## INSTRUCTIONS FOR USE:

1. Select desired ceiling from this Revit file.
2. Use the **Copy** command and **Paste** it into your current project.
3. Using the Material Browser, go to the Appearance tab to Re-path the image files included with your Revit file download.

## GENERAL NOTES:

- These Revit generic model families are digital representations of the USG Ceilings True® Wood Lay-In Panels and are to be used with USG Heavy Duty ceiling suspension systems.
- Provided Revit families and material images are representational only. There may be slight dimensional differences from actual manufactured product.
- Typical installation details in both Revit and AutoCAD formats are available on USG.com at <https://www.usg.com>
- Please reference USG literature (located on USG.com) for additional information regarding acoustical performance and perforation options.
