Exterior Trim

Create an exterior with real curb appeal...

On Cover

Siding: Cedar Impressions Double 7"
Straight Edge Perfection Shingles
and Monogram Double 4"
Clapboard in Charcoal Gray.

Trim: Restoration Millwork® sheets and
trimboards.

Multiple profiles used in water-table application and skirting.

Sheets, Beadboard and Shingle Mould with Trimboard.

J-Pocket Corner and Trimboard combination.

From distinctive charm to timeless style, homes dressed in Restoration Millwork trim have curb appeal that always generates a second admiring look. With so many options in trim styles, there's no limit to what you can create.

High-Performance Cellular PVC

While CertainTeed cellular PVC looks and feels like top-grade lumber, it provides performance and aesthetic advantages that wood and other materials just can't match.

- Superior quality and excellent dimensional accuracy
- Low maintenance and long-lasting UV-resistant material
- Natural white and ready to install
- Can be painted* to complement exterior colors
- Cuts and mills with traditional woodworking tools
- Class A (Class 1) Flame Spread Classification
- Made in U.S.A.
- Contains recycled content
- 25-year limited warranty

*See Installation Guide (17-03-1600-US-EN) for instructions on painting.

Crown and Base Cap build-up with Beadboard Panel ceiling.

Make a Beautiful Entrance

First Impressions

Open the door, or window, to creative expression with Restoration Millwork profiles. From traditional and subdued to playful or dramatic, Restoration Millwork's broad range of profiles can be combined into design elements that can highlight and add drama to entranceways, while framing windows with added flair.

Choose from a variety of profiles to create any variation for door and window surrounds. For more information and great ideas, go to certainteed.com.

BACK BAND

RAMS CROWN TRIM BOARD

SHINGLE MOULD TRIM BOARD

BRICK MOULD

BASE CAP

Base mouldings provide a grounding element of architectural millwork appropriate for any traditional or contemporary application requiring exceptional depth of wood work design.

CROWN MOULDING

Derived from a classic style dating back to the golden age of Greek architecture, #45, #47 and #49 crown is used to bridge the corner between wall and ceiling.

BED MOULD

Historically the moulding or group of mouldings immediately beneath the corona of a cornice that is used as a transition above the frieze.

Coordinate, contrast or complement with CertainTeed exterior siding colors.

Restoration Millwork stays beautiful without the need for painting. However, you can paint Restoration Millwork using CertainTeed certified paints & stains. Sherwin-Williams® VinylSafe™ paints* are comprised of tints formulated to follow CertainTeed's best-in-the industry exterior products color palette. AquaSurTech™ extremely fast air dry and quick clean up paints are CertainTeed approved, as well as their TruStain™ product which provides a real wood stain look to the PVC product.

Start exploring preset color combinations and create your own custom exterior with on-line, interactive tools, designed to help you "Visualize Your Home"
Start now at colorview.certainteed.com

**Sherwin-Williams VinylSafe Technology colors must be used when choosing darker colors that have a Light Reflecting Value (LRV) of 54 or lower. For colors with a LRV of 55 or higher (the higher the LRV, the lighter the color), you can safely use an acrylic latex paint.*

Custom-painted Restoration Millwork

Make a statement with color

Trim color can have a dramatic effect on the look of your home.

Similar colors give you a blended look. An accent color can work in complementary fashion.

Choose a bolder accent to create striking contrasts.

Painted Restoration Millwork in Forest

Installs Clean with Protective Film

Individual trimboards are equipped with a protective film, protecting trimboards from smudges, dust and dirt. Boards are protected right up to installation, eliminating the need for job-site cleanup.

Hidden Fastening System

Fast and simple, the Hidden Fastening System makes fastener heads virtually invisible—resulting in a far more beautiful finished look. Fasteners provide a strong connection that can be painted. Use with CertainTeed Restoration Millwork PVC trim in both smooth and TrueTexture™ finishes. Available in 50, 250 and 750 lineal foot packages.

See **Installation Guidelines** (17-03-1600-US-EN) for more information on painting and fastening.

Sustainability for a lifetime

CertainTeed respects the environment through the responsible development of sustainable building products and systems. CertainTeed cellular PVC Trim gives building professionals and homeowners confidence that the homes they design, build, maintain, and occupy are made with sustainable materials that enhance every project's performance and beauty.

The Elements of Style

In the hands of a true craftsman, millwork is a tool for expressing creativity, attention to detail and a commitment to quality. With Restoration Millwork, there are so many ways for a craftsman to make his mark — and for homeowners to define their style. From accents to details, traditional designs to contemporary statements, Restoration Millwork's broad selection of millwork components and trimboard sizes make it easy to create a distinctive custom look.

The Finishing Touch

Sometimes it's the little things that make a big difference in creating a distinctive home exterior. Restoration Millwork trim is a subtle finishing touch that brings exterior components beautifully together, creating definition and symmetry, while allowing exterior colors, profiles and design elements to take center stage.

FinishedEdge™

Edges are heat sealed to prevent dirt from collecting on surface.

Installation

Traditional face nailing or Hidden Fastening System.

TrueTexture™ Finish

CertainTeed's TrueTexture woodgrain finish is molded from real cedar boards, creating a realistic appearance with smooth finish on reverse side.

Smooth Finish

Smooth finish creates the appearance of clean, freshly painted wood, and is smooth on both sides.

Trimboards

Be creative!

From window boxes to bird houses, it's easy to build unique exterior elements with Restoration Millwork trimboards.

J-Pockets and Cut-Outs

The built-in J-pocket eases installation of corner trim and the cut-out allows the trimboard to lie flush with the siding around windows and doors with built-in nail flanges, allowing for more perfect miter cuts at the corners.

A Great Start, a Quality Finish

Restoration Millwork cellular PVC Skirtboard helps building professionals improve installation time and accuracy, while providing a beautiful finishing touch.

Restoration Millwork Skirtboard meets U.S. building codes requiring 6 in. ground clearance when installing claddings such as fiber cement or engineered wood. It's also ideally suited for use as a transition panel between siding styles. For ultimate style flexibility, Skirtboard panels are reversible, featuring a TrueTexture™ woodgrain finish on one side and a smooth finish on the other.

Beveled for Precise Installation

Featuring a slight angle at the top lap, Skirtboard is designed to match the angle of most hardboard cladding panels, when used as a starter strip, enabling a perfect fit, without gaps or spaces.

DualStart® Design

Reversible Skirtboard (patent-pending) panels feature a CertainTeed exclusive TrueTexture woodgrain finish on one side, and a smooth finish on the other. The top and bottom edges are identical so when flipped over there will always be a beveled edge at the top to set the first course and built-in drip edge at the bottom.

Built-In Drip Edge

Skirtboard panels are identically notched on both top and bottom, creating a natural drip edge, stopping water from traveling back to the house.

Skirtboard

5/4 in. x 8 in. x 12 ft.	1 in. x 7-1/4 in. x 12 ft.	•

Use as a Skirtboard or Transition Panel

Skirtboard can be used as a Skirtboard when starting your hardboard cladding installation, as well as a trimboard for use in transition areas between different siding styles. Skirtboard is ideal for lap siding and perfection shingles, as well as with shapes.

Style Around Every Corner

Restoration Millwork adds a finishing touch around every corner. One-piece corner components add style and corners are available in natural white, and like all Restoration Millwork components, can be painted to match or coordinate with other exterior elements. Traditional face nailing methods can still be used on every one-piece corner style.

Smooth Finish

Smooth finish creates the appearance of clean, freshly painted wood.

TrueTexture™ Finish

CertainTeed's TrueTexture woodgrain finish is molded from real cedar boards, creating a realistic, rustic appearance.

InvisiPro+® Corner

InvisiPro+ provides an attractive, easy-to-install alternative to traditional face nailing. One-Piece Corner featuring a hidden nail hem integrated into the J-pocket to conceal fasteners. The end result is a nail-free face with no holes left to fill.

Pre-Cut and Pre-Mitered for Fast, Easy Installation

Durable, cellular PVC Restoration Millwork Column Wraps are now available directly from CertainTeed. Column wraps are pre-cut and pre-mitered to slide around and swing closed on existing wood load-bearing 4 in. x 4 in. or 6 in. x 6 in. porch posts. Because most of the assembly and gluing is already done, Restoration Millwork Column Wrap makes installation fast and easy, always square, true, and accurate.

Simple and versatile, with 2 column widths — 8 in. x 8 in. and 10 in. x 10 in., and 2 Cap/Base Trim set designs — Restoration Millwork Column Wrap helps installations move faster, while adding long-lasting beauty to porch designs and other exterior areas.

2 Styles, 2 Sizes

8 in. x 8 in. x 9 ft.

10 in. x 10 in. x 9 ft.

Each size available with:
Estate Cap/Base Trim Set
Classic Cap/Base Trim Set

The Estate
Cap/Base Set

The Classic Cap/Base Set

**Pre-Cut and
Pre-Mitered...
Always square,
true, and
accurate.**

1. Attach Blocking

Secure the included blocking around an existing 4 in. x 4 in. or 6 in. x 6 in. load-bearing post. The blocks help reinforce and square up the column installation.

2. Slide Wrap Around an Existing Post

Slide the three-sided Column Wrap with the swinging door closure around the post. Column Wrap comes cut to length for 9 ft. openings, and can be field cut to 8 ft. or adjusted to work up to 10 ft.

3. Swing Door Closed

Apply PVC adhesive to facing edges and close the door on the wrap for a clean, secure finish. Pre-cut, pre-mitered, and in 2 widths, with 2 Cap/Base Trim Sets to choose from, Column Wraps add a touch of traditional elegance.

The Craftsman’s Choice

The mark of true craftsmanship is an imagination that knows no limits and the skill to bring ideas to life. Restoration Millwork sheets offer a blank canvas of design possibilities. Available in a full selection of custom and standard sizes and shapes, sheets can be used to create distinctive, one-of-a-kind exterior elements that are as beautiful as they are durable.

TrueTexture™ Finish

CertainTeed’s TrueTexture woodgrain finish is molded from real cedar boards, creating a realistic appearance with smooth finish on reverse side.

Smooth Finish

Smooth finish creates the appearance of clean, freshly painted wood, and is smooth on both sides.

Start with one of the many profiles available or make your own mouldings and trim pieces.

Beadboard

Beadboard, 2TL, 3TL and WP4 are designed to be reversible, which allows for two unique looks from the same board.

Restoration Millwork now offers reversible panels pre-cut with a WP4 groove on one side and a 1/4 in. Nickel Gap on the other to help create the desired look for your project. The new profiles were developed with the TightLap™ design to provide a larger nailing area and easier installation.

The Choice is Yours!

Whether the job calls for Traditional Beadboard, larger panels or craftsmen inspired patterns, Restoration Millwork cellular PVC offers the right solution to make an authentic statement. Now, with more Beadboard options and the new TightLap™, there's no limit to what you can create.

**Beadboard with
Traditional Tongue
