

Restoration Millwork® Paint Color Guide

Exterior PVC Trim

Uniquely Yours— in Every Shade

With Restoration Millwork® or CertaTrim® Exterior Trim, your design vision comes to life in color. Whether you're looking to coordinate, complement, or make a bold statement, the choice is uniquely yours.

Thanks to Sherwin-Williams® VinylSafe® Color Technology*, you can confidently paint PVC trim in both light and dark shades—without compromise. The advanced, water-based coating system is engineered for high performance and direct application in a single coat.

Plus, Sherwin-Williams paint helps conceal nail holes and putty marks, ensuring every detail is intentional and beautifully finished.

Create Your Color Story

Use the color suggestions provided in this brochure. Or go on-line and use our ColorView® selection tool at colorview.certainteed.com

*Sherwin-Williams VinylSafe® Technology colors and AquaSurTech colors/stains should be used when choosing darker colors that have a Light Reflecting Value (LRV) of 54 or lower. For colors with an LRV of 55 or higher (the higher the LRV, the lighter the color), you can safely use an acrylic latex paint.
