RESOURCEFUL LUXURY,
ACOUSTICALLY REFINED.

QUIET SIDE

FLEXFORM SOUND™ LVT

In today's refined commercial and hospitality spaces, wellness and comfort are paramount, driven by a focus to create environments that support focused work, recovery, and productivity. Quiet Side is an acoustic Resilient collection designed around this crucial shift. It prioritizes acoustic design to absorb noise and foster a profound sense of calm, while using nature-inspired, biophilic wood visuals to create truly restorative environments. This foundational offering brings resourceful luxury to the mainstream.

CURATED WARMTH

A PALETTE THAT SOFTENS MINIMALISM

This 16-color palette moves decisively toward warm neutrals, providing depth and restorative warmth to a space. These wood looks soften stark minimalism with texture. The collection tastefully embraces darker, luxe tones, including Walnut and Deep Mahogany. This rich visual choice aligns with a modern retro styling and a shift toward resourcefully luxurious visuals. The five patterns feature distinct grain details and unique character.

THE QUIETEST RESILIENT.

SILENCE THE NOISE, AMPLIFY COMFORT.

Noise is an unseen disruptor, often increasing stress and reducing productivity in commercial environments. Quiet Side features our differentiated FlexForm Sound™ 5.0 mm Acoustic LVT platform, built with integrated acoustic layers for superior performance. It is third-party verified to reduce through-floor and in-room noise by up to 50% more than other resilient flooring products. This is not just flooring; it is a foundational element for fostering calm and focus in high-traffic spaces.

FLEXFORM SOUND™ LVT

Built-in acoustic layers enable dramatic acoustic performance, **reducing through-floor noise and in-room noise by 50% more than similar flooring products.***
