

Design Solutions - COLORTEX™ TRIMETRIX™

INSTRUCTIONS FOR USE:

1. Select desired ceiling tiles from this Revit File.
2. Use the **copy** command and **paste** it into your current project.
3. Under the **Manage** tab select the materials command and Re-path the image files included in the download to your Revit images folder.
4. Ceiling panel has a "Ceiling Drop" parameter to allow for MEP services to pass above the panels. The distance is measured from the host surface.

GENERAL NOTES:

- These Revit families are "Face Based Generic" They are to be attached to a Reference Plane, typical.
- These Revit objects are digital representations only of the USG Ceilings Plus® COLORTEX™ TRIMETRIX™ direct mount ceiling panels.
- Reference USG Ceilings Plus® literature (located at www.usg.com) for detailed product information. Please contact your USG Ceilings Plus® representative for additional information.
