Self-Adhered Underlayment Advantages

Light Weight

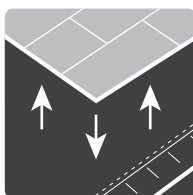

Great performance with light weight; fast and easy installation.

** VYCOR®
Select Only

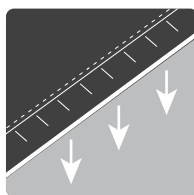

Superior Lap Adhesion

Better protection against leaks; strong adhesion in low temperature performance; job done well the first time.

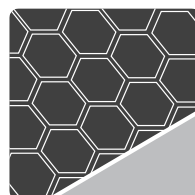

Re-roofable

Shingles can be easily removed from existing VYCOR® underlayment during re-roofing; easier and less costly retrofit applications.

Higher Adhesive Content; No Fillers

Strong defense against wind-driven rain and ice dams; protection against costly call backs.

Proprietary Film Surface

VYCOR® underlayment has a layer of specially coated and embossed high-density cross-laminated polyethylene film for enhanced traction and safety during installation.

Trusted for Over 45 Years

Formula created by a basis of VYCOR® ICE & WATER SHIELD®.

Waterproofing underlayment approved for use under the listed roofing materials
