantilevers, if placed outboard overhang must be specified.

SOTO launch pad may be clamped on any standard worksurface edge ½" to 1½" thick.

SOTO launch pad may be shared by two users in a bench application.

SOTO launch pad is U.L. and c.U.L. listed and designed to meet BIFMA Level 1 Certification.

Surface Materials

SOTO launch pad

- 6009 Arctic White
- 6527 Merle

Fabric pad

- Dark grey felt (standard)
 - Cogent: Connect (option)
- See Surface Materials, page 266

Actual Dimensions

Depth	24"
Worksurface Depth when installed	21"
Width	9"
Height above worksurface 5"	
Weight	7.75 lb and 10.1 lb

Tip: Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and installation instructions. However, consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

SOTO Functional Screen

Tip: Functional screen not applicable for use with glass, bullnose, knife-edge, or any other non-standard worksurface edge.

► Specifying, page 50

Product Details

SOTO functional screen combines organization and boundary while providing privacy.

SOTO functional screen has a 1¾" integrated opening to hold frequently accessed documents and materials.

SOTO functional screen may be clamped to any standard worksurface ¾" to 1½" thick. Clamp depth is 2½".

SOTO functional screen is standard with felt liner to dampen noise.

SOTO functional screen is 14" above work-surface when installed.

SOTO functional screen is designed to meet C2C Silver Certification and BIFMA Level 1 Certification.

SOTO functional screen is field changeable from right to left facing. Phillips screwdriver is required.

Surface Materials

SOTO functional screen

- 6009 Arctic White
- 6527 Merle

Actual Dimensions

Overall Depth	28½"
Overall Width	1¾"
Overall Height	14"
Worksurface Installed Depth	21½"
Worksurface Installed Width	1¾"
Worksurface Installed Height	11"
Worksurface Installed Pocket Opening	1⅝"

SOTO Personal Pocket

► Specifying, page 50

Product Details

SOTO personal pocket provides space to store frequently accessed materials.

SOTO personal pocket may be used freestanding in a single unit or ganged to create a desktop organizer.

When used as a single unit, SOTO personal pocket will easily attach to mobile caddy or functional screen.

Ends of SOTO personal pocket are open to accommodate various sizes of materials.

SOTO personal pocket holds a maximum weight of 10 lb.

SOTO personal pocket is designed to meet BIFMA Level 1 Certification.

Surface Materials

SOTO personal pocket

- 6000 Black

Actual Dimensions

Depth	11¾"
Width	2"
Height	5½"
Weight	1.1 lb

SOTO Cable Clip

Tip: Cable clips cannot be used with glass, bullnose, knife edge, or other non-standard worksurface edges.

► Specifying, page 50

Product Details

SOTO cable clip provides cable management.

SOTO cable clip clamps to any worksurface ¾" to 1¼" thick.

Surface Materials

SOTO cable clip

- 6009 Arctic White
- 6059 Sterling Dark Solid

Actual Dimensions

Depth	2"
Width	1"
Height	2"
Weight	0.5 lb

SOTO Personal Hook

Tip: Personal hook not applicable for use with glass, bullnose, knife-edge, or any other non-standard worksurface edge.

► Specifying, page 51

Product Details

SOTO personal hook is designed to hold lightweight bags, keys, umbrella, or other small items.

SOTO personal hook clamps to any worksurface ¾" to 1¼" thick.

SOTO personal hook may not be clamped to the sides of the Migration work-surface due to its cantilevers.

SOTO personal hook holds a maximum weight of 10 lb.

Surface Materials

SOTO personal hook

- 6009 Arctic White
- 6059 Sterling Dark Solid

Actual Dimensions

Depth	2"
Width	¾"
Height	2"
Weight	0.5 lb

Tip: Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and installation instructions. However, consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

SOTO Monitor Bridge

► Specifying, page 51

Product Details

SOTO monitor bridge supports monitor or multiple monitors (depending on size) and one-over-one screen application with laptop.

Optional monitor bridge shelf can support up to three SOTO personal boxes and provide additional storage space for objects or keyboard.

SOTO monitor bridge clears space in front of user for more available worksurface.

SOTO monitor bridge can hold a maximum 50 lb.

Anti-skid pads are standard to help prevent slipping.

The distance between worksurface top and underside of bridge is 3 1/2".

The distance between worksurface top and underside of shelf is 1".

The distance between top of shelf and underside of bridge is 2 1/2".

The distance between bridge stanchions is 27".

Channel opening size is 0.7"D x 29"W x 0.8"H.

Surface Materials

SOTO monitor bridge

- 6009 Arctic White
- 6527 Merle

Fabric pad

- Dark Grey Felt (standard)
- Cogent:Connect (option)

► See Surface Materials, page 266

Actual Dimensions

Depth	9"
Width	29 2/5"
Height	4 1/2"
Bridge weight	4.1 lb
Shelf weight	8.24 lb

Application Topics

SOTO monitor bridge works with SOTO laptop shelf to allow use with laptop as a second screen.

► See page 51

SOTO Laptop Shelf

► Specifying, page 52

Product Details

SOTO laptop shelf allows user to utilize an external keyboard and the laptop as a dual screen.

SOTO laptop shelf raises the laptop for better user ergonomics.

Docking station can be rear or side-mounted.

SOTO laptop shelf is available in rail-mounted or freestanding. Both versions can hold a maximum 20 lb.

Allows use of shelf with monitor arms or monitor bridge.

SOTO laptop shelf supports tablet or cell phone in display or video chat angle.

Anti-skid pads are standard to help prevent slipping.

The distance between worksurface top and underside of front is 5 7/8" for rail-mounted shelf and 5 3/8" for freestanding shelf.

The distance between worksurface top and underside of back of shelf is 7 1/4".

The distance between bridge stanchions is 9".

Channel opening size for shelf is 0.6"D x 12"W x 0.6"H.

Foot length of free-standing shelf bracket is 11".

The front of the shelf has a 2/5"H lip.

Surface Materials

SOTO laptop shelf

- 6009 Arctic White
- 4799 Platinum

Actual Dimensions

Depth	14 1/4"
Width	14"
Height of rail-mounted shelf	9 5/8"
Height of freestanding shelf	7"
Weight of rail-mounted shelf	2.7 lb
Weight of freestanding shelf	3 lb

Application Topics

SOTO personal box fits between shelves legs for additional object storage.

► See page 7

SOTO Ergo Edge

► Specifying, page 52

Product Details

SOTO ergo edge provides add-on ergonomics for standard worksurface edge.

SOTO ergo edge creates personal boundary for user.

SOTO ergo edge is standard with antimicrobial treatment.

SOTO ergo edge is not for use with bullnose, knife-edge, or other non-standard worksurface edges.

Front lip of edge extends 1/2" down front edge of worksurface.

Antimicrobial edge is treated with Bactiblock.

Surface Materials

SOTO ergo edge
• 6527 Merle

Actual Dimensions

Depth 2 1/4"

Width 27"

Height 7/10"

Weight 0.21 lb

SOTO Desk Pad

► Specifying, page 53

Product Details

SOTO desk pad creates personal boundary for user.

SOTO desk pad covers seam at a bench.

Front edge of desk pad provides user comfort.

SOTO desk pad is standard with antimicrobial treatment.

Front lip of desk pad extends 1/2" down front edge of worksurface.

Antimicrobial desk pad is treated with Bactiblock.

SOTO desk pad is not for use with bullnose, knife-edge, or other non-standard worksurface edges.

Surface Materials

SOTO desk pad

SOTO Rails

Tip: The colors for plastic end caps are defaulted by bracket color.
 ▶ See page 268, *Defaulted Finishes*.

Tip: Rails clamp to freestanding worksurfaces or material up to 2" thick. Rails are not applicable for glass surfaces.

Tip: Not applicable on glass surfaces.

Tip: Allow 1" clearance between worksurface and rail for cable management. Allow 2" for rail mount installed behind a worksurface, and 3³/₄" overall to install the rail.

Tip: Maximum weight load for rails is 2 lb per lineal inch.

Tip: Each clamp requires a 2" footprint above the worksurface, and a 3¹/₄" clearance below the worksurface.

Tip: Rails require a minimum worksurface depth of 18" for stability.

Victor2

Victor2 is a recycling solution that is appropriate for supporting larger work groups, conference rooms, and cafés. A mobile unit and two freestanding units are available.
 ▶ Specifying, pages 60

Mobile unit has three openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish, and French.

Receptacles contain features to accommodate oversized bags.

Four non-locking casters are standard. Two casters swivel, and two casters are fixed. Move unit from the swivel casters side. Unit moves from the right in the direction of the swivel casters. Enclosing the unit in too limited of space impedes movement. Unit needs room to swivel, approximately 5" from side of enclosure.

Soft-touch integral handle allows easy movement from one location to another.

Receptacles fit bags from 30 gallon size and larger.

Freestanding unit has four or five openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish and French.

Leveling glides are fully adjustable up to 1½".

Actual Dimensions

	Mobile Unit	Freestanding Unit
Depth	18"	25"
Width	36"	48" or 60"
Height	36"	36"

Product Details

Mobile and freestanding units are standard with a metal case and top. Front and back of unit are available in wood or laminate.

Acrylic inserts etched with recycling icons are standard on mobile and freestanding units. The verbiage for each icon is in English/Spanish/French on the same insert.

Mobile unit is standard with three openings for inserts and sloped receptacles with built-in bag holding system.

Top on the mobile unit can be used for food service use or tray storage.

Hinged doors on the back are standard on the mobile unit for easy access to receptacles.

Four non-locking concealed casters, two swivel and two fixed, are standard on the mobile unit. Unit moves from the front right side. It is not recommended to move from the fixed caster side.

Receptacles in mobile unit can accommodate 12 gallons each. Receptacles in freestanding unit can accommodate 30 gallon size and larger.

Soft-touch integral handle on mobile unit allows for easy movement from one location to another.

Freestanding unit is standard with either four or five openings for inserts on the top of the unit.

Hinged doors on the front are standard on the freestanding unit for easy access to the receptacles.

Leveling glides on freestanding units are fully adjustable to 1½".

Tray shelf can only be used with the freestanding unit.

Tray shelf fits most trays up to 20¾" x 12".

Freestanding four- or five-slot opening will accommodate two tray shelves.
Tip: A gap of 15" will separate the two tray shelves on a five-opening unit.

Maximum capacity of tray is 20 food trays with maximum size of tray 20" x 20".

Display holds two 8½" x 11" papers or one 11" x 17" paper.

Tip: Paper will be between two acrylic plates. Paper can easily be replaced without tools.

Display can only be used with the freestanding unit.

Freestanding four- or five-slot opening will accommodate two displays.
Tip: A gap of 18½" will separate the two displays on a five-opening unit.

One tray shelf and one display can be used on the freestanding unit.

Surface Materials

Top and sides

- Paint

Back and front

- Wood
- Laminate (HPL)
- Customiz stain (option on wood)

Victor2 Mobile Unit

Tip: Acrylic inserts lift out without tools for ease of cleaning and changeability.

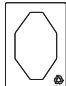

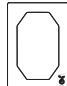

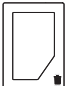

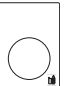

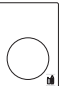

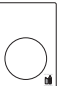

Tip: Verbiage on each insert contains English, Spanish, and French.

For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Receptacle contains features to accommodate oversized bags.

Tip: Soft-touch integral handle allows easy movement from one location to another.

Description

An environmentally-friendly light that consumes only 11 watts of power, contains no harmful metals (mercury), and has a useful life of over 50,000 hours. Ideally suited for recessed mount applications to bottom of bin or shelf.

With its low profile and available four widths, the LED linear light will fit in a variety of shelving and overhead storage applications. Beneficial features of this fixture include: energy efficient LEDs, continuous dimming, automatic turn off after 10 hours, and optional occupancy sensor.

Finish Options

- Bottom surface clear anodized aluminum only. Plastic cover Arctic White (6009) or Black (6000).
- 4231 Arctic White body with Arctic White (6009) end caps or 0835 Black body with Black (6000) end caps.

Optics

- Polycarbonate matte film
- Polycarbonate matte film

dash and dash mini LED Lights

dash and dash mini LED lights are available in a variety of mounting applications.

► Specifying, pages 75–78

Vertical height adjustment range of dash light is 2"–25".

Housing is painted steel.

Freestanding bases, if selected, are painted to match housing.

Soft touch switch has continuous range dimming from 100%–15%.

9.3-watt LED, 3500K is standard.

Automatic turn off is standard and is enabled after 10 hours.

Mounting brackets are available for C-clamp for worksurfaces $\frac{3}{4}$ " to $1\frac{1}{2}$ " thick, Slat-wall/SlatRail, panel, and rail applications. Rail applications include SOTO, Ology, Elective Elements, Campfire, Tour, Answer beam, and FrameOne. All mounting brackets are painted to match housing.

Product Details

dash LED light is for use with worksurfaces 60"W or greater.

dash mini LED light is for use with worksurfaces 58"W or smaller.

dash and dash mini LED lights are 110 volt, mercury free, and has a color rendering index of 94.

Occupancy sensor utilizes a passive infrared technology to detect the slightest movements by constantly monitoring a 36" diameter zone around the LED light head.

Occupancy sensor is fully integrated into the LED light head and activates in 15 minutes when no movement is detected to conserve energy.

Average rated lamp life of dash and dash mini LED lights is 50,000 hours.

Power supply for all dash lights except with USB base has a 15-watt, 9' cord.

Power supply for dash with USB base has a 60-watt, 11' modular cord with standard two prong plug, an integrated low voltage cord, and a connector to the attached USB base.

Freestanding USB base provides two integrated USB charging ports, type-A and type-C. The USB cord to connect personal devices is not included.

When specified with Height-Adjustable Series Benching or power and data tray, flexible receptacles are recommended.

90° mini extension cord can be used with Ology bench, FrameOne, or where power receptacles are located in confined spaces.
▶ Specifying, page 96

Head of light rotates 360°.

dash and dash mini LED lights, designed in collaboration with Foster + Partners, is U.L. and c.U.L. listed and BIFMA Level 1 certified.

Connections

For applications that include an integrated SOTO rail: FrameOne, Ology, Campfire, Tour, or SOTO rail; specify dash rail mount with integrated SOTO bracket. dash can be mounted in front of privacy screens, Slatwall, or FrameOne center screen.

Applications that include a rail mounted dash to Elective Elements Tech Zone will need to choose the optional Elective Elements Tech Zone rail mount bracket. Elective Elements Tech Zone rail mount bracket cannot be used with privacy screens, Slatwall, or FrameOne center screens. The light must be mounted adjacent to the screens or Slatwall.

Panel-mount light cannot be used in corner application.

Wiring & Cabling

Electronic dimming control features a soft touch switch, which allows dimming from 100% to 15% light output.

Steelcase Eclipse Light

Steelcase Eclipse video and task light provides power and performance in one LED light. Energy efficient and innovative, Steelcase eclipse light illuminates residential and commercial environments.
▶ Specifying, page 83

Adjust light head and arm for video-light or task-light mode.

Aluminum extrusion arm with hidden wire.

Arm lower pivot with range of 180° ships flat.

Padded, anti-slip surface holds phone in place without slipping off the base.

Copper tinted mirror softly diffuses light and improves appearance.

Soft golden reflector.

Slide lever off/on to adjust dimming range from 0% to 100%.

Phone support in both vertical and horizontal positions on kickstand.

Cord egress on bottom of light.

15 watt wireless charger provides power for devices laying flat on base.

Product Details

LED light performance with a 96+ color rendering index rating and Flicker-Free technology.

Adjustability at the lighthouse and arm directs light where needed.

Color temperature is 3500K.

Color rendering index is 96+.

Copper-tinted mirror in center of light.

15 watt wireless charger provides power for devices laying flat on base.

Connections

Freestanding base

Wiring and Cabling

Light comes standard with sliding lever dimming range 0% to 100%.

Power supply uses a modular cord with standard two prong plug, cord length 91".

Surface Materials**Paint**

- 4135 Black Matte
- 4239 Clay
- ZW01 Pearl Snow

Application Topics

90° mini extension cord can be used with Ology bench, FrameOne, or where power receptacles are located in confined spaces.
▶ See page 96

Power cord length is 91". Consider distance from light to power receptacle, and if surface or under the worksurface power receptacle may be needed.

LED Radial Desktop Lights

LED radial desktop single and double arm lights are available in a variety of mounting applications.

► Specifying, page 87

Rotational base provides 320° of adjustment.

Freestanding base, if selected, is painted to match housing.

Integrated rail-mount bracket used on SOTO rail, FrameOne, Ology, Campfire, and Tour applications can be mounted in front of privacy screens, Slatwall, or FrameOne center screen.

Knuckle tension points are adjustable with a hex wrench.

Panel-mount, if selected, allows single and double arms to mount to Answer, Avenir, and Kick.

A properly diffused light source under the radial head provides a softly blended light pattern that reduces eye strain.

Optional occupancy sensor turns LEDs off after 30 minutes of inactivity, available on both single and double arm models.

Single touch on/off pad plus touch and hold dimming for easy individual user control.

Continuous dimming from 100% to 15% with last state memory.

Product Details

LED radial single arm desktop lights are for use with worksurfaces 58"W or smaller.

LED radial double arm desktop lights are for use with worksurfaces 60"W or greater.

LED radial single and double arm desktop lights come standard with 7.5-watt 18 fractional LEDs with a color temperature of 3500K.

Occupancy sensor is fully integrated into the LED light head and activates in 30 minutes when no movement is detected to conserve energy.

Occupancy sensor utilizes a passive infrared technology to detect the slightest movements by constantly monitoring a 36" diameter zone around the LED light head.

Average rated lamp life of LED radial desktop lights is 50,000 hours.

Color temperature of LEDs is 3500K.

Color rendering index of LEDs is 85.

Automatic turn off after 10 hours (+/- 15 mins.); standard with both models.

Through-mount and theft deterrent through-mount brackets can only be used with worksurfaces that are 1" thick to 1 3/4" thick. They are not for use with Bivi or FrameOne worksurfaces under 1" thick.

Theft deterrent through-mount bracket cannot be retrofitted in the field.

Freestanding base with USB provides an integrated USB charging connection in the base to power up devices such as smart phones (USB cord not included).

Connections

- Freestanding base
- Freestanding base with USB
- Through-mount for worksurfaces 1" to 1 3/4" thick
- C-clamp mount for worksurfaces 7/8" to 1 7/8" thick
- Slatwall-mount
- Panel-mount
- Theft deterrent through-mount for worksurfaces 1" to 1 3/4" thick
- Integrated rail-mount

Optional choice of base/mounting brackets includes: freestanding base, C-clamp mount, Slatwall mount, integrated rail-mount, panel-mount, through-mount, or theft deterrent through-mount.

Wiring & Cabling

Light is standard with single touch on/off and touch control dimming.

User adjustable touch and hold dimming pad includes continuous dimming range of 100% to 15%.

Power supply uses a modular cord with standard two prong plug, integrated 3' silver cord, and an 18-watt, 9' black cord.

When specified with Height-Adjustable Series Benching or power and data tray, flexible receptacles are recommended.

LED Linear Desktop Lights

LED linear desktop single and double arm lights are available in a variety of mounting applications.

► Specifying, page 91

Rotational base provides 320° of adjustment.

Freestanding base, if selected, is painted to match housing.

A properly diffused light source under the linear head provides a softly blended light pattern that reduces eye strain.

Optional occupancy sensor turns LEDs off after 30 minutes of inactivity, available on both single and double arm models.

Knuckle tension points are adjustable with a hex wrench.

Panel-mount, if selected, allows single and double arms to mount to Answer, Avenir, and Kick.

Single touch on/off pad plus touch and hold dimming for easy individual user control.

Continuous dimming from 100% to 15% with last state memory.

Integrated rail-mount bracket used on Soto rail, FrameOne, Ology, Campfire, and Tour applications can be mounted in front of privacy screens, Slatwall, or FrameOne center screen.

Product Details

LED linear single arm desktop lights are for use with worksurfaces 58"W or smaller.

LED linear double arm desktop lights are for use with worksurfaces 60"W or greater.

LED linear single and double arm desktop lights come standard with 7.5-watt 18 fractional LEDs with a color temperature of 3500K.

Occupancy sensor is fully integrated into the LED light head and activates in 30 minutes when no movement is detected to conserve energy.

Occupancy sensor utilizes a passive infrared technology to detect the slightest movements by constantly monitoring a 36" diameter zone around the LED light head.

Average rated lamp life of LED linear desktop lights is 50,000 hours.

Color temperature of LEDs is 3500K.

Color rendering index of LEDs is 85.

Automatic turn off after 10 hours (+/- 15 mins.); standard with both models.

Through-mount and theft deterrent through-mount brackets can only be used with worksurfaces that are 1" thick to 1 3/4" thick. They are not for use with Bivi or FrameOne worksurfaces under 1" thick.

Theft deterrent through-mount bracket cannot be retrofitted in the field.

Freestanding base with USB provides an integrated USB charging connection in the base to power up devices such as smart phones (USB cord not included).

Connections

- Freestanding base
- Freestanding base with USB
- Through-mount for worksurfaces 1" to 1 3/4" thick
- C-clamp mount for worksurfaces 7/8" to 1 7/8" thick
- Slatwall-mount
- Panel-mount
- Theft deterrent through-mount for worksurfaces 1" to 1 3/4" thick
- Integrated rail-mount

Optional choice of base/mounting brackets includes: freestanding base, C-clamp mount, Slatwall mount, integrated rail-mount, panel-mount, through-mount, or theft deterrent through-mount.

Wiring & Cabling

Light is standard with single touch on/off and touch control dimming.

User adjustable touch and hold dimming pad includes continuous dimming range of 100% to 15%.

Power supply uses a modular cord with standard two prong plug, integrated 3' silver cord, and an 18-watt, 9' black cord.

When specified with Height-Adjustable Series Benching or power and data tray, flexible receptacles are recommended.

LED Intro Task Lights

LED intro task lights provides ease of user adjustments to direct light where needed, plus a three-step dimming feature. LED light source for energy efficiency.
▶ Specifying, page 95

Capacitive touch switch is located on the back of the light source with dimming control. The first touch is 10% illumination, second touch is 50%, third touch is 100%, and the fourth touch turns off.

Light source knuckle and base knuckle provide articulation points for ease of adjustments to where the light is needed.

Freestanding base is ideal for placing on desk or table tops. Painted to match the entire light fixture and weighted to prevent tipping.

Product Details

LED intro single-arm lights are for use with worksurfaces 58"W or smaller.

LED intro double-arm lights are for use with worksurfaces 60"W or larger.

LED light performance with 3000K color temperature and a 90 color rendering index rating.

Adjustability at the light source and base directs light where needed.

Examples

- Light head swivels 350° (side to side)

- Light head pivots up and down 180° (up/down)

Capacitive touch on/off switch and dimming feature comes standard with three levels: 10%, 50%, and 100%.

Color temperature of LED is 3000K.

Color rendering index (CRI) is 90.

Connections

 Freestanding base

Wiring & Cabling

Light comes standard with single touch on /10%–50%–100% / off.

Power supply uses a modular cord with standard two prong plug, cord length 75".

LED Shelf Lights

► Specifying, page 100

Actual Dimensions

Depth 2⁵/₈"

Width 18¹/₈"

Height 1/2"

- Power Supply 18 Watt Cord
 - 9' with two prong driver plug
- Power Supply 65 Watt Cord Set (11')
 - Line voltage cord: 6'
 - Low voltage cord: 5'

Product Details

Shelf light includes the lamp and power supply with cord set. Daisy chain primary light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

An 18 watt power supply is used on the LED standard light; it is 9' long with a two prong driver plug.
Tip: Energy saving mini-LEDs greatly reduce power use.

LED Shelf Light Power Supply Dimensions

Tip: Cord length is 9'.

Power supply for LED daisy chain starter light uses an 11' 65 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

LED Shelf Light Power Supply Dimensions

Tip: Applies to daisy chained.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnetic mounting allows shelf light to be installed without tools under most metal overhead storage bins and shelves. This mounting allows the light to be mounted to most competitive steel bins and shelves.

Optional fastener kit allows shelf light to be mounted to wood shelves.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Wiring & Cabling

Shelf light includes the lamp and power supply with cord set. Daisy chain starter light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

Power supply for LED daisy chain starter light uses a 65 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light. An 18 watt power supply is used on the LED standard light, it is 9' long with a two prong driver plug.

Tip: Daisy chain starter light comes with a 65 watt power supply to support up to three lights. Daisy chain secondary lights do not come with a power supply, but instead come with a daisy chain cord set.

LED Linear Shelf Lights

A properly diffused light source under the linear head provides a softly blended light pattern that reduces eye strain.
 ▶ Specifying, page 106

Optional occupancy sensor turns off after 30 minutes of no activity and will turn back on upon return.

Single touch on/off pad plus touch and hold dimming for easy individual user control.

Continuous dimming from 100% to 15% with last state memory.

Cord exits from either end of the light. When needed, allow 1³/₄" cord bend clearance. With optional occupancy sensor, allow additional 4³/₄" clearance from the light fixture.

Magnetic mounts and wood mount bracket hardware, both come standard with both LED light and optional occupancy sensor.

Light widths available in 17", 31", 44", and 58".

Product Details

LED linear stand alone and daisy chain starter lights include the lamp, power supply, and both magnetic mounts, and wood bracket hardware with adhesive cord managers.

LED linear daisy chain lights include the lamp, daisy chain cords, and both magnetic mounts, and wood mount bracket hardware with adhesive cord managers.

Optional occupancy sensor is a separate component that connects to the light fixture and activates in 30 minutes when no movement is detected to conserve energy. It will also turn back on upon return.

Average rated lamp life of LED linear shelf lights is 50,000 hours.

Color temperature of LEDs is 3500K.

Color rendering index of LEDs is 92.

Automatic turn off after 10 hours (+/- 15 mins.); standard with both models.

Connections

Lights mount recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnet mounts allow shelf lights to be installed without tools under most metal overhead storage bins or shelves.

Wood mount brackets allow shelf lights to be mounted to wood shelves.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Chart for Daisy Chaining Fixtures

Standard Output Linear Shelf Light											
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light										
	17"	6	4	3	2	2	1	1	-	-	-
31"	-	1	-	2	-	2	1	3	1	1	-
44"	-	-	1	-	-	-	1	-	1	-	2
58"	-	-	-	-	1	-	-	-	-	1	-

High Output Linear Shelf Light				
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light			
	17"	4	2	1
31"	-	1	-	2
44"	-	-	1	-

- A 65 watt power supply is required for daisy chaining.
- Total system wattage of all fixtures together cannot meet or exceed 65 watts, see chart.
- Cannot daisy chain standard output and high output together.
- Cannot daisy chain 58" high output fixtures.
- Occupancy sensor must be positioned between the power supply and the first starter fixture.
- Only need one sensor when daisy chaining.

Tip: Each column is the maximum number of fixtures that can be daisy chained together.

Occupancy Sensor

- Turns off after 30 minutes of no activity and will turn back on upon return
- 360° lens view
- 90° outward detection angle
- 30" diameter coverage if mounted 15" above work surface
- 36" diameter coverage if mounted 18" above work surface
- Connects to fixture with one end-to-end connector. 8" or 30" jumper cords

LED Linear Shelf Lights

Tip: The power supply for the 17" stand alone only uses a straight plug with a 9' 18 watt 24 volt wall transformer. The power supply for the 31", 44", 58", or 17" starter light uses a 11' 65 watt compact in-line brick with straight plug.

Tip: Cord exists on ends of light fixture. Allow 1³/₄" cord bend radius. With optional occupancy sensor, add 4³/₄".

Shelf Lights

Standard

► Specifying, page 114

9' cord with grounded plug is factory installed. Length is maximum allowed by U.S. National Electrical Code. Cord with circuit breaker is available to meet the requirements of the Chicago code.

Daisy chain cords have modular connectors to link Standard shelf lights together.

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with three-prong plug or daisy-chain cords.

Plug configuration allows two Standard shelf lights to engage adjacent outlets in one receptacle.

Energy-saving T8 lamps have triphosphor coating for balanced color and pleasing light.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Universal bracket allows shelf light to be installed without tools under most metal overhead storage bins and shelves.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Daisy chain starter cord must be ordered separately when used with Standard shelf lights in a daisy chain application.

Actual Dimensions

Standard

Depth	9 ¹ / ₄ " (235 mm)
Width	24 ⁵ / ₈ ", 36 ⁵ / ₈ ", or 48 ⁵ / ₈ " (625 mm, 930 mm, or 1235 mm)
Height	1 ³ / ₄ " (44 mm)

Width	Lamp width	Lamp wattage	Replacement lamps
24 ⁵ / ₈ "	24"	17 watts	F17T8-TL735
36 ⁵ / ₈ "	36"	25 watts	F25T8-TL735
48 ⁵ / ₈ "	48"	32 watts	F32T8-TL735

Keyhole slots in housing of fixture allow shelf light to be mounted beneath wood or laminate overhead storage bins and shelves using screws provided. Keyhole slots are also used to mount lights to overhead storage bins and shelves manufactured prior to August 1991.

Standard shelf competitive mounting package provides attachment hardware to mount Steelcase shelf lights on all major competitive furniture lines. Package includes screws and installation instructions.

Shelf light can be mounted anywhere from side to side beneath overhead storage bin or shelf. The cord length is the only limitation.

Wiring & Cabling

Power drawn is approximately 1/2 amp.

Daisy chaining permits interconnecting up to six Standard shelf lights from a single power outlet.
▶ Page 112

Starter cord for Standard powers first light in a daisy chain and allows you to convert any daisy chain light for independent operation.

Electronic high-power factor ballast that is roughly 45% more efficient than a normal-power-factor ballast is available on Standard.

Shelf Lights

Bottomline

► Specifying, page 116

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with a three-prong plug or a Chicago plug.

Plug configuration allows two task lights to engage adjacent outlets in one receptacle.

Optics: **Bottomline** includes a batwing lens with mylar reflector that provides low glare and broad distribution of light.

Connections

Shelf light mounts recessed or flush depending on the design of the overhead storage bin or shelf. Standard with universal spring brackets for recessed mount or screw-in for flush mount.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Width	Lamp width	Lamp wattage	Replacement lamps
24"	23.3"	14 watts	F14T5-835
36"	35.1"	21 watts	F21T5-835
48"	46.8"	28 watts	F28T5-835

Lamp life of a fluorescent lamp that turns on and off once a day will last longer than a lamp that turns on and off many times a day. Environmental effects can shorten the life of a lamp, such as: moisture or higher humidity, higher or colder than normal temperatures, excessive vibration, and power surges.

Tip: If the light begins to flicker, or shuts down immediately, the sensor is indicating the lamp is at the end of its life and needs to be replaced.

Wiring & Cabling

Power drawn is approximately 1/2 amp.

Daisy chaining is only available on Bottomline shelf lights.

Daisy chaining on Bottomline permits interconnecting up to six shelf lights from a single power outlet.

► Page 112

Daisy chaining on Bottomline allows for independent operation of lights.

Electronic ballast is more energy efficient than T8 electronic ballasts.

Daisy Chaining

For Standard and Bottomline Lights

Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

For Standard shelf lights, starter cord is required with daisy chain cords to bring power to the first shelf light in a daisy chain so there's no need to designate where each fixture will be used within the chain.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Overhead cabinets and shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Tip: When using upmount brackets with overhead storage and daisy chaining lights, use the open design upmount bracket for better cord management.

Power will not be interrupted in a chain even if one of the shelf lights is turned off or its lamp has burned out. That's because the path of power through the chain doesn't pass through the lamps or switches.

For Bottomline lights, starter light is required with daisy chain lights to bring power to the first light in the daisy chain.

Standard Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.
 ▶ See page 112 for more information.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: Remember to order a daisy chain starter cord separately.

Basics of Ergonomic Computer Support Tools

Proper ergonomic worktools and seating can help workers perform more efficiently and avoid muscle and eye strain.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Lower back fits into curved lumbar support.

Tension is adjusted so backrest tilts easily, yet provides smooth, even support.

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces that are used for writing, paperwork, and other tasks.

Screen is 20" to 30" from the eyes.

Top of monitor should be at eye level.

Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

When keying or mousing, forearms are parallel to the floor.

Keyboard is at elbow height.

Thighs are parallel to the floor.

Feet are flat on the floor or on a foot rest.

Laptop Support

Frequent or extended use in cramped posture positions increase risk of damage to the spine, neck, shoulders, and legs.

To reduce eyestrain and unhealthy postures when using laptops, an external full-size monitor with external keyboard and mouse is recommended.

Keep frequently viewed objects, such as source documents, at or below the horizontal line of sight. Arrange display screen and documents to be equidistant from your eyes. See Freestanding In-Line Document Support, page 133.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a foot rest.

► See page 134

Basics of Monitor Arm Positioning

Monitor arms offer varying levels of adjustability to meet the needs of many types of users. Adjustable arms should be adjusted for best positioning as such.

Top of monitor should be 0° to 20° below horizontal line of sight.

Keying height should have minimal bend at the wrist.

Avoid locking knees to help maintain good posture.

Feet should be flat on the floor or use foot rest or foot pad.

Height

Top of monitor.

Top of the monitor should be positioned at or slightly below eye level.

Distance

Monitor should be 20" to 30" from the eyes or approximately an arm's length away.

Alignment

Proper alignment is the key to preventing strain. Computer monitor, keyboard, and mouse should be centered to allow user to see the display without looking downward or to either side. Mouse should be accessible without twisting or reaching. Reference documents should never be flat on desk and should be at the same height as or aligned with the monitor or above keyboard and below the monitor.

Dual Monitor Alignment

If using two monitors, position the monitor used more often closer. If equally used, center monitors directly in front and angle them in a slight inward "V" shape.

Monitor arms are not intended for use in applications where the monitor extends beyond the perimeter of the worksurface.

Keyboard supports are comprised of a mechanism and track, a keyboard platform that includes a variety of mouse surfaces and palm rests options. The components can be ordered individually. Below are illustrations to guide you in your selection.

Mouse surfaces are options for all platforms.

Mechanisms are orderable individually.
▶ See *Mechanisms and Tracks*, page 130.

Palm rests can be ordered separately.
▶ See *Keyboard Platforms and Palm Rests*, page 131.

Product Details

Mechanism Key Feature Graphics

Swivel side to side

Positive to negative tilt

Above track to below

Track length

Standard track lengths are 11", 17", 20", and 23". Shorter tracks may effect ability to stow platform under worksurface.

Features			
Mechanisms	Rear Swivel	Tilt	Minimum Worksurface Depth
5" Lift and Lock	360°	+/-15°	23"

Tip: All mechanisms ship with positive tilt locked out.

How to Specify a Keyboard Assembly

1. Determine workstation configuration—straight, 90°, radius, or diagonal.
2. Measure the depth of clearance on the underside of worksurface or see track specifying guide below.
3. Select platform depending on needs of the keyboard size and mouse location preference.

Platforms											
Features	Applications	Required Knee Space Clearance	Palm Rest	Platform			Separate Mouse Surface		Microsoft Natural	Cord Management	Document Slot (20 Sheets)
				D	W	H	D	W			
Jules	Straight, 17" Diagonal, and 12" Radius 	20"W	Without or with standard foam	12"	18 ³ / ₄ "	2 ¹ / ₂ "	8 ¹ / ₂ "	8 ¹ / ₂ "	Order without palm rest	●	N.A.

Tip: For 12" radius corner applications, specify Jules, FrameOne, or 19" platform with 7" Lift and Lock mechanism.

Tip: Minimum worksurface size for keyboard platforms on straight height-adjustable desks is 29"D x 46"W.

Tip: Keyboard platforms are not permitted on two-leg height-adjustable desks with casters or height saver feet.

Mechanism and Tracks and Keyboard Platforms

Keyboard supports

are comprised of a mechanism and track, a keyboard platform that includes a variety of mouse surface and palm rest options. The components can be ordered individually. Below are illustrations to guide you in your selection.

Mechanisms and tracks are orderable individually.

Keyboard platforms are available in a variety of options.

▶ Pages 131

Palm rest are options on all platforms or can be ordered separately.

Mouse surfaces are options for all platforms.

Jules Keyboard Platform

► See Specifying, page 131.

Product Details

Jules keyboard platforms are available with standard foam palm rest. Palm rest fixed and is 2"D.
Tip: When using MS Natural Keyboard, specify platform without palm rest.

Jules keyboard platforms are standard with mouse surface for either left- or right-hand use and is ideal for multi-user workstation. Jules mousing surface stores beneath platform when not in use.

Jules platforms include integrated cable routing clips for cord management.

Application Topics

Jules platforms require 20"W of kneespace clearance below worksurface for storage.

12" radius corner applications require an extended mechanism when specifying Jules platform.

Surface Materials

Jules keyboard platforms

- 6288 Charcoal

Actual Dimensions

Depth	12"
Width	19"
Height	2½"

Tip: Jules keyboard platform is 19" wide without the ambidextrous, sliding mouse surface.

Mechanisms and Tracks

5" Lift and Lock Mechanism Only

Tip: Mechanism requires a 23"L track to completely store platform under the worksurface.

Standard Includes	Required to Specify

Technology Worktools

Adjustable Foot Rest

► Specifying, page 134

Product Details

Foot rest features a curved, non-skid surface to provide optimal seat posture and blood circulation.

Foot rest can be set in four height positions from 2" to 6" off floor.

Surface Materials

Foot rest
• 6000 Black

Actual Dimensions

Depth 12"

Width 18"

Height 2"–6"

Weight 8 lb

CPU Cradle for Mini Processors

► Specifying, page 134

Product Details

CPU cradle mounts vertically below worksurface and swivels 360°.

Protective pad is standard with CPU cradle.

CPU cradle supports a maximum weight of 15 lb.

CPU cradle must be mounted inboard of leg on standard Ology worksurfaces.

CPU cradles can be mounted inboard or outboard of leg with 9" overhang on 23"D, 29"D, and 35"D worksurfaces.

CPU cradle may be used with FrameOne applications.

CPU cradle slides on track to allow for access to cables.

Surface Materials

Width 2¹/₈"–4³/₄"

Height 11"–14⁹/₁₀"

Weight 15 lb

Vertical CPU Cradles

► Specifying, page 135

Product Details

Vertical CPU cradles are available locking or non-locking.

Vertical locking CPU cradle is standard with soft touch knob with key locking system. All locks are keyed alike.

Vertical CPU cradle mounts vertically below worksurface and swivels 360°.

Vertical CPU cradle requires 18"D clearance below worksurface.

Vertical CPU cradle can be fixed- or wall-mounted.

Vertical CPU cradle supports a maximum weight of 85 lb.

Vertical CPU cradle slides on track to allow for access to cables.

CPU cradles must mount outboard of leg with 9" overhang on 23"D and 29"D worksurfaces.

Surface Materials

Vertical CPU cradle
• 0835 Black

Vertical Processor Fixed Sling For Use with Ology Desk and FrameOne

► Specifying, page 136

Product Details

Vertical processor sling stores CPUs vertically and is mounted in a fixed position below worksurface.

Adjustable straps support CPUs with perimeters up to 53".

Vertical processor sling requires 12"D clearance below worksurface.

Vertical processor sling supports a maximum weight of 50 lb.

CPU cradles must mount outboard of leg with 9" overhang on 23"D and 29"D worksurfaces.

Surface Materials

Vertical processor sling

- 0835 Black

Actual Dimensions

Depth	10¾"
Width	3¾"
Height	6"
Weight	5 lb

CF Technology Cradle

► Specifying, page 136

Product Details

Technology cradle stores CPU thin clients and docking stations and is mounted in a fixed position to the back of a monitor, on a CF modular pole, underneath a worksurface, or on a wall.

Technology cradle comes standard with an adjustable strap to securely hold the desired device in place.

Technology cradle maximum load capacity

is 6 lb when mounted to a VESA plate and 11 lb when attached to a CF modular pole, mounted underneath a worksurface, or wall.

Technology cradle is compatible with all 75 mm/100 mm VESA plates.

Surface Materials

Technology cradle

Flat panel monitor arms are for use in C-clamp, through-mount, and FrameOne. CF flat panel monitor arms are also for use with Slatwall and SlatRail applications. ▶ See *individual series for application limitations*.

To select appropriate flat panel monitor arm, determine mounting application, number of monitors to be supported, weight of monitors to be supported, and whether a dynamic or static arm movement is preferred.

Tip: All Steelcase monitor arms utilize the VESA hole pattern to connect monitor to arm. Apple monitors do not connect without optional adapter plate. Plate must be acquired through Apple.

Tip: Attaching monitor arms to freestanding tables with casters or glides is not recommended due to tipping hazards.

Supporting Single, Dual, and Triple Monitor Arm Applications on 2 Leg Height-Adjustable Desks

Supporting Single, Dual, and Triple Monitor Arm Applications on 2 Leg Height-Adjustable Desks

Rules:

- Single monitor arm/monitor requires a minimum worksurface size of 23/24"D x 46"W
- Dual and triple monitor arms/monitors require a minimum worksurface size of 29/30"D x 58"W
- Monitor arms are not permitted on 2 leg desks with casters

Monitor Arm Assemblies	Migration SE T-Leg Only	Migration SE C-Leg Only	Ology	Flex
Single Dynamic/Single Static Monitor Arm	Approved	Approved	Approved	Approved
Dual Dynamic/Dual Static Monitor Arm	Approved	Approved	Approved	Approved
Triple Dynamic/Triple Static Monitor Arm	Approved	Static only	Approved	Static only

Tip: Attached monitor arms on freestanding tables must not extend beyond the perimeter of the desk (this includes the front, sides, and back edge of the worksurface).

Tip: Ology desk or bench with integrated rail, specify CF monitor arm with C-clamp mount. Monitor arm does not mount to integrated rail.

Supporting Tiered Monitor Arm Applications on 2 Leg Height-Adjustable Desks

Rules:

- Minimum worksurface size of 29/30"D x 58"W required for multiple monitors
- Six monitors maximum permitted on 2 leg desk
- 60 lbs total maximum monitor weight per 2 leg desk
- Monitor arm applications are not permitted on 2 legs desks with casters
- When calculating height-adjustable desk lifting capacity, subtract the weight of the worksurface, understructure, options, and add-on products (e.g. flat panel monitor arm, monitors, and CPUs)

Monitor Arm Assemblies	Migration SE C-Leg Only	Migration SE T-Leg Only	Ology	Flex
One over One Static Monitor Arm	Not Approved	Approved	Approved	Not Approved
Two over Two Static/Wide Static Monitor Arm	Not Approved	Approved	Approved	Not Approved
Three over Three Static/Wide Static Monitor Arm	Not Approved	Approved	Approved	Not Approved

Tip: Ology desk or bench with integrated rail, specify CF monitor arm with C-clamp mount. Monitor arm does not mount to integrated rail.

CF Intro Single and Dual

- CF intro single and dual arm brackets available in C-clamp and through-mount bracket options.
- CF intro single and dual arms can support 2.2–20 lbs per arm.

CF Intro Single (CFINTRO)

CF Intro Dual (CFINTROSLIDE)

CF Monitor Arm Collection

VESA plates are standard with 100x100 VESA plate hole pattern.

All tilt heads are standard with quick release.

Cable management is included with all CF monitor arm supports.

Tip: All Steelcase monitor arms utilize the VESA hole pattern to connect monitors to arm. Apple monitors do not connect without optional adapter plate. Plate must be acquired through Apple.

All CF monitor arms allow for monitors to rotate portrait to landscape orientation.

Mounting brackets and tilt heads can be optioned in assembly or ordered separately.

When using curved screens greater than 32" use HD tilt head. Heavy-duty tilt heads can be optioned in on CF plus, CF Plus heavy-duty, and CF max. They can also be ordered separately using **CFHDQRTH2**. Heavy-duty tilt heads not compatible with CF Intro.

Monitor arm assemblies with more than two monitors are not allowed on non-tethered desks.

Surface Materials

CF monitor arms and components available in three finishes:

- 0835 Black
- 7018 Pewter
- ZW01 Pearl Snow

CF Plus and CF Plus Heavy Duty

- Dimensions for **CFPLUS** and **CFPLUSHD** are the same. Please refer to weight ranges to determine which arm is the correct fit.
- **CFPLUS** supports monitors ranging from 7–17 lbs.
- **CFPLUSHD** supports monitors ranging from 13–28 lbs.

CF Plus and CF Plus HD Single Arm

CF Plus and CF Plus HD Dual Arm on Pole

- CF Plus and CF Plus HD have heavy-duty quick release tilt head and slider bar quick release tilt head options available.
- CF Plus and CF Plus HD arms and components are available to allow various configurations to meet user needs.
- Measurements for CF Plus and CF Plus HD are identical, please reference weight range information to identify which monitor arm to use.

- CF Plus cannot be mounted in front of stanchion mounted Slatwall when using C-clamp bracket. For this application, a through-mount bracket is recommended.
Tip: Double-arm pole is not recommended for use with Slatwall mounting bracket.
- When planning with stand-alone, single-sided FrameOne base units, the worksurface must be 66"W or greater and utilize no more than one single CF monitor arm.
- **CFP28** is not recommended for use with single-sided FrameOne or any freestanding applications.

- When mounting CF Plus arms to Slatwall, bracket must be mounted no further than 10" away from Slatwall mounting bracket. If application does not allow bracket to be installed within the 10" range, an additional bracket or brackets should be installed within 10" of desired arm location.
Tip: Slatwall skin brace package is required when mounting a flat panel monitor arm on an Answer slatwall skin.
- Single monitor arm can be mounted on 12"H slatwall skin that has an installed brace package.
- Two single or one dual monitor arm can be mounted on 18"H or 24"H Answer slatwall skin that has an installed brace package. For optimal stability, the monitor arm should be mounted as shown above.

CF Monitor Arm Collection

VESA plates are standard with 100x100 VESA plate hole pattern.

All tilt heads are standard with quick release.

Cable management is included with all CF monitor arm supports.
Tip: All Steelcase monitor arms utilize the VESA hole pattern to connect monitors to arm. Apple monitors do not connect without optional adapter plate. Plate must be acquired through Apple.

All CF monitor arms allow for monitors to rotate portrait to landscape orientation.

Mounting brackets and tilt heads can be optioned in assembly or ordered separately.

When using curved screens greater than 32" use HD tilt head. Heavy-duty tilt heads can be optioned in on CF plus, CF Plus heavy-duty, and CF max. They can also be ordered separately using **CFHDQRTH2**. Heavy-duty tilt heads not compatible with CF Intro.

Monitor arm assemblies with more than two monitors are not allowed on non-tethered desks.

CF Plus

Tip: When pole is specified, select C-clamp, through mount, Bivi pole mount, or FrameOne pole mount brackets.

Tip: When using slider bar tilt heads, reduce monitor weight capacity by 2 lb. per monitor supported by the slider bar tilt head.

Tip: In triple assemblies, the center tilt head will always be a standard or heavy-duty tilt head.

Tip: CF plus triple supports 7–17 lb. per monitor.

Tip: When using curved screens greater than 32", please specify the heavy-duty tilt head option.

Tip: For dual dynamic monitor arm assembly with laptop holder, a slow rise cylinder arm will be designated for laptop holder use. One arm will contain range of 7–17 lb. and the slow rise cylinder arm will support 2–12 lb.

Tip: Laptop holder supports laptops up to 11 lb.

Tip: If monitor requires 75x75 mm VESA hole pattern, specify heavy-duty tilt head or CF heavy-duty slider bar tilt head.

Tip: **CFPLUS** and **CFPLUSHD** cannot be used with maximum-duty arm bracket **CFSPSGLBASE**.

Tip: Upcharge for tilt head options represents pricing for one unit. If you select dual it will be double the list upcharge shown.

Tip: Ology desk or bench with integrated rail, specify CF monitor arm with C-clamp mount.

Tip: Bivi mounting bracket requires additional Bivi brace (**TS8TMBRAC**).

Divisio Side Screen

Divisio side screen is magnetic and provides a territorial boundary between users. The user-movable functionality allows users to decide when and where they need additional privacy. The screens may be used on any $\frac{3}{4}$ "- to $1\frac{1}{2}$ "-thick worksurface.

► Specifying, page 177

Product Details

Divisio side screen can be made more permanent by adding two screws through the clamp. For worksurfaces 1" thick or less; FrameOne, Ology, Migration, a #10 x $\frac{3}{4}$ " countersunk wood screw is recommended. For worksurfaces over 1", a #10 x $\frac{7}{8}$ " countersunk wood screw is recommended.

Actual Dimensions

Depth	29 $\frac{1}{2}$ " (total), 21 $\frac{1}{2}$ " (sits on worksurface)
Width	1 $\frac{1}{4}$ "
Height	14 $\frac{1}{4}$ " (total), 11 $\frac{5}{8}$ " (above worksurface)

Divisio Side Screen

Divisio
Side Screen

Tip: The Divisio side screen can be used on any 3/4"- to 1 1/2"-thick worksurface.

Tip: The Divisio side screen has an overhang of 8". This is important when planning for returns or storage.

Tip: The Divisio side screen weighs approximately 14 1/2 lb. Take this into consideration when planning for use on height-adjustable worksurfaces.

Tip: The Divisio side screen is intended for use on the front of a worksurface.

Tip: The Divisio side screen does not work on knife edge profiles.

Fixed Personal/Modesty Screens

Personal / modesty screens are tackable and provide variable privacy when and where it is needed. The screens can be used on the beam, on 1½-High low storage with a connect zone, on the back of the desk for visual privacy, or below the desk for modesty. 19½"H and 24"H are not intended for use in modesty position when used with a height-adjustable desk. ▶ Specifying, page 180

Fixed personal/modesty screens are available in three heights, 12", 19½", and 24", and four widths to accommodate varying levels of privacy. Height is measured from the top of the mounting surface to the top of the screen.

Brackets are attached to the screens.

Actual Dimensions

Width	30", 36", 42", or 48"
Height	11", 18½", or 23"
Overall height	12", 19½", or 24"
Thickness	¾"

Product Details

Fixed personal/modesty screens can be mounted on the desk rail. In privacy applications on a 28 1/2"H desk, the 12"H screen has an overall height of 40 1/2" from the floor, a 19 1/2"H screen has an overall height of 48" from the floor, and a 24"H screen has an overall height of 52 1/2" from the floor.

Gap is 1" between personal/modesty screen and mounting surface.

Connections

Each end of the top desk rail has a 5 1/4" mounting free zone which prohibits the attachment of personal screens.

When screens are placed directly adjacent to each other, a small aligner can be placed in between the screens at the top to connect them for planar alignment. Aligners are ordered separately in packages of 10.

Surface Materials

Infill

- Fabric

Brackets

- 4799 Platinum paint

front

back

Fabric without pattern is recommended when using a COM fabric to provide a consistent visual. Fabric with patterns could result in the above visual.

Application Topics

Screen width needs to allow 4" clearance from front edge of desk to allow desk surface to slide forward.

Power and Cable Management

High-Capacity Cable Riser

► Specifying, page 199

Product Details

High-capacity cable riser provides vertical cable management for multiple, heavy gauge cords; recommended for height-adjustable workspaces to a magnetic metal surface connection.

Easy cord installation and disassembly with a robust hold to keep cords in place.

Each link lays flat against the other to form a concealed front to hide cords and provide a clean aesthetic.

Links will move uniformly together keeping cables aligned and well managed.

Universal fit for most applications.

Application

Recommended for height-adjustable workspaces.

Attaches to the underside of the top along the back edge to route cords and cables from top to power source.

Tip: Do not use with standard integrated storage or within enclosed areas that would restrict the movement of the cable riser's links.

Top bracket can pivot to 90 degrees and attaches directly underneath the worksurface with screws.

Bottom bracket attaches to magnetic metal surfaces near a power receptacle via a rubber-coated magnet to avoid scratching.

Ideal for use with height-adjustable desks paired with Answer fence, beam, panel system, Bivi Slim Leg application, and benching applications.

Top bracket footprint needed: 2¹/₂"D by 2"W.

Top thickness – 1" plus with hardware included. If installing on less than 1" thick surface, shorter screw lengths must be obtained.
Tip: For Bivi with a 1/2" thick surface, a shorter screw length is needed.

Screw length – 7/8"

Links can be rotated 180° degrees for customization.

Minimum bend radius is 1³/₁₆".

Surface Materials

Two choices for blending in with the furniture's palette aesthetic.

► Specifying, page 200

Powerstrip Intro

► Specifying, page 201
 Tip: Desktop modules without under worksurface utility power are tamper resistant.

Tip: Under worksurface utility power outlets are not tamper resistant.

Product Details

Powerstrip intro offers desktop C-clamped powerstrips with combinations of power outlets, USB A+C 20W, and optional under worksurface utility power 4 or 7 power outlets.

Desktop power configuration options and specifications include:

- Two power-A
- One power and USB A+C 20W
- Two power and one USB-A+C 20W
- Power outlet is 15A, 120V, 60Hz
- Tamper resistant power outlets on desktop module only. Optional under worksurface utility power outlets are not tamper resistant.

Meets spill test criteria.

Powerstrips with 20 watt intelligent USB A+C:

- If only USB-C in use: delivers what the device needs up to 20 watts
- If only USB-A in use, up to 10 watts
- If both USB A+C in use, USB-A delivers up to 10 watts and 10 watts to USB-C. If USB-A device needs less than 10W, the remainder up to 20 watts goes to the USB-C device

C-clamp is designed to accommodate worksurfaces up to 1½" thick.

USB A+C 20W

Powerstrip intro USB ports are recommended for charging: cell phones, tablets, headphones, wearable fitness trackers, or other small electronic devices. Not recommended for devices needing higher output, more than 20-watts, like laptops. See Powerstrip Plus for higher output USB options.

Cable management clips, 2-pack, comes standard with each powerstrip. Mounts under the worksurface to manage cords.

Tip: Cord clip screw length for minimum worksurface thickness of ¾".

Tip: For Bivi with a ½" thick surface, a shorter screw length is needed.

Powerstrip intro without optional under worksurface utility power includes a 9-foot standard smooth cord with a diameter of ¾" or 163" curly cord.

Powerstrip intro includes a standard straight 3-prong plug. An overcurrent protection (OCP) 90° plug is also an option. Check with your local authorities having jurisdiction to see if overcurrent protection is required.
 Tip: When using thread monument, specify standard straight plug head.

Optional Under Worksurface Utility Power

The bottom of each utility powerstrip block has slots. The slots allow the block to slide onto raised bars in the universal cable management trays, sold separately. These help keep the powerstrip in place when the tray is opened or closed.

Optional under worksurface utility power blocks do not ship with independent mounting hardware. They are designed to mount into the universal cable management kit without additional hardware. Kit sold separately.

Universal cable management tray - small tray, **DSTRAYS**M, holds four outlets and large tray, **DSTRAY**LG, holds seven outlets under worksurface utility power.

Overcurrent protection, OCP, via a circuit breaker prevents one powerstrip intro assembly from drawing more than 15 amps of power.

Overcurrent protection is included as standard with powerstrip intro configurations with more than three outlets and is an option on configurations with less than four outlets. Check with your local authorities having jurisdiction to see if overcurrent protection is required for assemblies with less than four outlets.

Overcurrent protection (OCP) includes a circuit breaker rated for 15 amps.

Powerstrip intro with optional under worksurface utility power comes standard with OCP inline box and optional 6-foot or 8-foot standard smooth power cord with a diameter of ¾" or 163" curly cord. Choice of standard straight or 90° NEMA 5-15 3-prong plug.

NRTL listed industry safety standard UL962A furniture power distribution unit.

Optional 163" curly cord provides extra power cord length to reposition desk without unplugging.

Shown repositioned desk at 90°.

Shown repositioned desk at 180°.

Product Details

Desktop power offers multiple power, USB, and data options; and can be specified with a C-clamp, rail mount, front edge mount, or flush mount. Meets spill test criteria.

C-clamp is designed to accommodate worksurfaces between 1/2" and 13/8" thick. Also available with rail mount, front edge mount, or flush mount.

Flush mount and pop up powerstrips require the top's surface to be cut in the field. See assembly directions for details.

Front edge mount bracket attaches under the top's surface with four #10 x 7/16" screws.

Under worksurface optional utility power blocks do not ship with independent mounting hardware. They are designed to mount into the Universal cable management kit without additional hardware. Kit sold separately.

Cable management kit comes standard with each powerstrip. Mounts under the worksurface to manage cords. *Tip: Cord clip screw length for minimum worksurface thickness of 3/4".*

Tip: For Bivi with a 1/2" thick surface, a shorter screw length is needed.

The bottom of each utility powerstrip block has slots. The slots allow the block to slide onto raised bars in the universal cable management kit. These help keep the powerstrip in place when the tray is opened or closed. Universal cable management kit sold separately.

Powerstrip Plus's USB A+C 20W recommended for charging: cell phones, tablets, headphones, wearable fitness trackers, or other small electronic devices.

USB-C 45W recommended for all of the above and compact laptops.

Dual USB-C 45W, if one USB-C device is charging then full 45W is utilized. If two USB-C devices are charging, then 45W is split between each device.

USB-C 100W recommended for all of the above and medium to large size laptops. *Tip: For USB-C 100W port, use USB-C charging cable rated for 100W use for full charging benefits. Charging cables not included.*

Overcurrent protection via a circuit breaker prevents one powerstrip plus assembly from drawing more than 15 amps of power.

Overcurrent protection is included as standard with powerstrip plus configurations with more than three outlets and is an option on configurations with less than four outlets. Check with your local authorities having jurisdiction to see if overcurrent protection is required for assemblies with less than four outlets.

Power plug options:

- Standard NEMA 5-15 3 prong
- 90° NEMA 5-15 3 prong
- Thread low profile plug

NRTL listed industry safety standard UL962A furniture power distribution unit.

Optional 163" curly cord provides extra power cord length to reposition desk without unplugging.

Optional Under Worksurface Utility Power Dimensions

Under Worksurface Utility Power

► Specifying, page 206

Product Details

Under worksurface utility power provides multiple power outlets for plugging in a height adjustable desk, computer, and desktop necessities with a one cord out solution.

Cable management kit comes standard and mounts under the worksurface to manage cords.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

Tip: For Bivi with a 1/2" thick surface, a shorter screw length is needed.

Under worksurface utility power does not ship with independent mounting hardware. The blocks are designed to mount into the universal cable management kit without additional hardware. Kit sold separately.

The bottom of each utility powerstrip block has slots. The slots allow the block to slide onto raised bars in the universal cable management kit trays. This design helps keep the powerstrip in place when the tray is opened or closed. Universal cable management kit's smart straps, if selected, are used to hold the power cord in place. ► See page 207 for universal cable management kit understanding content.

Overcurrent protection is required by UL on these products.

NRTL Listed: Utility power block outlets are hardwired together in a complete, NRTL listed assembly. *Tip: Nationally recognized testing laboratory (NRTL) listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.*

NRTL listed industry safety standard UL962A furniture power distribution unit.

- Power plug options:**
- Standard NEMA 5-15 3 prong
 - 90° NEMA 5-15 3 prong
 - Thread low profile plug

Optional 163" curly cord provides extra power cord length to reposition desk without unplugging.

Shown repositioned desk at 90°.

Shown repositioned desk at 180°.

Four outlets total – One utility block, with three outlets each and one floating female outlet

Seven outlets total – Two utility block, with three outlets each and one floating female outlet

Nine outlets total – Three utility block, with three outlets each.

Floating female outlet for oversized plugs or power supplies.

Optional standard NEMA 3-prong plug, 90° or thread low profile plug.

Universal Cable Management Kits

► Specifying, page 207

Product Details

Universal cable management kit provides easy management and access to cords, cables, and power blocks under a workstation.

Optional smart straps allow for easy management of cables and cords in the cable management tray. Straps are 5³/₄" long.

Cable management tray is designed to fit behind the stretcher bar and under-structure of most Steelcase height-adjustable tables. *Tip: Exceptions are Ology desks with integrated rail or modesty panel.*

Cable management tray provides tool-free and hardware-free mounting of under worksurface utility power.

Cable management tray allows for a 1/8" gap around all four sides between the tray and the worksurface when mounted to allow for cable egress.

The small 15¹/₂" cable management tray is designed to hold one, 4 outlet, utility powerstrip.

The tray does not have the capacity to hold more than one utility powerstrip.

Tip: When specifying for Flex personal spaces 120° height-adjustable desks, only small cable management kit will fit.

The large 30" cable management tray holds two utility powerstrips in the raised bars section. There is capacity to add three utility powerstrips, two in the raised bar area and one more in the tray, strapped down.

Consider ordering one small and one large tray when specifying nine under worksurface outlets, for additional storage.

Surface Materials

Cable tray
• 6205 Black

Actual Dimensions

Depth 6⁵/₁₆"
(7⁴/₅" with bracket)

Width 15¹/₂", 30"

Specification Information

• Dimensions			• Style	• U.S. Base
D	W	H	Number	Price
3"	3"	3 1/8"	DSPINTRO	\$222

Tip: Specify 163" curly cord and 90° NEMA plug together and add additional cord management near the plug for a more secure power connection during desk movement.

Tip: Check top surface thickness and cord manager length to determine if shorter screws are needed.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

Powerstrip Plus

C-clamp

Flush mount

Tip: C-clamp is designed to accommodate worksurfaces between 1/2" and 1 3/8" thick.

Tip: Desktop power cord exit extends 1/2" off of the back of the worksurface when C-clamped.

Tip: 20-watt USB-C provides wattage to charge cell phones and tablets. 45-watt and 100-watt USB-C is needed to charge larger devices like compact laptops.

Tip: Cord length between desktop power and under worksurface power is 48" and length between under worksurface blocks is 24".

Tip: Power cord 8' or 163" curly cannot be specified with power plug type thread low profile.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

Tip: Flush mount requires top surface to be field cut. See assembly directions for details.

Tip: Flush mount faceplate mounts flat just above worksurface.

Tip: For USB-C 100W port, use USB-C charging cable rated for 100W use for full charging benefits. Charging cables not included.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

Specification Information

Style Number	U.S. Base Price
DSPower	\$431

Tip: Configurations with outlets under the worksurface are standard with overcurrent protection.

Tip: Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

Tip: Height-adjustable desks can be plugged into powerstrip's utility power for a one cord down solution.

Tip: When using powerstrip plus with nine outlets under worksurface utility power, specify one large and one small universal cable management kit.

Tip: Do not use a vertical cable manager with a curly cord or braided cord.

Tip: Curly power cord cannot be used with power plug type thread.

Tip: Specify 163" curly cord and 90° NEMA plug together and add additional cord management near the plug for a more secure power connection during desk movement.

Pop Up Powerstrip

Tip: Illustration above includes the four outlet under worksurface utility power option.

Tip: Pop up powerstrips require the top's surface to be cut in the field. See assembly directions for further details.

Tip: For USB-C 100W port, use USB-C charging cable rated for 100W use for full charging benefits. Charging cables not included.

Tip: Optional data port adapter, coupler/jack not included. Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

Tip: Power cord 8' curly or 163" curly cannot be specified with power plug type thread.

Tip: Under worksurface power blocks do not ship with independent mounting hardware. They are designed to mount into the universal cable management kit without additional hardware. Kit sold separately.

Tip: When selecting 4799 Platinum Metallic on the pop up powerstrip the faceplate will be merle.

Tip: Do not use a vertical cable manager with a curly cord or braided cord.

Tip: For Bivi with a 1/2" thick top surface, a shorter screw length is needed.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

How to Calculate
Power Needs

When planning a modular power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

If your usage is known in advance:

Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 15 amps per circuit from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 12 amps instead of the regular 15 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.

▶ See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters may require most of the current available on a 15 amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

Steelcase Universal Modular
Power System Overview
—Desking

Power distribution block, Grey, connects power infeed cord and/or jumper cord to powerstrip.

Powerstrips C-clamp

Cord management clips (2 pack) for cord routing

Power infeed cord with 15A overcurrent protection plug, single circuit. Connects to the building's power outlet.

Jumper cord connects to power distribution block, grey when connecting to powerstrip.

Straight cord for linear, same height furniture, lounge, or conference tables.

Curly cord (shown) for height-adjustable desking.

Steelcase Universal Modular Power System Overview— Conference Table

Steelcase Universal Modular Power System Overview— Power infeed entering from center, Splitting power in two directions

Steelcase Universal Modular
Power System Overview
—Power infeed entering
from center, Splitting power
in two directions

Tip: Connectors are tightly fitted together and do not dislodge easily. If used on training tables, it is recommended if the need to reconfigure is less than once a month.

Tip: To help with disconnecting connectors to blocks, see assembly directions for details.

Universal Modular Power System

Universal modular power system provides a NRTL listed system that distributes power from one power receptacle to a group of fixed or height-adjustable desks or a conference table, that gives each individual access to user power for their worktools and devices. Ideal for workspaces with basic energy needs, nomadic workspaces, lower investment space creation, or areas with limited power receptacles.

► Specifying, page 228

Powerstrip Accessory Options

Two power outlets with intelligent USB A+C 20W:

- If only USB-C in use, delivers what the device needs up to 20 watts
- If only USB-A in use, up to 10 watts
- If both USB A+C in use, USB-A delivers up to 10 watts and 10 watts to USB-C. If USB-A device needs less than 10W, the remainder, up to 20 watts, goes to the USB-C device

Desktop power, two power outlets, one USB A+C 20W, C-clamp

- C-clamp bracket
- Straight cord lengths: 24", 36", 48", 60", and curly cord 163"
- Modular power connector

Desktop power, two power outlets, one USB A+C 20W, C-clamp with four outlets under the worksurface utility power

- Straight cord lengths: 24", 36", 48", 60", and curly cord length 163"
- Modular power connector

Desktop power, two power outlets, one USB A+C 20W, edge mount

- Edge mount bracket, for use with conference and collaborative tables
- Straight cord lengths: 24", 36", 48", and 60"
- Modular power connector

Under worksurface utility power four outlets

- Straight cord lengths: 24", 36", 48", 60", and curly cord length 163"

Flush mount powerstrip, flush mounted into the top's surface. Top surface requires field cut-out.

- Two power outlets, One USB A+C 20W.
- Straight cord lengths: 24", 36", 48", 60", and 163" curly cord
- Modular power connector
- Optional tamper resistant

Flush mount powerstrip with four outlets

includes under worksurface utility power. Flush mounted into the top's surface. Top surface requires field cut-out.

- Two power outlets, One USB A+C 20W.
- Straight cord lengths: 24", 36", 48", 60", and 163" curly cord
- Modular power connector
- No tamper resistant with optional utility power

Pop up powerstrip mounted into the top's surface. Top surface requires field cut-out.

- Two power outlets, One USB A+C 20W.
- Straight cord lengths: 24", 36", 48", 60", and 163" curly cord
- Modular power connector
- Optional tamper resistant

Pop up powerstrip with four outlets

includes under worksurface utility power. Top surface requires field cut-out.

- Two power outlets, One USB A+C 20W.
- Straight cord lengths: 24", 36", 48", 60", and 163" curly cord
- Modular power connector

Pyramid powerstrip, freestanding base.

- Two optional power configurations
- Four power outlets
- Two power outlets, 1 USB A+C 20W intelligence
- Straight cord lengths: 72" and 120"
- Modular power connector

Powerstrip Cord Options

Straight cord and modular power connector are available on all powerstrips.

Curly cord and modular power connector are available on powerstrip C-clamp, C-clamp with option utility power, and under worksurface utility power.

Distribution Block Options

Power distribution block grey for connecting power infeed, jumper, and user power (powerstrip/ accessory).

Tip: Cord clip screw length for minimum worksurface thickness of 1".

3 Way Splitter
Distribution Block (Black)

Infeed power splitter distribution block black for splitting infeed power in two directions when needed.

When universal modular power is specified with universal cable management tray, select option with tray mount.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

Power Infeed Options

Power infeed is available in straight cord lengths of 72", 108", 120", or curly cord length of 163". Straight cord or curly cord with 15A overcurrent protection, (OCP), plug. Plug options come either straight or 90°. Cords and plugs finishes come in black.

*Check first with authority having jurisdiction, AHJ, for Chicago installs as the power infeed is limited to 9 feet or 108".

*Disconnect assist hardware included.

Jumper Cord Options

Curly Cord Jumper

Straight Cord Jumper

Jumper cords are available in straight cord lengths of 48", 60", 72", 84", 96", 108", and curly cord length 163".

Minimum cord bend radius is 2⁹/₃₂".

Curly jumper cord is recommended for height adjustable desk.

Cord management P-clips attach to the underside of the top to assist cord routing.

Tip: Cord clip screw length for minimum work surface thickness of 3/4".

Connections

Powerstrip modular power connector to power distribution block grey

Insert the plug end into the bottom part of a grey distribution block. Top ports next to screw holes for power infeed and jumpers. Bottom port, at opposite end of screw holes is for powerstrip. Press until tabs lock into place.

Power infeed connector to power distribution block grey for one way power direction

Insert the infeed cord into the infeed port of the first distribution block. Press until tabs lock into place.

Power Distribution Block to Powerstrip - Grey

Infeed Power Splitter Distribution Block - Black

Power Infeed Cord

Power infeed connector to infeed power splitter distribution block black for two-way power direction

Use black power distribution block when power needs to be split, infeed power and jumper cords only.

Surface Materials

Power distribution block to powerstrip, grey

- Grey plastic

Infeed power splitter distribution block, black

- Black plastic

Power infeed cords and connectors

- Black

Jumper cords, straight or curly

- Black

Powerstrip, desktop

- Arctic white
- Merle

Powerstrip, 4 outlet utility power block

- Merle

Application Topics

Modular power system cannot exceed a maximum of 15A of current draw.

Single circuit system, up to 15A. See *How to Calculate Power Needs* on page 211 and approximate power consumption for common devices before space planning. More than 15A power draw will trip the overcurrent protector, OCP. For safety, all power accessories on the circuit will turn off. Once the power consumption is under 15A, the OCP can be reset.

Tip: When using with thread monument, specify standard straight plug head.

Dependent upon user power consumption and the total power infeed and jumper cord lengths limits:

- Height-adjustable desks with modular power, up to six desks back-to-back and up to four desks side by side, due to max cord length limits
- Eight NEMA outlets per desk limit with modular power

Tip: Local electrical codes vary, so consult with your local code authority, as they have final say if the products as installed are compliant with local code.

Universal modular power system is Nationally Recognized Testing Laboratory (NRTL) listed, UL962A.

A maximum of 10 distribution blocks (total of grey and black), and 50 feet including the power infeed cord, all jumper cord lengths to the farthest distribution block are permitted, in a single direction:

- If power infeed cord is split with the black infeed power splitter distribution block, then 50 feet in both directions or a total of 100 feet
- Powerstrip/accessory cords do not count toward 50 feet maximum limit
- Jumper curly cords are 163" or 14 feet. Three curly cords total 41 feet, power infeed cannot exceed 108" or nine feet, total 50 feet maximum

Power Infeed Length	+	Jumper Cord	+	Jumper Cord	+	Jumper Cord
Example: 108"	+	163"	+	163"	+	163" = 597" or 49.75 ft. (max. limit = 50 ft)

New York City—Furniture Power Distribution Units, FPDUs, can be used in New York City, per the official NYC Electrical Code. Check first with local authority having jurisdiction, AHJ.

Chicago - FPDUs, can be used on Listed freestanding furnishings in Chicago, limitations apply. Check first with local AHJ.

Chicago installations:

- Nine feet maximum length power infeed cord
- 30 feet maximum between all jumper cords and the farthest distribution block permitted, 39 feet total including power infeed cord. Use of the infeed power splitter distribution block, black is limited to 39 feet total in Chicago
- System must be attached to a Listed table or product
- Must be mounted on a portable furnishing (movable by one person)

Notice: A Furniture Power Distribution Unit (FPDU) is not for permanent installation as part of the building structure and not for mounting in a permanently installed furnishing such as a fixed countertop.

This FPDU is required to be plugged into a building receptacle, do not plug one powerstrip into another or into an extension cord.

Tip: Local electrical codes vary, so consult with your local code authority, as they have final say if the products as installed are compliant with local code.

Cords must be accessible for visual inspection.

Power distribution block must be mounted inboard to be fully contained under worksurface and account for minimum bend radius. Minimum cord bend radius is 2¼".

Maximum of eight NEMA 5-15 receptacles (power outlets) permitted per workstation.

Tip: USB power is not included in eight receptacle count.

Spacing between distribution blocks maximum length is 84" when using the 163" curly cord. Take into consideration anything that may obstruct the cord while desk is operating.

Cord management clip usage is recommended to route cords underneath the desktop and eliminate trip hazards and avoid aisle ways.

Straight cord jumpers between desks need to be carefully managed to avoid any type of collision or entanglement. Not recommended in any traffic areas, due to tripping hazard.

Curly cord jumpers are recommended with height-adjustable desk.

Do not route cords over barriers or objects that may cause dislodgement or stress on cords or connections. Cords are not intended to be routed through walls, windows, ceilings, floors or similar openings of buildings.

Actual Dimensions

Powerstrip with C-clamp (DSMPPSC)

Powerstrip, C-clamp with optional under worksurface utility power (DSMPPSC)

Under worksurface utility powerstrip, 4 power outlets (DSMPUP)

Overcurrent protection plug

Powerstrip with front edge mount (DSMPPSE)

Pop up powerstrip with four outlets under worksurface utility power

Flush mount powerstrip with four outlets under worksurface utility power

Pyramid powerstrip (DSMPPSPYR)

Furniture Applications Examples

Fixed-Height Desks

*Reminder, 50 feet maximum includes power infeed cord and all jumper cord lengths to the farthest distribution block, in a single direction, 15A maximum power draw.

Fixed-Height Desks—Side-by-Side Two-, Four-, or Six-Packs

Example of two-pack components:

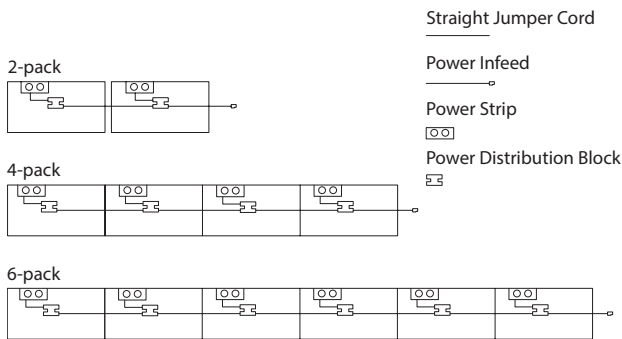

Quantity, description, style number

One power infeed (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC

Two power distribution blocks to powerstrip—grey, DSMPDB

One jumper cord, straight (48", 60", 72", 84", 96", or 108"), DSMPJS

Two powerstrips (cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPPUP, DSMPPSP, DSMPPSF, or DSMPPSPYR

Example of six-pack components:

Quantity, description, style number

One power infeed (72", 108", or 120"), DSMPINFEED

Six power distribution blocks to powerstrip - grey, DSMPDB

Five jumper cords, straight (48", 60", 72", 84", or 96"), DSMPJS

Six powerstrips (cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPPUP, DSMPPSP, DSMPPSF, or DSMPPSPYR

Tip: Power infeed and jumper cord lengths can vary if the total lengths all together are no more than 50 feet.

Fixed-Height Desks—Back-to-Back Two-, Four-, or Six-Packs

2-pack

4-pack

6-pack

Example of six-pack components:

Quantity, description, style number

One power infeed (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC

Three power distribution blocks to powerstrip—grey, DSMPDB

Two jumper cords, straight (48", 60", 72", 84", 96", or 108"), DSMPJS

Six powerstrips (straight cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPPUP, DSMPPSP, DSMPPSF, or DSMPPSPYR

Height-Adjustable Desks

*Reminder: 15A maximum power draw per power infeed. Under one power infeed system, multiple users adjusting desk height **at the same time** may cause the overcurrent protector to shut down all power, depending on total power draw from desk, worktools, and devices.

Items and Amp(s)	Ology Height Adjustable Desks 2 columns		
	Quantity	Constant Power (amps)	Peak Power (amps)
Desk in <i>Standby Mode</i>	1	0.0008	
Desk being <i>Adjusted</i>			2.5
Laptop	1	0.8	0.8
Monitor Screen x 1	1	0.5	0.5
Task light LED Intro 7W	1	0.06	0.06
Cell Phone Charger	1	0	2
Total Amps Individual		1	6
2 Pack		3	12
4 Pack		5	23*
6 Pack		8	35*

*If all desks are adjusting and phones charging at once, the circuit breaker will trip at 15A.

Height-Adjustable Desks—Side-by-Side—Up to four-pack only with curly cord jumpers, due to 50 foot maximum

- Example of four-pack components:
 Quantity, description, style number
 One power infeed (72" or 108"), DSMPINFEED
 Four power distribution blocks to powerstrip—grey, DSMPDB
 Three jumper cords, curly 163", DSMPJC
 Four powerstrips (straight cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPPUP, DSMPPSP, or DSMPPSF

Height-Adjustable Desks, continued

Height-Adjustable Desks—Back-to-Back Two-, Four-, or Six-Packs

2-pack

Powerstrip with curly cord option

Example of two-pack components:

Quantity, description, style number

One power infeed (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC

One power distribution block to powerstrip, grey, DSMPDB

One powerstrip (straight cord lengths 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPUP, DSMPPSP, or DSMPPSF

One powerstrip 163" curly cord, DSMPPSC, DSMPPSE, or DSMPUP

Example of four-pack components:

Quantity, description, style number

One power infeed (72" or 108"), DSMPINFEED

Four power distribution blocks to powerstrip—grey, DSMPDB

Three jumper cords, curly 163", DSMPJC

Four powerstrips (straight cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPUP, DSMPPSP, or DSMPPSF

4-pack pinwheel

Example of four-pack pinwheel (components same as back-to-back):

Quantity, description, style number

One power infeed (72" or 108"), DSMPINFEED

Four power distribution blocks to powerstrip - grey, DSMPDB

Three jumper cords, curly 163", DSMPJC

Four powerstrips (straight cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPUP, DSMPPSP, or DSMPPSF

Example of six-pack (not supported in SmartTools):

Quantity, description, style number

One power infeed (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC

Three power distribution blocks to powerstrip - grey, DSMPDB

Two jumper cords, curly 163", DSMPJC

Three powerstrips (straight cord lengths: 24", 36", 48", or 60"), DSMPPSC, DSMPPSE, DSMPUP, DSMPPSP, or DSMPPSF

Three powerstrips 163" curly cord, DSMPPSC, DSMPPSE, or DSMPUP

Conference/Collaborative Tables

Conference/Collaborative Tables—Four to Eight Seats

Edge power infeed

- Power infeed cord (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC
- Power distribution block(s) to powerstrip - Grey (two, three, or four), DSMPPDB
- Jumper cord(s), straight (48", 60", 72", 84", 96", or 108" lengths), DSMPJS
- Powerstrip, edge mount (cord lengths 24", 36", 48", or 60"), DSMPPSE

Center power infeed

- Power infeed cord (72", 108", 120", or 163"), DSMPINFEED or DSMPINFEEDC
- Infeed power splitter distribution block - Black (one), DSMPSPB
- Power distribution block(s) to powerstrip - Grey (two, three, or four), DSMPPDB
- Jumper cord(s), straight (48", 60", 72", 84", 96", or 108" lengths), DSMPJS
- Powerstrip, edge mount (cord lengths: 24", 36", 48", or 60"), DSMPPSE

Universal Modular Power—Under Worksurface Utility Power Four Outlets

Tip: Under worksurface utility power block does not ship with independent mounting hardware. Designed to be used with the Universal cable management kits.

Tip: Do not use a vertical cable manager with a curly cord.

Tip: Height-adjustable desks can be plugged into utility power for a 'one cord down' solution.

Tip: When specifying under worksurface utility power and power distribution block or power splitter block with tray mount, a large universal cable management kit (DSTRAYLG) is required.

Relay Modular Power System Overview

When multiple workstations, tables, or lounge furniture need to be connected to one another, providing power to the entire series, Relay Modular Power can be specified to enhance existing furniture settings with power access.

Relay modular power system provides a NRTL listed solution of continuous power to a group of furniture or lounge settings. Plug and play NEMA plug connects to the building's outlet, no hardwiring, and no electrician is needed.

Add Relay to existing, non-powered furniture/lounge, when multiple powerstrips must be connected by one power infeed.

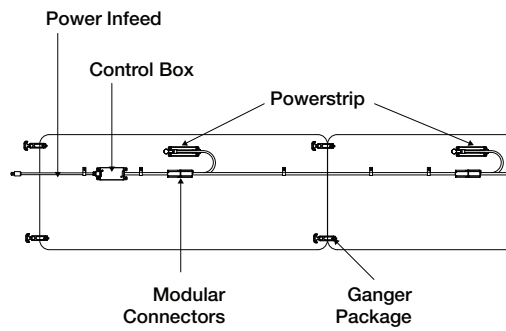

- Used on linear, fixed height tables, flip top training tables, or lounge furniture.
- One direction, non-sequential, modular power system.
- Push button, quick release connector; designed for easy and frequent reconfiguring and connecting of furniture applications.
- One power infeed control box allows up to 15-amp max.
- One power infeed and control box can have up to eight total connections and extend up to 40 feet, from plug to last connection.
- One connection is either a powerstrip or jumper cord.
- Relay modular power system is NRTL listed, industry safety standard UL962A furniture power distribution unit.

The installation of the Relay modular power system must be performed in accordance with all assembly directions. Improper usage could result in risk of fire or electric shock. Only connect to products with Relay modular power system connectors. For use in indoor, dry locations only. Always check first with authorities having jurisdiction.

Relay Modular Power System Overview— Table Power

Power infeed and control box powerstrip cord management clips with NEMA plugs.

Example of tables that connected with Relay modular power and flex ganger:

***Per UL 962, D4.1.3** When two or more tables are capable of being used in combination, a mechanical means of securement between tables shall be provided. See Section D7, Mechanical Assembly.

If connecting two or more furniture pieces and there is no mechanical securement hardware, flex ganger package is available and sold separately, style **TS4FG**.

Examples of existing tables that can be retrofitted with the Relay Modular Power System.

Examples of Table Configurations

Examples of Table Configurations

Powerstrip

Jumper Cord

Flex Gangers (TS4FG)
 ▶ See Conference and Collaborative Tables Specification Guide

Tables 36"W to 60"W—
no jumper required

Tables 60 1/16"W to 84"W—
jumper required

Tip: Jumper cords are not required on tables 60"W or less.

Table Power Cutout Specifications

Prior to making the cutout for powerstrips with flush or pop up mount, evaluate what other items will be added to the worksurface, such as modesty panel. Ensure the power unit will not interfere with those items, nor the understructure.

Cutouts must be a minimum of 2.5" from edge of worksurface (dimension A). Novell

Relay Modular Power System Overview— Lounge Power

Examples of Relay modular power system being applied to existing lounge furniture pieces.

Relay modular power system allows power to be run across multiple ganged lounge units without requiring an electrician.

Tip: Relay components attach with screws, ideal for attaching to wood frame applications.

Product Details

Power Infeed and Control Box

Power Infeed and Control Box:

- 15A max.
- Eight connections max, one connection is either a powerstrip or jumper cord or a max of eight power strips and jumper cords can be connected to one power infeed and control box.
- 40 feet max from plug to last connector.
- Control box monitors the number of connections. When powered, a green light appears. If more than eight connections are detected, light turns red, indicating it has exceeded the number of connections. Reset by disconnecting extra connections and unplug power for 15 seconds. Reconnect power to the control box and indicator light will turn green.
- Control box bracket with screws included, attaches to a surface with a minimum thickness of 3/4".

Power cord length options:

options: 72", 108", 120"
Tip: Chicago 108" maximum cord length.

Power plug options:

- Standard NEMA 5-15 3-prong plug
- 90° NEMA 5-15 3-prong plug
- Thread low-profile plug
Finish: black

Jumper Cord with Modular Power Connector

For use to span ganging furniture or provide extra length between powerstrips. Optional 15" and 30".

Jumper cord connects two powerstrips together for additional length when needed, in lounge settings or on furniture 60¹/₁₆"W up to 84"W.

Powerstrip with cord lengths

Powerstrip Options: Powerstrips with USB A+C 20W Intelligence

- If only USB-C in use, delivers what the device needs up to 20 watts.
- If only USB-A in use, up to 10 watts.
- If both USC A+C in use, USB-A delivers up to 10 watts and 10 watts to USB-C. If USB-A device needs less than 10W, the remainder, up to 20 watts, goes to USB-C device.

Powerstrip C-Clamp, 2 power outlets, 1 USB A+C 20W intelligence

- Tamper resistant power outlets.
- Control box bracket with screws included, minimum worksurface thickness 3/4" permitted.

Power cord lengths with modular connectors:

- 40"
- 50"
- 60"

Finishes:

- 6009 Arctic White
- 6527 Merle

Powerstrip Front Edge Mount, with 1 power outlet, 1 USB A+C 20W intelligence

- Tamper resistant power outlet
- Footprint needed for installation

Power cord lengths with modular connectors:

- 40"
- 50"
- 60"

Finishes:

- 6009 Arctic White
- 6527 Merle

Powerstrip Flush Mount

Power configurations:

- 3 power outlets
- 2 power outlets, 1 USB A+C 20W intelligence
- 2 power outlets, 1 data post
- 1 power outlet, 1 USB-C 100W
- Optional tamper resistant power outlets available.
- Faceplate keystone provided when data is specified. Coupler/jack not included
- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice

Power cord lengths with modular connectors, black finish:

- 40"
- 50"
- 60"

Finishes:

- 6000 Black
- 6009 Arctic White
- 6053 Seagull
- 6527 Merle

Flush mount powerstrip requires the worksurface to be cut in the field. See assembly directions for details.

Pop Up Powerstrip

Power configurations:

- 3 power outlets
- 2 power outlets, 1 USB A+C 20W intelligence
- 2 power outlets, 1 data post
- 1 power outlet, 1 USB-C 100W
- Optional tamper resistant power outlets available.
- Faceplate keystone provided when data is specified. Coupler/jack not included
- Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice

Power cord lengths with modular connectors, black finish:

- 40"
- 50"
- 60"

Finishes:

- 4799 Platinum Metallic
- 6000 Black
- 6009 Arctic White
- 6053 Seagull
- 6527 Merle

Pop up powerstrip

requires the top's surface to be cut in the field. See assembly direction for details.

Tip: When selecting 4799 Platinum Metallic on the pop up powerstrip the faceplate will be merle.

Flush Mount and Pop Up Power Configurations

Actual Dimensions

Pop Up Power

Flush Power

Powerstrip C-Clamp

Powerstrip Front Edge Mount

Wiring & Cabling

Cord Management P-clips

P-clips cord management clips attach to the underside of the top to assist cord routing. Used as accessory and where infrequently moving power unit. Cords must be managed 24 inches max from the connection point and cannot hang below worksurface more than six inches. Powerstrip includes 5 P-clips and 3 J-clips.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

J-Clip Cord Management

J-clip cord manager attaches to the underside of the top to assist cord routing. Included with powerstrips, infeed power, and jumpers. Install J-clips near cord ends where connection and disconnection occurs between tables, so cords are well managed when not in use. Cords must be supported no more than 24 inches from connector edge and cannot hang below worksurface more than six inches.

- Powerstrip includes 5 P-clips and 3 J-clips.
- Power infeed includes 3 J-clips.
- Jumper cord includes 3 J-clips.

Tip: Cord clip screw length for minimum worksurface thickness of 3/4".

Connections

Supports for mechanical means of securement between two or more tables.

Flex Ganger Package	Style Number
Flex Ganger	TS4FG

Flex ganger packages are available and are installed on-site. They are useful in situations when tables will frequently be reconfigured and reganged. Specify one package for each table.

Flex gangers can be used to easily link adjacent tables in multiple configurations. Flex gangers use a flexible loop that engages a hook to hold two adjacent table tops in place. No tools are required to stretch the loop across the seam between two table edges and to connect it to the hook on the adjacent table.

Flex gangers that are not in use can be folded back into the parked position.

Relay Modular Power System— Flush Mount Powerstrip

Tip: Flush mount and pop up powerstrips require the top's surface to be cut in the field. See assembly directions for further details.

Tip: For USB-C 100W port, use USB-C charging cable rated for 100W use for full charging benefits. Charging cables not included.

Tip: Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code.

Tip: Optional data port adapter, coupler/jack not included. Verify fit of jack in adapter before ordering large quantities as manufacturer designs may change without notice.

Tip: Faceplate mounts flat just above the worksurface top.

Tip: Faceplate keystone provided when data is specified.

Steelcase Flex Mobile Power

Steelcase Flex
Mobile Power

Steelcase Flex mobile power is a sleek, smart mobile power solution that gives teams and individuals the freedom to work anywhere they want.
▶ Specifying, page 262

Steelcase Flex mobile power is ordered and shipped as a kit of five mobile power units and one mobile power charging tray.

Bumper is an option on mobile power charging tray. Order no bumper option for mobile power integrated into the Steelcase Flex mobile power charging cart.
Tip: Bumper can be added or un-installed in the field.

Mobile power charging tray can charge five mobile power units simultaneously in approximately five hours.

USB-C ports can charge a single 100W laptop or up to two 60W laptops simultaneously. USB-C charging cable rated to 100W for full charging benefits. Charging cables not included.

USB-A port can provide up to 18W, ideal for devices like earbuds, phones, and tablets.

Total wattage of all three ports cannot exceed 120W. See user guide for more details.

Product Details

Steelcase Flex mobile power units have a capacity of 154-watt hours each and can provide up to 120-watts of power simultaneously to up to three devices; two USB-C and one USB-A devices.

Battery chemistry utilizes cobalt-free Lithium Iron Phosphate battery cells designed to maintain 80% of their capacity after 2,000 cycles.

Mobile power charging tray can be specified as standalone freestanding tray, with a bumper on the outside with rubber feet, or without the bumper so it can be integrated into the Steelcase Flex mobile power-charging cart.
▶ Specifying, page 264

Mobile power charging tray ships with a freestanding 200-watt power supply.

Product Performance

Mobile power can only charge laptops that receive power via a USB-C port. Use of adapters or converters from USB-C to legacy barrel jack connectors may void Steelcase and laptop warranty.

Surface Materials

Steelcase Flex Mobile Power

Tip: Mobile power and tray ship separately via FedEx ground due to lithium ion battery regulations.

Tip: With bumper has a total charging cord length of 113.3" or 9.4 feet.

Tip: No bumper has a total charging cord length of 83.7" or 7 feet.

Tip: Order no bumper option when using Flex mobile power charging cart, (cart sold separately).

Tip: Order with bumper for freestanding use.

Tip: USB-C charging cable rated to 100W for full charging benefits. Charging cables not included.

Tip: Flex Mobile power can only charge laptops that receive power via a UCB-C port. Use of adapters or converters from USB-C to legacy barrel jack connectors may void laptop warranty.

Steelcase Flex Mobile Power Charging Cart

Steelcase Flex Mobile
Power Charging Cart

Steelcase Flex mobile power charging cart allows for convenient charging for up to 10 mobile power units with one cord to connect to an outlet.

► Specifying, page 264

Two charging shelves always ship with cutout and railing to accommodate two mobile power charging trays. Mobile power kit ordered separately, see page 268

Flex mobile power charging cart is shipped with cable management clips and routing for power cords that come from trays. These will match the frame color that is specified.

Product Details

Top and middle shelves are painted black to match the charging tray and batteries.

Frame and bottom shelf sections will always match.

Mobile power charging cart does not accommodate clips or hooks for hanging accessories or markerboards.

Mobile power charging cart is available with either a standard three prong NEMA plug for use with standard receptacles or with Steelcase's proprietary thread low-profile plug.
